## Reporting Guide

---

The following reports are available:

<b>Matching Report – Automatically Generated</b>	This matching report provides details of all matched members for the selected payroll. It is automatically generated at the end of the matching process.
<b>Auto Enrolment Omissions Report – Automatically Generated</b>	The auto-enrolment report is automatically generated after each file upload and identifies employees who have reached the age of 22 and/or who have hit an earnings trigger.
<b>Workforce Evaluation Assessment (PDF) Report – Automatically Generated</b>	This report provides details of the worker classification of each employee on the payroll extract file. The report is produced only for uploads with a payroll period end date prior to your staging date.
<b>Workforce Evaluation Assessment (CSV) Report – Automatically Generated</b>	This report includes all the information from the above report, plus additional member related data and is output in a comma separated values (CSV) format. The CSV output can be used as a mail merge data source when communicating auto enrolment status to members.
<b>Transactions Report - Manually Generated</b>	This report provides details of the event processing for each upload within the selected date range event for the selected payroll.
<b>TPR Report - Manually Generated</b>	This report provides a summary count of new starters by auto-enrolment classification, opt-outs, re-enrolments for all payrolls for an employer and a calendar month.
<b>File Submission Report - Manually Generated</b>	This report provides a list of payroll extract files submitted within the specified date range. Details include the number of successful, unsuccessful and partially successful members processed (as a percentage), together with the number of transactions, date submitted and the expected submission date.
