MANAGEMENT COMMENTARY / FOREWORD

Report by the Interim Convener of the Pensions Committee

In August 2020 I was appointed Interim Convener of the Pension Committee, stepping in on behalf of Councillor Rankin owing to a period of ill health.

The world continued to face an unprecedented situation with the Coronavirus affecting the lives of us all. Nevertheless, the team have shown professionalism and diligence throughout this period, remaining focussed on providing our scheme members and employers with the excellent service they have come to expect.

During the year Doug and his leadership team have continued to work towards the strategic goals for the Fund, supported by the Committee. Excellent progress was made, including implementing the LPF Digital Strategy, contributing to the SPPA consultation to address discrimination, as well as preparation for the implementation of the new legislation. In addition, I'd like to recognise the considerable work undertaken for the Fund's Actuarial Valuation this year.

Doug resigned in February 2021 ahead of a move overseas with his family. He is succeeded by David Vallery, who joined LPF as CEO in June 2021. David has a proven track record of success in the financial sector and I'm confident that his experience and knowledge will benefit LPF and further enrich the great work that we're doing for members and employers.

It has been a pleasure to get to know the other Committee Members and the Pension Board Members over the last year. The success of the Fund depends on all of us and I would like to thank the Committee, Pension Board, employers and all the Fund's employees for their continued commitment in delivering an uninterrupted service to members through these challenging and difficult times.

Councillor Rob Munn
Convener, Pensions Committee

MANAGEMENT COMMENTARY / FOREWORD

Report by the Convener of the Pensions Audit Sub-Committee

The Pensions Audit Sub-Committee's prime role is to monitor the operation of the Fund's internal controls, governance, risk and compliance arrangements and financial reporting.

We met virtually over the year due to the continued covid restrictions, but otherwise, thankfully, were largely unaffected by the restrictions and met three times as scheduled. The key activities over the last year included consideration of the Annual Report, reports and plans from internal and external audits, group controls and compliance, data quality, fraud and the quarterly risk update, as well as an annual in-depth review of the LPF risk register that we consider in December.

The Pensions Audit Sub-Committee provides referrals and recommendations to the Pension Committee and has a valuable role in providing additional scrutiny of the pension funds and further assurance for our scheme members and employers of good governance and oversight within LPF.

Councillor Cameron Rose
Convener, Audit Sub-Committee

Report by the Chair of the Pension Board

I was appointed as Chair of the Pension Board in April 2020, having served as employer representative on the Pensions Board since 2016. The Pension Board comprises five representatives from both employers and members. Vacancies have arisen during the year and the Pensions Board has had an active role in the revision of the Fund's nomination and appointments policy to support the fulfilment of these vacancies.

The Board's primary function is to assist the administering authority, as Scheme Manager, in ensuring effective and efficient governance and administration of the Fund. This includes compliance with the LGPS regulations, and any other relevant legislation and requirements imposed by the Pensions Regulator in relation to the scheme.

The Board's deliberations are augmented by both officers of the Fund (on their specific areas of expertise) and by the Fund's Independent Professional Observer.

The Board has convened four times over the year, and also had representation at the Pension Committee meetings and the Audit Sub Committee meetings. Board members have maintained regular communication via email and retained access to relevant information despite restrictions on face-to-face meetings. Due to current restrictions, meetings will continue to be held remotely in line with the usual governance arrangements for the Fund.

MANAGEMENT COMMENTARY / FOREWORD

Members of the Pension Board (and the Pensions Committee) are required by the Regulator to undertake regular training to be able to effectively undertake their important role. This necessary training is delivered jointly for both Board and Committee whenever possible. In addition, each member has had the opportunity to attend a variety of online seminars, webinars and other pension related virtual training to broaden their pensions knowledge.

Along with its usual primary functions, during this year the Board has also: reviewed their composition and updated its constitution; provided feedback to the Fund's governance review; established regular links with the national Scheme Advisory Board; and applied key focus on governance in relation to performance updates from the Fund, reporting duties of breaches in law and the application of strain costs.

I am delighted to continue as Chair of the Board for another year. With upcoming legislative changes to consider, such as The Pension Regulator's revised code of practice and pension remedy as a result of age discrimination in public service pension reform, it is set to be another busy year ahead.

Sharon Dalli
Employer representative, Chair of the Pension Board

An introduction from the new CEO

I'm delighted to join Lothian Pension Fund, taking over from Doug Heron as the Chief Executive Officer. With over 84,000 members and £8bn of assets, LPF is a major part of the LGPS in Scotland which is of critical importance to the financial well-being to around one in five people in Scotland.

I look forward to working with the team to ensure we continue to deliver an excellent service to all members and employers and make it a great place to work.

David Vallery
Chief Executive Officer

MANAGEMENT COMMENTARY / FOREWORD

Report by the Independent Professional Observer

As the Fund's Independent Professional Observer, my role helps strengthen Fund governance by providing the Pensions Committee and Pension Board with independent guidance and impartial knowledge independently from the Fund officers.

I have more than 30 years of pension experience working with pension trustees on topics including investment, actuarial guidance and governance.

I provide quarterly updates to assist the Pensions Committee and Pension Board with their oversight of the pension funds, with funding, investment and collaboration being considered along with normal business of funds. To ensure that I'm available to assist all those involved in the governance of the Fund, I also attend the Pension Board meetings, Pension Committee meetings, Audit Sub Committee meetings and, once a year, the joint Investment Strategy Panel. I also contribute and attend all of the LPF training events.

Andy McKinnell
Independent Professional Observer

WHAT OUR MEMBERS SAY:

'Lothian Pension Fund have administered pensions in both public sector organisations I have worked in. It was really straightforward to combine them, and I've always found LPF very easy to contact and helpful.'

Sarah Hughes-Jones, Information Compliance Manager, City of Edinburgh Council

MANAGEMENT COMMENTARY / FOREWORD

Report by the LPFE Chair

LPFE provides the necessary people capacity and capability to the Lothian Pension Fund group to enable the administration of the Funds. Over the last year we met virtually on six occasions and considered key items including our remuneration policy, resourcing, Covid-19 contingency planning, as well as the results and actions from our 'Engage Survey' for our colleagues. We also appointed an additional Non-Executive Director in February 2021 to further enhance our governance. In addition, an update of our activities is reported to the Pension Committee each year. I would like to thank all our colleagues and the Pension Committee for their commitment and hard work over an exceptional and challenging year.

Dr Stephen S. Moir
LPFE Chair
Executive Director of Resources, The City of Edinburgh Council

Report by the LPFI Chair

LPFI provides regulated investment advisory and portfolio management service for LPF and the group's collaborate partner funds. The LPFI Board met on ten occasions (virtually) over the last year where we oversaw the extension of the company's services to include portfolio management mandates to partner funds, in addition to the existing investment strategy and private market deal execution and monitoring support. The LPFI board also appointed an additional Non-Executive Director in January 2021. An update on our activities is reported to the Pension Committee each year. I am proud of the team and their achievements over the year, which has been a landmark year in so many ways, and look forward to providing an excellent service to LPF and our partner funds over the next year.

Hugh Dunn
LPFI Chair
Head of Finance, The City of Edinburgh Council

MANAGEMENT COMMENTARY / FOREWORD

Report by the CEO

There for members and their families in a difficult year

When we launched our Operating Plan in February of last year, we didn't know that disruption on an unprecedent scale was just weeks away, as a global pandemic impacted the lives and livelihoods of people around the world. We closed our office in March 2020 and asked colleagues to work from their homes as recommended by official guidance. In the days and weeks that followed, we devoted time and effort to ensuring those arrangements were resilient enough to deliver in full on our five critical functions: paying pension benefits as they fall due; processing high-priority member tasks on time; resolving beneficiary enquiries; caring for our colleagues; protecting our assets.

Our vision and purpose are to deliver a valued retirement savings product for our members; all of whom serve or have served the public. In our active membership we have 1011 cleaners, 412 support workers, 1244 early years practitioners, 447 cooks, 253 customer service representatives and 262 facilities managers and assistants. We're incredibly proud of our members' work and contribution to their communities and we're working hard to provide them with a secure retirement. During the year we paid £194.3m (19/20: £185.8m) in pension benefits to 33,915 beneficiaries of the Fund, responded to 33,938 enquiries, welcomed 3,910 new members and helped 1,519 members move into retirement.

As we adapted to remote working, we were able to devote time to our major projects and then to discretionary strategic initiatives. I'm incredibly humbled by the efforts of the 79 colleagues who make up the LPF team and whose complete focus on our members ensured we achieved a satisfaction score of 97%.

As a result of the demands to adapt to new service delivery challenges, we took the decision to outsource our mail handling and scanning activities to a high resilience service provider, and we terminated preliminary talks concerning our move to a larger office property in favour of adapting our existing offices for what's expected to be a blended occupation model in the short-term.

We also led a bulk transfer programme that saw all active, deferred and pensioner members of VisitScotland consolidate into Lothian Pension Fund, resulting in 519 new members and a range of funding and administrative benefits accruing to VisitScotland as a sponsoring employer within the LGPS.

COVID-19 brought many challenges for our members, employers and tenants and we've done everything we can to help and support them through these difficult times. As a commercial property portfolio owner, we've faced many new and challenging headwinds to safeguard the future prospects of the portfolio beyond the current crisis. We've been working hard to support our tenants who have been negatively impacted by the pandemic and manage the response to COVID-19 in our commercial property.

MANAGEMENT COMMENTARY / FOREWORD

We're incredibly proud that a number of our portfolio companies have been at the forefront of developing the COVID-19 vaccine, and with the vaccine roll out well underway, it's possible to start looking forward to what 2021 and beyond will bring. In February of this year, we added the Titan warehouse, one of the largest modern industrial buildings in Scotland, to our asset portfolio. Titan is let to the Scottish Ministers (NHS) until 2031 and plays a crucial role in the distribution of PPE across the UK. You can read more information on these two topics in issues 2 and 3 of ENGAGE, our ESG ezine.

Secure benefits and a higher funding level

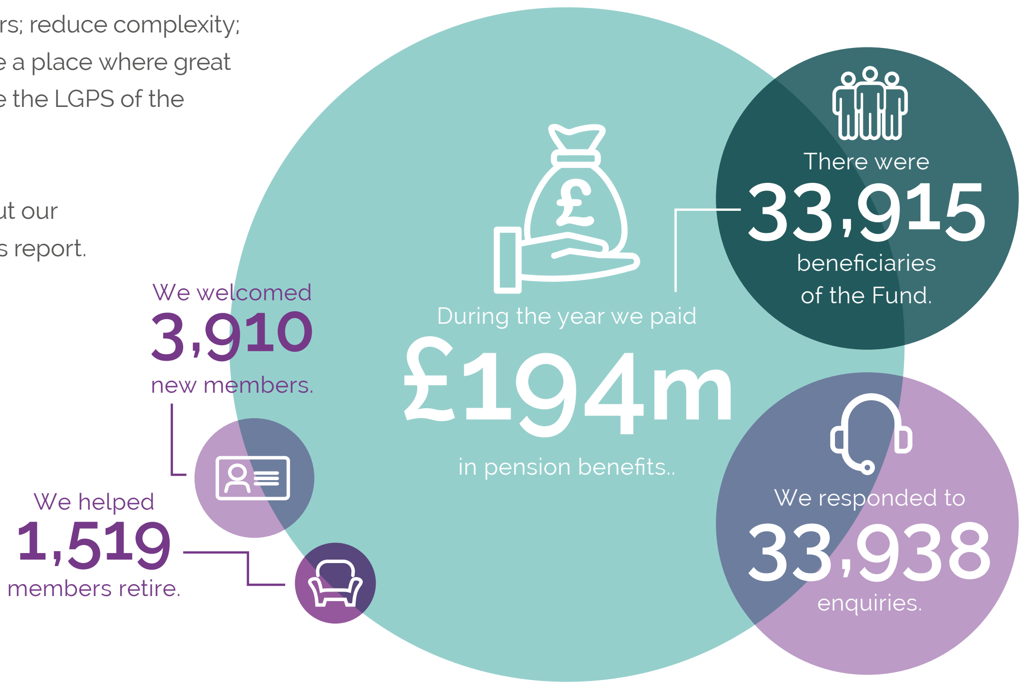
Benefits in Lothian Pension Fund are protected by a statutory guarantee and members can be confident their pensions will be paid when they fall due. Every three years we're required to appoint an independent actuary to undertake a valuation. The most recent valuation was conducted with a reference date of 31 March 2020 and the results are included in this report. The total valuation level for Lothian Pension Fund was 106%. Put simply, this is a measurement of the sufficiency of the assets the Fund holds today to meet the benefits members have earned and expect to receive in the future. A valuation above 100% is a positive result, but benefit obligations increase every day and the Fund is required to generate positive asset returns and collect contributions to ensure the funding level remains sufficient.

The total assets of the Fund at the end of year were £8,697.8m (19/20: £7,480.3m).

Progress with our Operating Plan

Despite the strain of the pandemic and the new ways of working, we were able to make good progress towards delivering the six strategic outcomes outlined in our Operating Plan: provide secure and affordable benefits for our members; reduce complexity; manage our risks; create a place where great work happens; influence the LGPS of the future; be responsible.

You can read more about our progress throughout this report.



MANAGEMENT COMMENTARY / FOREWORD

The LGPS in Scotland

Lothian Pension Fund is one of 11 funds within the Local Government Pension Scheme (LGPS) in Scotland. In 2018 the Scottish Scheme Advisory Board (SSAB) launched a consultation on the future structure for the 11 LGPS Funds in Scotland. The responses can be viewed through the SAB website, with LPF indicating its support for a merger of like-minded funds to achieve a range of benefits only accessible at greater scale.

During 2019, the SAB commissioned and received a report from an independent subject matter expert on the responses and related pension fund case studies. During 2020, the SAB agreed to appoint a consultant to consider the matter further. This work has the potential to result in material change for the LGPS funds in Scotland, including Lothian Pension Fund.

Developments will be reported to our members and other stakeholders at the appropriate time.

McCloud and the matter of historic age discrimination

With McCloud, the Court ruling that age protections are discriminatory, we've studied various versions of the proposed remedy from HM Government and participated in the consultation administered by the Scottish Public Pensions Agency (SPPA). The remedy seems set to allow at least some members to fall back to the old rules and benefit schedules and then to retain the option to elect into the new rules if they're deemed beneficial. Such election may not be required when the remedy is finalised, and the member can therefore back a number of horses.

This will almost certainly require us to collate additional data on individual circumstances, generate tens of thousands of calculations and supply parallel benefit schedules to members each year. The precise remedy and date of implementation remains uncertain and therefore provides us with the opportunity to examine our resourcing levels and train additional administrators. However, the effect and demands will go beyond the Fund and our sponsoring employers will also feel the effect. We depend on them to provide us with data on the employment records of our members and we remain exposed to any limitations in their resourcing levels or systems.

Beyond McCloud, we also face uncertainty on the implementation of any cost cap measures. The cost cap is the means of protecting employers, or public finances, from excessive cost of benefit accrual by varying employee contributions or benefit levels such that they remain within a corridor. The 2017 cost cap was paused in response to the uncertainty of McCloud, but it could well come back into play when McCloud has been implemented and compound the difficulties of complexity within the LGPS.

MANAGEMENT COMMENTARY / FOREWORD

Affordability of pensions

During the year, we provided each of our 72 employers with an updated valuation schedule containing a view of their unique share of the assets and liabilities of the Fund. This was measured on both an ongoing (assets remain invested) and cessation (assets are deployed to lower yield, stable strategies) basis, with the latter providing a view of net obligations to or from the Fund in the case of an exit. We also assisted two employers with a managed exit from the Fund and we have a total of 17 funding agreements in place with employers in respect of satisfying their obligations to the Fund in respect of their employees.

Maintaining momentum on responsible investment

We've maintained momentum in our Responsible Investment activities despite the challenges we've faced. We launched and adopted a new document called the Statement of Responsible Investment Principles last Spring, which sets out our approach to investing responsibly in all our asset classes and our position on climate change and the carbon transition. We also made a bold step in implementing a new stock recall facility where we have loaned some of our shareholdings to other market participants. The change allows us to vote our full holding and gives more weight to our influence. We hope others follow our lead here. You can read more about our responsible investment activities on page 22.

Oversight and governance of the Fund

In the preceding sections there's comment from Sharon on behalf of the Board, from Rob on behalf of the Committee, from Cameron, on behalf of the Audit Committee, Hugh and Stephen on behalf of the LPFI and LPFE Boards respectively and from Andy as our Independent Professional Observer. Each of these roles and the bodies they represent performs a vital function in supporting the governance of Lothian Pension Fund. Beyond fulfilling their prescribed roles, each has provided me and the colleagues in the Fund with encouragement, counsel and guidance, and on behalf of the team, I wish to express our collective gratitude.

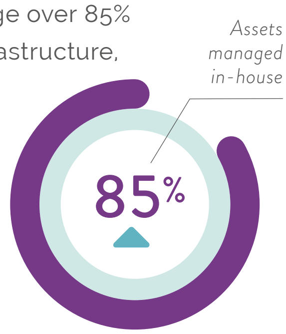
Doug Heron
Chief Executive Officer (until 16 July 2021)
Lothian Pension Fund
23 June 2021

GOVERNANCE AND RISK

Lothian Pension Fund (LPF) administers the Local Government Pension Scheme (LGPS) in Edinburgh and the Lothians. We're a multi-employer scheme with over £7.5 billion assets and 106% funded at our last valuation in 2020, managing 89,148 records of 79,064 members and 72 employers. Lothian Pension Fund is the second largest LGPS fund in Scotland.

We also manage the Scottish Homes Pension Fund on behalf of the Scottish Government. This is a closed fund and has 1,550 deferred and pensioner members with £0.16 billion investments. Members of Homeless Scotland Action were transferred into this fund recently.

Our investment team is unique in Scotland in holding FCA authorisation. We manage over 85% of assets in-house via internal equity, bond and other real asset portfolios (e.g. infrastructure, property and timberland investments).



We established a regulated investment vehicle in 2015 which provides investment advisory, deal execution and portfolio management services to the group and certain external partner LGPS funds.

In March 2017, we became the first UK Local Government pension fund awarded accreditation for the Pensions Administration Standards Association and have held the Customer Service Excellence Award for over 10 years.

The day-to-day running of LPF is carried out by a specialist team who undertake pension administration, accounting and investment functions.

Our comprehensive website provides easy access to all relevant pension information at www.lpf.org.uk. This includes our Annual Report and Accounts of the Fund, Statement of Investment Principles, Funding Strategy Statement and Pensions Administration Strategy and Pensions Discretions Policy.

COLLEAGUE PROFILE **Jake Machin - Pensions Administrator**

Jake started working at LPF as a Pensions Administrator in January 2019. As well as carrying out general pension administration tasks, Jake was responsible for creating a new process for deferred members of the scheme to access their benefits due to ill-health. Jake says:

"I love the variety in my role and being able to make a difference for our members. I'm currently on the project team that's implementing the pension regulators pledge to fight pension scams and help protect our members' futures."

GOVERNANCE AND RISK

The Pensions Committee and Pensions Audit Sub-Committee

All LPF matters are overseen by the Pensions Committee of the Council, supported by the Audit Sub Committee, and its members act in a 'quasi trustees' capacity for the two funds.

The Pensions Committee normally hold four meetings and the Audit Sub Committee hold three meetings per year. This year, however, the Pension Committee held an additional two meetings. Although the coronavirus pandemic and the continued restrictions have changed the way the committee work, LPF's governance structures continue to operate as designed, with future meetings of the Committees and Board being held remotely until such time as they can revert to usual arrangements.

The table below shows the Committee members for the year 2020/21:

COMMITTEE MEMBERS FROM 1 APRIL 2020 - 31 MARCH 2021

PENSIONS COMMITTEE	PENSIONS AUDIT SUB COMMITTEE
Councillor Rob Munn (Interim Convener)	Councillor Cameron Rose (Convener)
Councillor Alasdair Rankin (Convener to August 2020)	Councillor Maureen Child
Councillor Maureen Child	John Anzani (Member representative)
Councillor Neil Ross	
Councillor Steve Burgess	
Councillor Cameron Rose	
John Anzani (Member representative)	
Richard Lamont (Employer representative, VisitScotland	

GOVERNANCE AND RISK

The Pension Board

The Pension Board was set up on 1 April 2015 as a result of the Public Services Pensions Act 2013 and the Local Government Pension Scheme (Governance) (Scotland) Regulations 2014.

The role of the Pension Board is to help ensure that the operation of LPF is in accordance with the applicable law and regulations. The Board attend all Pensions Committee meetings and two representatives also attend the Pensions Audit Sub-Committee meetings.

The membership comprises of ten members, five representatives appointed from the employer bodies and five representatives appointed by trade unions for the membership of LPF. The Pension Board membership for 2019/20 is shown in the table below. There were three vacancies as of 31 March 2021.

MEMBER REPRESENTATIVES

Jim Anderson	Unison (Chair)
Thomas Carr Pollock	GMB
Brian Robertson	Unite
Thomas Howorth	Unison
Vacancy	

EMPLOYER REPRESENTATIVES

Sharon Dalli	Police Scotland
Darren May	Scottish Water
Alan Williamson	Edinburgh College
Lesley Henderson	(Resigned 02/11/2020)
Vacancy	

In May 2021 LPF filled two vacancies, appointing Nick Chapman, Lothian Valuation Joint Board, as an Employer Representative and Tony Beecher Lothian Buses, as a Member Representative.

GOVERNANCE AND RISK

The Committee and Board members must attend no less than 21 hours of training per year as outlined in LPF's training policy which is available on our website at www.lpf.org.uk.

All new members of the Pensions Committee and Pension Board attend induction training. Other training provided internally covered topics including governance, the pension regulator code of practice, cyber security, risk management, ESG, benchmarking and valuation training.

Committee and Board representatives also attended external conferences, held virtually this year, including the LGPS Seminar Scotland in October, as well as a variety of LAPFF, PLSA and Hymans Robertson webinars.

All members of both the Pension Committee and the Pension Board achieved the required training hours during 2019/20 except for one Pension Committee member who joined the LPF governance arrangements later in the year. Pensions Committee members collectively attended 203 hours of training as at 31 March 2021 and members of the Pension Board undertook 215 training hours.

Joint Investment Strategy Panel

Investment strategy guidance to the Committee is provided by a Joint Investment Strategy Panel (JISP), working in collaboration with the Falkirk Council and Fife Council pension funds. The external independent advisers on the JISP meet at least quarterly with senior officers.

This year, the three funds undertook a procurement process to appoint the external independent advisers to the JISP. The advisers appointed are Scott Jamieson, Kirstie MacGillivray and Stan Pearson.

The Pensions Committee of each pension fund agrees their own investment strategy but delegates the implementation of strategy, including selection of investment managers, to officers.

The JISP advises the three pension fund administrating authorities on implementation of their respective investment strategies. The assets of Lothian Pension Fund, Falkirk Council Pension Fund and Fife Council Pension Fund remain separate including the Scottish Homes Pension Fund being separate to Lothian Pension Fund.

GOVERNANCE AND RISK

Lothian Pension Fund colleagues

LPF colleagues are employed by an arms-length company, LPFE Limited (LPFE), which is wholly owned by the Council (in its capacity as administering authority for LPF). It's supervised by a board of directors, chaired by the Council's Executive Director of Resources and includes the Convener of the Pensions Committee. Our team carry out certain activities through our Financial Conduct Authority authorised vehicle, LPFI.

LPFI is also wholly owned by the Council (in its capacity as administering authority for LPF) and is supervised by a board of directors chaired by the Council's Head of Finance. Both the boards of LPFI and LPFE comprise two independent non-executive directors (Leslie Robb and Andy Marchant). Andy Marchant being appointed as a further non-executive director for both LPFE and LPFI in 2021.

All the operations, costs and liabilities in relation to LPF, including those of LPFE and LPFI, are borne by LPF.

The day-to-day running of LPF is carried out by a specialist investment and pensions team. Our functions include investments, finance and operations, people and communications, ICT oversight and governance, legal, risk, and compliance.

Our investment responsibilities include carrying out in-house investment management and the monitoring and selection of external investment managers, as well as external facing collaborative initiatives with other like-minded pension funds.

Over the year, the Senior Leadership Team (SLT) of the Lothian Pension Fund as at 31 March 2021 comprised:

- Doug Heron, Chief Executive Officer
- Bruce Miller, Chief Investment Officer
- Struan Fairbairn, Chief Risk Officer, (Legal, Risk, Compliance and Governance)
- John Burns, Chief Finance Officer
- Helen Honeyman, Head of People and Communications

On 21 June 2021, David Vallery joined Lothian Pension Fund to take over from Doug Heron as Chief Executive Officer. David and Doug overlapped for several weeks to ensure an appropriate and thorough handover of responsibilities.

And, senior officers directly involved in the funds oversight structure from the City of Edinburgh Council were:

- Dr Stephen S Moir, Executive Director of Resources (Chair of LPFE board)
- Hugh Dunn, Head of Finance (Chair of LPFI board, Director of LPFE Board)
- Katy Miller, Head of Human Resources (Director on LPFE board)

GOVERNANCE AND RISK

Scheme Advisory Board

The Scheme Advisory Board for the Local Government Pension Scheme in Scotland was set up following the Public Service Pensions Act 2013. The Board's main function is to advise Scottish Ministers, when requested, on the desirability of changes to the Scheme. They can also provide advice to scheme managers and pension boards in relation to effective and efficient administration and management of the Scheme in Scotland.

The membership of the Scheme Advisory Board comprises of seven representatives each from member and employers with a Joint Secretary to support each group. During the year, Fund officers have advised the Board and Joint Secretaries. There's more information on the Scheme Advisory Board at www.lgpsab.scot.

Risk Management

LPF has comprehensive risk management and assurance procedures in place across its business functions and group entities. These include maintaining a group risk appetite, risk register and assurance mapping process, in conjunction with other underlying business and compliance processes.

Our risk register is formally considered by the Risk Management Group quarterly but is also updated on an ad hoc basis where required. The Risk Management Group itself comprises senior officers of each function within the group, as well as the Senior Leadership Team (SLT).

The approved risk register is tabled and considered by SLT following sign-off to ensure additional oversight and ongoing engagement with any resulting actions. The risk register is also circulated to the conveners of the Pensions Committee and Audit Sub-Committee, Chair of the Pension Board and Independent Professional Observer on a quarterly basis, with summary analysis and reporting provided to those bodies each quarter. In addition, an in-depth risk report is provided to the Audit Sub Committee annually, which includes a review of the full register.

Importantly, LPF's risk appetite and assurance structure are designed to 'flex' to ensure that they continue to be proportionate to the size and nature of our business, and also adhere to the

GOVERNANCE AND RISK

following industry best practice principles:

- Ensure that our risk appetite aligns with our strategy and is set by the senior management team without undue influence
- Integrates risk as a key component of our management and decision-making processes
- Engenders an open, 'live' and engaged risk culture which seeks to pro-actively identify current and future risks for the business, simplifying layers of controls to ensure this is not stifled
- Not establish or perpetuate systems, controls or processes which are out of line with, or disproportionate to, the group's risk appetite
- Remain aligned to LPF's existing resources and organisational development
- Ensure an effective and independent risk and compliance function is maintained
- Ensure appropriate levels of separation and independence of each of the 'four lines of defence', as a general principle and in line with the standards of the UK regulated financial services sector
- Ensure appropriate levels of co-operation and information sharing across the 'four lines of defence'

As at 8 February 2021, the last meeting of the Risk Management Group in the year, the most significant risks (after taking account of risk reduction controls and as assessed using a score out of 100) are shown in the table below.

Description	Impact	Probability	Risk Score
Failure of IT leading to poor ICT responsiveness, legal exposure and cost/risk implications	8	6	48
Business continuity and significant outage issues (due to systems, accommodation, staff etc.)	7	6	42
Members' confidential data is lost or made public. Breach of Data Protection Act	6	6	36
Cybersecurity protections and/or back-up not sufficient to prevent cyber-attacks or minimise their impact	8	4	32

GOVERNANCE AND RISK

Separately, we maintain a detailed risk monitoring and assurance process for LPFI. That focuses on the specific risks associated with that entity and its regulated business as part of its Internal Capital Adequacy Assessment Process (ICAAP). The LPFI board has oversight of this process.

Risk Assurance

LPF operate a bespoke assurance framework designed to ensure we have effective controls and oversight across the 'four lines of defence', being:

1. Business units
2. Control functions and internal oversight bodies
3. Internal audit
4. External audit and other external assurance

We maintain an assurance overview and mapping document which is updated on an ad hoc basis and reviewed annually by our Audit Sub Committee.

All this is designed to ensure that we meet our objectives, are adequately resourced, managed to high professional standards, meet legislative requirements and have high customer satisfaction.

WE'RE PROUD TO SERVE

1011 CLEANERS

LOTHIAN PENSION FUND

INVESTMENT

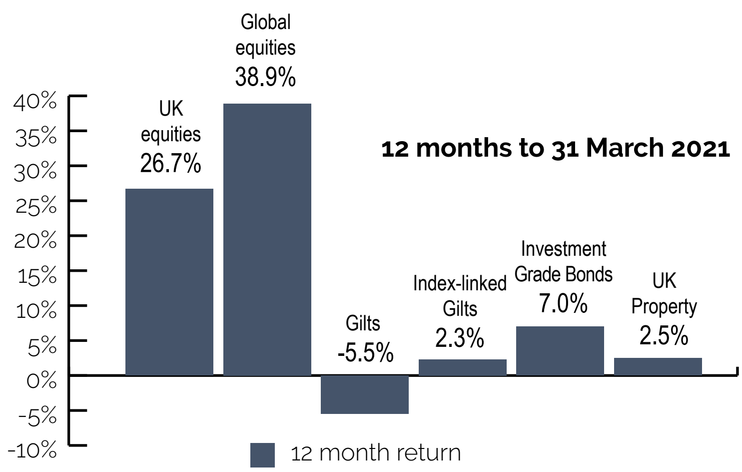
Investment markets

For the 12 months to 31 March 2021, UK equities (FTSE All Share) returned +27%, while global equities (MSCI ACWI, in GBP) returned +39%. The rise in global equities for sterling-based investors was offset by a stronger pound (global equities returned +51% in local currency terms). Sterling had weakened sharply alongside equity markets in March 2020 in response to the widening COVID-19 (coronavirus) pandemic, before stabilising and then strengthening over the period as risk assets recovered.

Credit spreads, which had spiked higher when equity markets sold off in March 2020, recovered strongly ending the period close to their pre-crisis lows. Government bond yields re-tested lows in May 2020 before rising gradually over much of the year, spiking higher on vaccine developments in November then accelerating further on fiscal stimulus expectations with the confirmation of Democratic candidate Joe Biden as US president-elect in December.

As vaccine roll-outs gained momentum, with the UK to the fore, rising economic optimism supported risk assets, such as equities. Commodity prices also rose as manufacturing activity continued to recover and investor attention, in the latter part of the period, turned increasingly towards recovery sectors such as retail, property, travel and leisure, which had been most negatively impacted by lockdowns. Inflation expectations moved sharply higher in the first quarter of 2021, which caused bond yields to rise and prices to fall.

The graph below shows index returns over 12 months to 31 March 2021 for a range of asset classes.

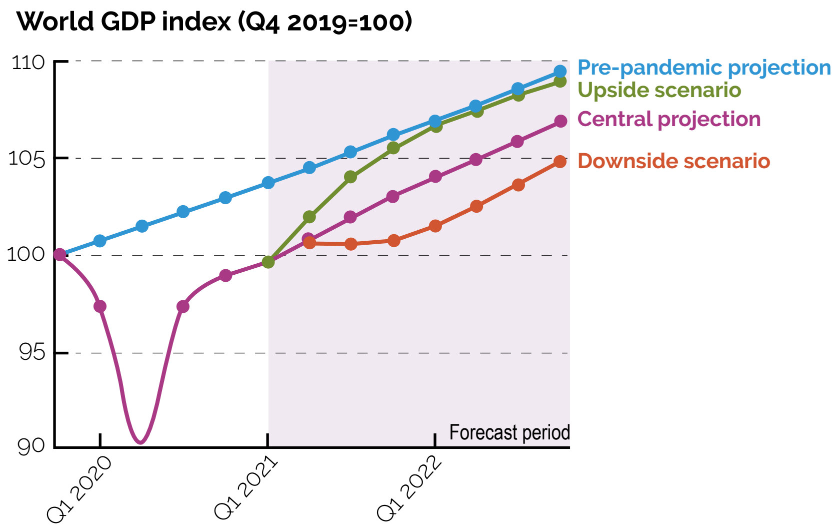


Source: FTSE, Bloomberg, MSCI, Portfolio Evaluation

INVESTMENT

Investment markets

The speed with which economies have recovered from the COVID-19 downturn is shown in the World GDP index chart below, alongside the most recent March 2021 forecasts by the OECD. The latest projections provide a much more optimistic outlook than most would have envisaged 12 months ago during the depths of the downturn. The recovery was aided by unprecedented levels of monetary and fiscal support, which cannot be sustained indefinitely; market participants will need to deal, at some point, with the prospect of that support tapering off.



Source: OECD Interim Economic Outlook, March 2021

COLLEAGUE PROFILE Gillian de Candole – Portfolio Manager

Gillian joined LPF in September 2020 as a Fund Manager in our real assets team. She's responsible for delivering our external real estate strategy and supporting the delivery of the broader real assets' strategy, which includes infrastructure and forestry investment. Gillian also co-leads our Responsible Investment and Stewardship activities, addressing our commitment to responsible allocation and management of capital to create sustainable value for beneficiaries, the economy and society. Gillian says:

"I like working at LPF primarily because I get to work with a great team of skilled people, who (despite the challenges of remote working) create a friendly, welcoming, can-do culture, focused on a clear vision of sustainable, long-term investment to deliver our beneficiaries' pensions."

RESPONSIBLE INVESTMENT

Responsible Investment (RI)

Lothian Pension Fund must deliver positive real returns on its investment portfolio over the long term to pay pensions. In our investing activities, we act in our members' interests by positively contributing to a more sustainable and resilient financial system, supporting sustainable economic growth and a thriving and fairer society.

We've been a signatory of the UN-backed Principles for Responsible Investment (PRI) since 2008 and align our practices and processes to their six principles and definition of Responsible Investment.

Our approach is informed by our investment beliefs, policies and priorities, together with regulations and statutory guidance. The six principles are embedded in our investment processes and everyday activities.

PRINCIPLE 1:

We will incorporate ESG issues into investment analysis and decision-making processes

PRINCIPLE 2:

We will be active owners and incorporate ESG issues into our ownership policies and practices

PRINCIPLE 3:

We will seek appropriate disclosure on ESG issues by the entities in which we invest

PRINCIPLE 4:

We will promote acceptance and implementation of the Principles within the investment industry

PRINCIPLE 5:

We will work together to enhance our effectiveness in implementing the Principles

PRINCIPLE 6:

We will report on our activities and progress towards implementing the Principles

PRI

'RESPONSIBLE INVESTMENT IS AN APPROACH TO INVESTING THAT AIMS TO INCORPORATE ENVIRONMENTAL, SOCIAL AND GOVERNANCE (ESG) FACTORS INTO INVESTMENT DECISIONS, TO BETTER MANAGE RISK AND GENERATE SUSTAINABLE, LONG-TERM RETURNS.'

RESPONSIBLE INVESTMENT

PRI Annual Assessment

All PRI signatories agree to the PRI organisation undertaking a comprehensive annual assessment of their approach to RI. Their independent appraisal of Lothian Pension Fund's approach is made publicly available on our website www.lpf.org.uk and a summary of the latest evaluation is shown below. It highlights that our processes and approach to Responsible Investment are rated at or above the median of asset owner signatories across all categories measured.

SUMMARY SCORECARD

Our investment principles

Responsible Investment is a core part of our investment policy and we always operate within the policy, legal and regulatory frameworks that apply to us. We invest on behalf of our members and their dependants and have a fiduciary duty to act in a financially prudent manner and to consider factors of ESG in the context of the financial risk that arises from the investment.

As an asset owner in the public sector, striving for high standards of transparency within the constraints of commercial sensitivities, we're understandably subject to considerable scrutiny of our investments. To assist our many stakeholders better understand the philosophy behind our overall approach to Responsible Investment, we released our Statement of Responsible Investment Principles (SRIP) in summer 2020. In this document, we lay out in detail our implementation of responsible investment on an asset class by asset class basis, as well as outlining how we utilise all the tools at our disposal to achieve our stewardship aims.

RESPONSIBLE INVESTMENT

Stewardship Code

The Financial Reporting Council (FRC) is the UK's independent regulator responsible for promoting transparency and integrity in business. It sets the UK's Corporate Governance and Stewardship Codes. In 2020, the FRC announced a significant update to the Stewardship Code, which requires the publication of a detailed report covering 12 different principles for asset owners. LPF will publish a Stewardship Code 2020 report during 2021.

Collaboration

There are limits to the influence that we achieve as a single investor and the resources we can reasonably commit. We recognise that progress can be best achieved on ESG issues through collaboration with other investors and organisations. We're an active member and supporter of several Global and Industry ESG Initiatives:

PRI Principles for Responsible Investment

Principles for Responsible Investment (PRI)
We've been a signatory to the PRI since 2008 and focus heavily on how to implement the six Principles of Responsible Investment into our everyday work to be good stewards of capital. PRI is an important partner, providing excellent guidance on responsible investment and we work closely with them on the future direction of the organisation.

HERMES EOS

EOS at Federated Hermes (EOS)
We've been clients of EOS since 2008 and they manage most of our voting and engagement activity. Our Internal Equities team work closely with EOS in our collective approach to engagement, reflecting the areas of stakeholder interest and concern. Through working collaboratively with EOS, and alongside EOS's international client base, we're able to have a stronger voice when engaging with our investee companies.

RESPONSIBLE INVESTMENT

IIGCC
Institutional Investors Group on Climate Change

The Institutional Investor Group on Climate Change (IIGCC)
We recently joined IIGCC to further the work we do alongside other like-minded asset owners. IIGCC is a network of over 300 European investors representing over €37tn in assets. The workstreams at IIGCC include the Policy Programme; the Corporate Programme; the Investor Practices Programme; and the Paris Aligned Investor Initiative. IIGCC recently produced an investor guide entitled the 'Net Zero Investor Framework' and we're currently investigating its suitability for implementation.

Climate Action 100+
Global Investors Driving Business Transition

Climate Action 100+ (CA100+)
CA100+ is an international collaborative initiative by institutional investors representing over $40 trillion in assets. Signatories to Climate Action 100+ are requesting the boards and senior management of companies to:

- Implement a strong governance framework which clearly articulates the board's accountability and oversight of climate change risks and opportunities
- Take action to reduce greenhouse gas emissions across the value chain, consistent with the Paris Agreement's goal of limiting global average temperature increase to well below 2˚C above pre-industrial level
- Provide enhanced corporate disclosure in line with the final recommendations of the Task Force on Climate-related Financial Disclosures (TCFD), to enable investors to assess the robustness of companies' business plans against a range of climate scenarios, including well below 2˚C, and improve investment decision-making.

RESPONSIBLE INVESTMENT

Transition Pathway Initiative

[The Transition Pathway Initiative (TPI)]

TPI is a global initiative led by asset owners and supported by asset managers. Aimed at investors and free to use, it assesses companies' preparation for the transition to a low-carbon economy, supporting efforts to address climate change. TPI:

- Evaluates and tracks the quality of companies' management of their greenhouse gas emissions and risks and opportunities related to the low-carbon transition
- Evaluates how companies' planned or expected future carbon performance compares to international targets and national pledges made as part of the Paris Agreement
- Publishes the results of this analysis online through a publicly-available tool hosted by its academic partner, the Grantham Research Institute on Climate Change and the Environment at the London School of Economics and Political Science (LSE).

We're a public supporter of TPI and the extremely useful data it produces.

Local Authority Pension Fund Forum

[The Local Authority Pension Fund Forum LAPFF]

LAPFF is a collaborative shareholder engagement group, comprising over 80 UK local authority pension funds and six of the LGPS pension fund pools in England and Wales. A member of Lothian Pension Fund's Pensions Committee, John Anzani, is on the executive board of LAPFF and has represented LAPFF and its member funds in high level engagement with company management.

WHAT OUR MEMBERS SAY:

The service I receive from LPF is excellent and has been consistently excellent since day 1 in 2011. It is highly unusual, in this day and age, to receive a high quality service from knowledgeable staff that are extremely helpful. Nothing is too much trouble. I never take this for granted. Exceptional.'

RESPONSIBLE INVESTMENT

LPF also works closely with other asset owners in several semi-formal working groups including:

- The Cross-Pool RI Working Group: a group comprised of the heads of responsible investment at the English and Welsh local authority pensions pools, alongside representatives of many of the underlying schemes and the Scottish local authority pension funds
- The UK Asset Owners RI Roundtable: a group comprised of several UK asset owners including the local authority pools, many corporate schemes including Railpen, NEST and BT, and faith-based funds including the Church Commissioners and the Church of England Pensions Board
- The Scottish Asset Owners RI Roundtable: a new collaborative initiative between Scottish Asset owners. Members include local authority funds, Universities, and corporate defined- benefit and defined-contribution pension schemes.

All these groups aim to share best practice between asset owners with the aim of raising RI standards throughout the industry. We're very active in the initiatives of these groups.

Engagement

We believe that the best way to alter listed company behaviour for the better is through meaningful structured engagement with the management teams and boards of the companies that we hold.

We commit significant resources to engagement activity, most of which is undertaken by our voting and engagement service provider and partner, EOS at Federated Hermes (EOS).

EOS at Federated Hermes brings a focus and expertise to engagement activities, as well as scale, by representing a large number of like-minded clients.

As EOS engages on behalf of a wide shareholder base, they can effectively influence management to enact positive change in investee companies.

EOS consults with its clients to develop an engagement plan so that it can prioritise engagement activity. The latest plan (available on our website) highlights 12 main themes for engagement over the three-year period 2020-22.

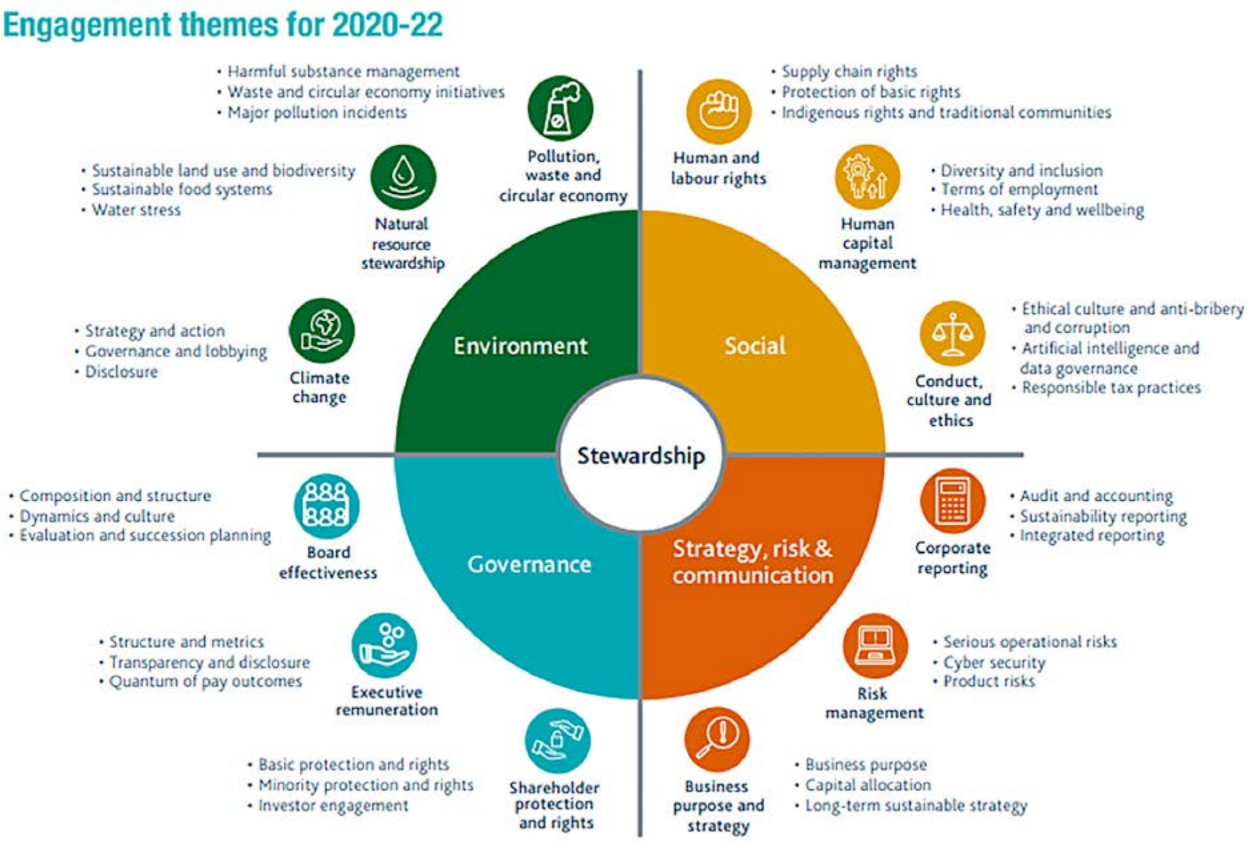
RESPONSIBLE INVESTMENT

In the diagram below, the themes surrounding the core subjects of engagement activity are: environmental matters; social issues; and strategy, risk and communication.

Each theme is described in detail in the engagement plan, including: background information on the importance of each theme; the main outcome objectives; the methodology for tackling each theme; and EOS's description of best practice in each area.

We stand behind EOS in achieving progress in each of these areas, and our Internal Equities team offers support and ideas to help them to carry out this vital work.

Our Internal Equities team undertakes formal and informal engagements during its many company management meetings each year. The highest profile of these is LPF's participant membership of Climate Action 100+, where the internal portfolio managers represent investors totalling $40 trillion of assets in engagement with Fortum, a major European utility company.



FORTUM

As part of climate action 100+, our internal team at LPF has been engaging with Finnish utility company Fortum to improve its carbon performance. While Fortum is a leader in European renewables, it does have plenty of carbon intensive generation, particularly in its Russian business. The company has also acquired a controlling stake in Uniper, one of Europe's largest fossil-fuel based generators, and is likely to merge the two businesses in 2022.

We've had a series of meetings with the CFO, CEO and chair of Fortum and delivered a statement (see page 50) at their 2020 virtual AGM. Our ongoing work with management is beginning to result in significant changes in policy. Following Uniper's 2035 net zero commitment announcement in early 2020, Fortum followed up with a similar announcement in December 2020. The company now aims to be carbon neutral in the European business by 2035 and has announced specific plans for the closure of 6GW of coal capacity by 2025, and a 50% reduction in carbon output by 2030 (as compared to 2019 levels). Further to this we've challenged company management on several occasions regarding corporate lobbying activities, and a policy review was announced by the company at their 2021 AGM.

Fortnum still needs to undertake a a great deal of work , particularly around its plans for decarbonisation in the Russian business, but the company is taking many of the right steps. It's been a long-time supporter of carbon pricing, and its top management has entered an open and honest dialogue with the climate action 100+ engagement group.

RESPONSIBLE INVESTMENT

Voting

We vote on the resolutions of 100% of the companies in which we're invested. Two of our external providers are charged with voting on the our behalf based on pre-agreed policies. These are Baillie Gifford, who manage equity assets for LPF, and EOS, our voting and engagement partner.

During 2020 we updated our policy for stock lending, and we now automatically recall all loaned stock for voting purposes, allowing us to vote 100% of our holdings at 100% of the relevant meetings.

Annual General Meetings (AGM) present asset owners with another opportunity to influence management on important issues. Shareholders can file resolutions which allow all other shareholders to vote on matters that aren't raised by management.

While our last shareholder proposal was filed in 2019 at BP, we've been involved in the filing of a number of resolutions since then that haven't made it into the shareholder ballot. This typically occurs when management has responded to engagement and changed course at the last moment, allowing us to withdraw the resolution voluntarily. Recent changes in the approach of the US Securities and Exchange Commission have made it more difficult to enter shareholder resolutions on US shareholder ballots.

Climate Change

As of March 2021, 191 states and the EU had ratified or acceded to the Paris Agreement of the United Nations Framework Convention on Climate Change, with the only significant emitters still not parties being Iran and Turkey. Under this agreement, each country must determine, plan and regularly report on the contribution it undertakes to mitigate global warming. The three key aims of the agreement are:

- Holding the increase in the global average temperature to well below 2˚C above pre- industrial levels and to pursue efforts to limit the temperature increase to 1.5˚C above pre- industrial levels, recognising that this would significantly reduce the risks and impacts of climate change
- Increasing the ability to adapt to the adverse impacts of climate change and foster climate resilience and low greenhouse gas emissions development, in a manner that doesn't threaten food production
- Making finance flows consistent with a pathway towards low greenhouse gas emissions and climate-resilient development.

Separate to this, but part of the overall worldwide change in culture with regards to greenhouse gas emissions, the Financial Stability Board (FSB) of the Bank of England launched the Taskforce on Climate-Related Financial Disclosures (TCFD). TCFD aims to: "develop voluntary, consistent climate-related financial risk disclosures for use by companies in providing information to investors, lenders, insurers, and other stakeholders." Further information is available at www.fsb-tcfd.org.
As asset owners, we've been engaging with the companies in our portfolios to enhance disclosures on emissions in line with the recommendations of TCFD, as well as working alongside peer organisations to promote the aims of the TCFD and reporting our approach to climate change-related risks and opportunities in its PRI reporting.

RESPONSIBLE INVESTMENT

As part of the TCFD resources, investors and asset owners also have guidance on how to report their approach to climate-related risks and opportunities. These recommendations are split into four key areas of reporting.

Governance relates to the organisation's governance and climate-related risks and opportunities.

Strategy relates to the actual and potential impacts of climate-related risks and opportunities on the organisation's businesses, strategy and financial planning.

Risk management relates to the processes used by the organisation to identify, assess and manage climate-related risks.

Metrics and Targets relates to metrics and targets used to assess and manage relevant climate-related risks and opportunities.

The TCFD is in its relative infancy and we're challenging companies to improve their disclosure and is rapidly integrating the specifics of climate change into the risk management and governance of LPF. Over the last few years, we've undertaken substantial work on the issue.

RESPONSIBLE INVESTMENT

Climate Change – Governance

In accordance with training policy, members of the Pensions Committee and Pension Board are required to undertake a minimum of 21 hours training. Each year, our provider of voting and engagement services is invited to present to and interact with the Committee and Board. During 2020/21, they received training on climate change-related risks and opportunities, and climate-specific reporting, including a carbon footprint of the Fund's equity holdings, which is now updated annually. The Pensions Committee's approach to climate change risks is encapsulated in the recommendations agreed when adopting the new Statement of Responsible Investment Principles in June 2020:

- To continue to measure and report on carbon-equivalent emissions throughout the equity portfolios
- To continue our work with Climate Action 100+
- To continue to research and support the deployment of new impact capital into projects set to benefit from the transition to a low carbon economy
- To assess the carbon intensity of all assets (using estimates if necessary) by the end of the 2022 reporting cycle, supported by external managers and GPs
- Using data from the Transition Pathway Initiative (TPI), to engage alongside our collaborative partners to encourage companies to adopt business models and strategies that are in line with the aims of the Paris agreements. Our ambition is that all holdings covered by TPI will have achieved a level 4 assessment and have a business plan whose carbon performance is in-line with the Paris agreement or better by 2025
- Using data from the TPI, we'll not subscribe to new equity and fixed income issuance from companies whose business plans are not aligned with the aims of the Paris agreements at the time of the fundraising.

The Committee and Board considers climate related issues as part of its annual review of our approach to Stewardship. Climate-related risks and opportunities are an integral part of our overall investment process for LPF. The Pensions Committee is responsible for setting investment strategy and delegates implementation of strategy to officers and investment managers with advice from the Joint Investment Strategy Panel. Climate-related risk management is reviewed as part of the regular monitoring process for all investment mandates and includes scrutiny of how ESG analysis is integrated into investment decision-making.

RESPONSIBLE INVESTMENT

Climate Change – Strategy and Risk Management

We recognise the outsized impact that some specific sectors and industrial activities have on climate change by virtue of the magnitude of their greenhouse gas emissions. While many prefer to label companies in carbon-intensive industries as 'bad' and those in low-carbon and alternative energy businesses as 'good', history shows that firms need to reinvent themselves to survive. LPF strives to influence and support positive changes by corporate leaders to achieve sustainability for their firms and for society. Consequently, we have a policy of engagement rather than blanket divestment, which allows us to exert influence on companies to improve their business practices, align with the Paris goals, and disclose internal climate-related risk and opportunity management with TCFD compliant reporting.

Academic research* that we've commissioned suggests that divestment at best is ineffective, and at worst provides a clear disincentive for management to change.

Our approach to engagement relies heavily on our engagement and voting partner, EOS at Federated Hermes (EOS).

EOS engages with companies on a range of engagement issues including climate change. The internal management team also engages with company management on a regular basis as part of company road shows and investment conferences.

In addition, we've joined the Climate Action 100+ investor initiative and are actively participating in engagement with one of the 167 target companies in its list of systemically important carbon emitters.

Regular training and development for all colleagues on climate related issues is provided. This includes governance functions, management, investment decisions makers, and pensions administration colleagues. This creates an internal culture that's serious about the risks to capital posed by the low carbon transition as well as the physical risks of climate change.

University of Edinburgh Master's in Economics Dissertation, "In response to the recent Paris Agreement, how might pension funds contribute to helping reduce global climate change through investment policy?", Cooper, 2019

RESPONSIBLE INVESTMENT

The Fund's investments can be broadly classified as follows: fundamentally managed equity; quantitatively managed equity; passively managed government debt; directly owned commercial property and externally managed funds (covering all asset classes). As part of the stock selection process for the fundamentally managed portfolios, any fundamentally material climate-related risks and opportunities (such as carbon pricing and the low carbon transition) are individually assessed and monitored by the managers. The quantitative portfolios are monitored for material risks arising from ESG issues on a regular basis. Both the fundamental and quantitively managed equity funds utilise engagement with managers to improve practices. The selection and monitoring process for external managers incorporates ESG assessments, which continue to be refined as the industry evolves.

Our internal managers continue to monitor opportunities in the green energy and future technology space, both in the public and private markets. Much of the public spending on green energy is undertaken by the incumbent energy providers (the diversification of carbon-extractive companies and carbon burning utilities).

With a research budget specifically allocated to data services targeting ESG and climate-related risks and opportunities, we produce an annual carbon footprint for listed equities. This measures the weighted average carbon intensity of the portfolio as a whole. More importantly, it allows us to identify important factors, such as high carbon emissions, to guide our company engagements and forward-looking analysis of the risks to the Fund's invested capital from the low carbon transition.

While it's widely acknowledged that Climate Change is one of the great issues facing society, it's one of several risks that we must mitigate. In that sense, it's no different to any other risk. We believe in a holistic, integrated approach to analysis taking all risks, including climate-related risk, into consideration.

Climate Change – Monitoring and Metrics

The Pensions Committee and Pension Board review ESG (including climate related) issues at least annually as part of oversight of the stewardship of Fund assets. Officers and the Joint Investment Strategy Panel of advisers monitor investment mandates and individual investments at least quarterly.

In-line with TCFD best practice, we report a measure of carbon efficiency (the weighted average carbon intensity, with units of tons CO_2/\$M sales). We use a carbon efficiency measure as it allows us to look on a granular basis at how well a company is managing its emissions, rather than simply what its absolute emissions are. By looking at companies with similar activities, it's possible to use this metric to separate those companies with good practices from those with bad practices. We weight these intensities according to the portfolio position sizes and add all the weighted intensities to give a figure for the portfolio and the index. In practice, however, investment managers use a variety of data on individual companies to assess prospects rather than a single carbon metric.

RESPONSIBLE INVESTMENT

	2018 Weighted Average Carbon Intensity (tons CO2/$M sales)	**2019 Weighted Average Carbon Intensity** (tons CO2/$M sales)	**Year on year change**	**2020 Weighted Average Carbon Intensity** (tons CO2/$M sales)	**Year on year change**	**2021 Weighted Average Carbon Intensity** (tons CO2/$M sales)	**Year on year change**
LPF All Equities	328.6	325.2	-1.0%	294.9	-9.3%	270.1	-8.4%
MSCI ACWI	218.9	200.2	-8.5%	178.1	-11.1%	155.1	-12.9%
LPF All Equities & Corporate Bonds						266.0	

Source: MSCI

These numbers are presented on the basis of Scope 1 and 2 carbon emissions. Recent advances in data and methodology, especially in the adoption of a new approach to standardised emissions counting pioneered by the Partnership for Carbon Accounting in Financials (PCAF) allow us to present combined data for our equity and corporate bond holdings. We have an ambition to report all our carbon intensity data across all our assets in the 2022/23 annual report.

As data from the Transition Pathway Initiative (TPI) and Carbon Action 100+ are developing and improving, it has become increasingly incorporated into the equity management process. The TPI data showing Paris Alignment is an important indicator for risk management purposes.

Global Real Estate Sustainability Benchmark (GRESB) data in the infrastructure and real estate asset classes is tracked and incorporated into reporting in these areas.

Carbon intensity numbers are currently treated as outputs of the investment process rather than targeted inputs into the investment process. This is because these numbers are fundamentally easy to "game". We firmly believe that global decarbonisation will provide benefits to society and the environment, and we therefore support efforts to reduce carbon emissions.

There is no reduction in global carbon output if LPF sells carbon intensive businesses.

The carbon intensity numbers as reported could easily be brought down by selling the most carbon intensive stocks and replacing those investments with lower emission stocks. While this might be considered "good" optically, companies will continue to emit carbon in the same manner whether LPF sells or retains the shares.

Our involvement in Climate Action 100+ reinforces our belief that engaging with companies to help them pivot their businesses towards a lower carbon future is a far more responsible approach than being an irresponsible divestor. We'll continue to engage with our holdings rather than setting specific carbon intensity targets for our overall portfolio.

RESPONSIBLE INVESTMENT

Infrastructure Investment

Our infrastructure investments have the potential to generate attractive risk-adjusted returns, with cash flows often linked to inflation. The long-term and defensive nature of these assets can also provide an element of diversification to our investment strategy.

Over the last 15 years, we've developed our reputation, networking and execution capabilities to secure access to investment opportunities within this market niche. Our experienced team appraises and invests in primary and secondary funds as well as co-investments, to achieve our target allocation in a cost-effective manner. An important element of the implementation strategy is to work closely with investment managers to ensure execution certainty and to diligence the commercial and legal terms. Collectively, with our collaboration partners, we committed over £150 million in infrastructure investment during 2020/21.

We have a long-standing commitment to responsible investment. In addition to becoming a signatory of the PRI (Principles of Responsible Investment) in 2008, we've subscribed to GRESB (Global Real Estate Sustainability Benchmark) to further enhance our analysis of environmental, social and governance (ESG) issues.

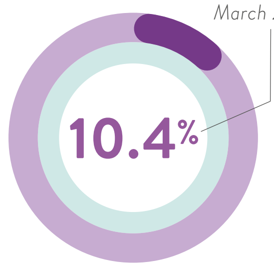
At 31 March 2021, 92% of the Infrastructure portfolio value was invested in assets/funds which were also signatories of the PRI and 27% of funds participated in the 2020 GRESB Infrastructure Assessment. Most of our infrastructure funds also publish an internal ESG policy, outlining the consideration given to ESG issues within the decision-making and ongoing investment monitoring process, and this has become a standard requirement/consideration for manager selection.

Within the GRESB Infrastructure Assessments, participating funds and assets report annually to GRESB on their internal controls and policies. GRESB validates the submitted data and assesses the fund or asset with reference to a series of performance indicators, including the sustainability of its investment strategy, stakeholder relations and level of gender/diversity reporting. The aggregate scores determine a total fund or asset score which can be used to benchmark performance against its peer group.

Funds and assets across all infrastructure sub-sectors can participate in the GRESB Infrastructure assessments, but Transport and Renewable Power assets currently have the greatest participation rate within our portfolio.

Infrastructure investments represented 10.4% of the value of Lothian Pension Fund assets at 31 March 2021, comprising one of the largest and most diversified allocations among UK LGPS funds. Of the total infrastructure investment of £892 million (31 March 2020: £962 million), the majority is invested in the UK.

Infrastructure investments represented 10.4% of the value of LPF assets at 31 March 2021

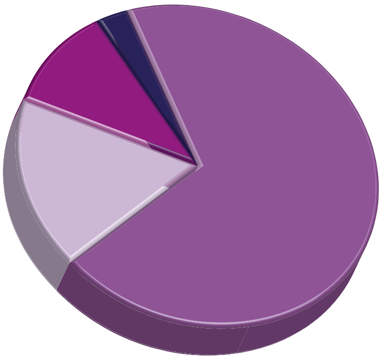


RESPONSIBLE INVESTMENT

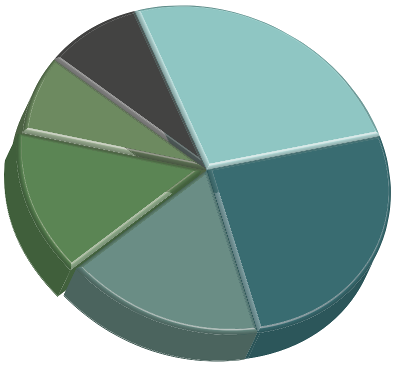
During 2020/21, Lothian Pension Fund completed investments in five secondary fund interests and made one co-investment. Approximately £86 million has been invested over the year in UK, European and Global infrastructure assets. During the same period, £168 million has been distributed/returned to the fund. Of note, there were two successful realisations generating proceeds of more than £60 million and recording a net internal rate of return of 20% and a total value to paid-in multiple of 2x. A sale of another of the larger assets was agreed, which crystallised proceeds of approximately £35 million in April 2021.

The geographic and sector diversification for Lothian Pension Fund infrastructure (as percentage of infrastructure asset value of £892m at 31 March 2021) is shown in the charts below.

GEOGRAPHIC DIVERSIFICATION



SECTOR DIVERSIFICATION



Infrastructure investments in the UK contributed 75% (or £667 million) of the total. The fund's 20 largest UK investments, representing £407 million of value, are shown in the map below. Investments are made across a diverse range of projects, in the areas of:

- Utilities (including regulated water, gas and electricity)
- Social infrastructure (including hospitals, schools and roads)
- Renewables, Energy and Power (including wind farms, biomass and natural gas pipelines)
- Transportation (including ports and rail); and
- Telecom and Others (including telecom towers and car parks).

RESPONSIBLE INVESTMENT

We recognise the role infrastructure investment can make to address part of the current environmental challenges related to climate change. Approximately, 15% of the infrastructure portfolio is invested in renewable energy.

Since March 2020, the impact of COVID-19 on our infrastructure portfolio has been closely monitored. The portfolio sector bias towards regulated utilities, social infrastructure and renewable energy, includes essential critical assets which benefit from contracted or regulated income streams.

This has largely insulated the portfolio from material adverse financial impacts derived from COVID-19.

During the year, the fund allocated c. £69 million to investments in UK social infrastructure, transport and utilities. New opportunities continue to be appraised.

ENGAGE Newsletter

Engage is our regular newsletter on Responsible Investment. We release two issues a year to highlight the important and progressive work we're doing as a leader in the responsible investment space.

Past issues have included how we have managed the response to COVID-19 in our commercial property, profit and purpose at Kering, how LPF's portfolio companies have been at the forefront of the COVID-19 vaccine development and routes to a low carbon economy, amongst many other subjects. Our recent role in supporting the Engine No 1 slate of directors that have shaken up the Exxon board and stunned the oil and gas industry will be outlined in the next issue – keep your eye out for its release!.

FUNDING STRATEGY STATEMENT

The Funding Strategy Statement covers the funding strategies for Lothian Pension Fund and Scottish Homes Pension Fund and can be viewed on our website www.lpf.org.uk/publications.

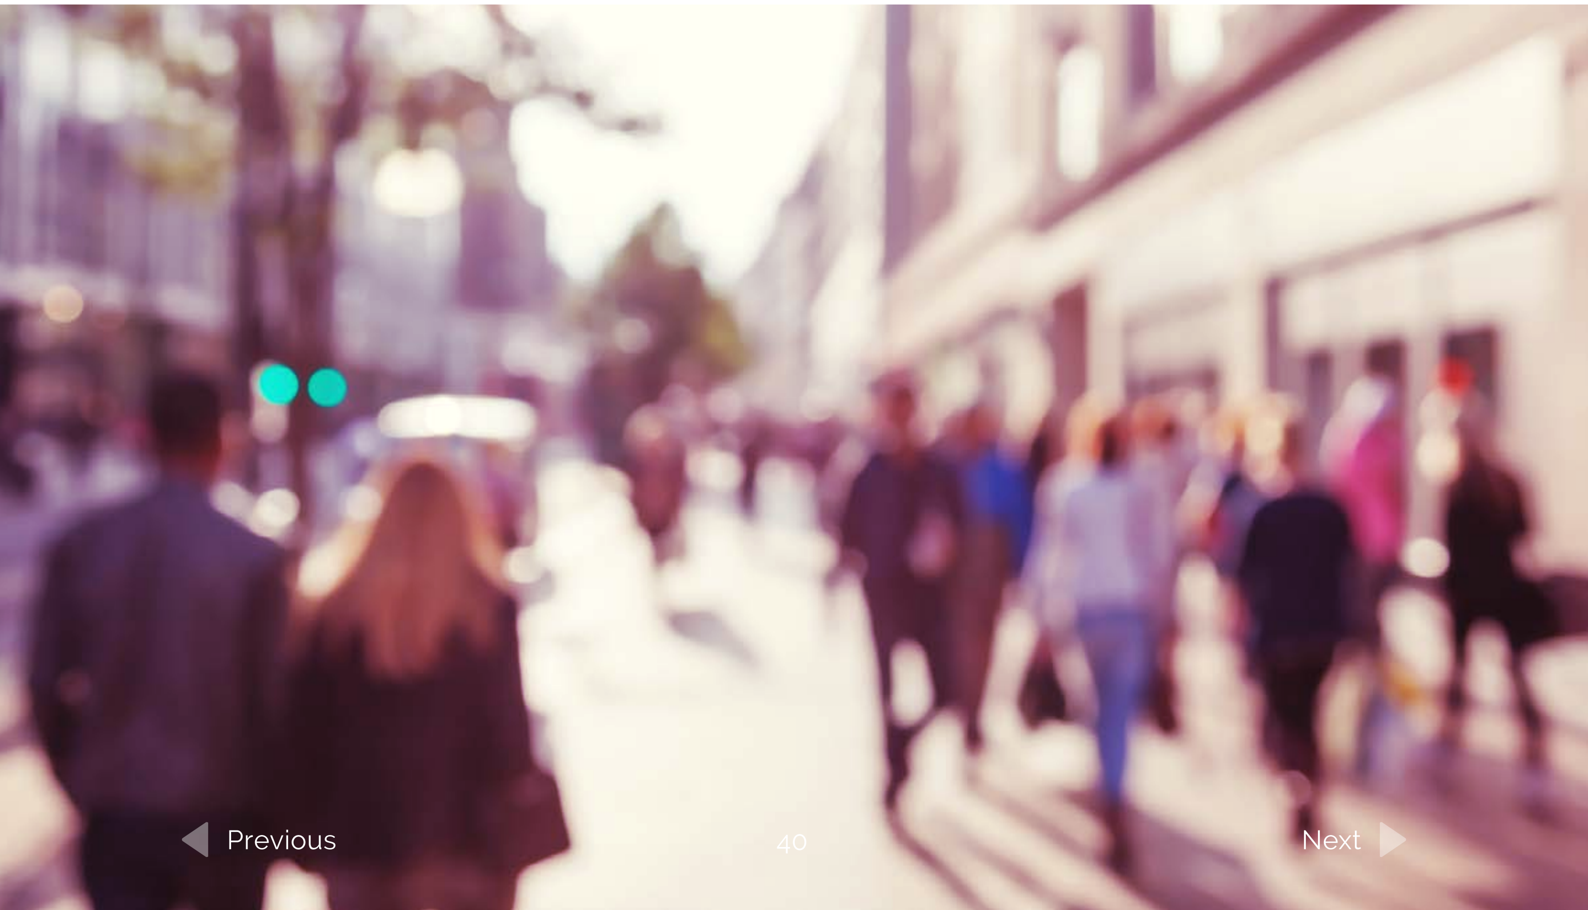
The purpose of the Funding Strategy Statement is to:

- Establish a clear and transparent fund-specific strategy which will identify how employers' pension liabilities are best met going forward
- Support the regulatory framework to maintain as nearly constant employer contribution rates as possible
- Take a prudent longer-term view of funding those liabilities.

These objectives are desirable individually but may be mutually conflicting.

The Funding Strategy Statement also ensures that the regulatory requirements to set contributions to ensure the solvency and long-term cost efficiency of the funds (as defined by the Public Service Pensions Act 2013) are met.

Key policies, including the fund's Admission Policy and Policy on Employers Leaving the Fund are appended to the Funding Strategy Statement. The policy on Employers Leaving the fund sets out the fund's approach to dealing with employer exits, including principles for determining payment of cessation debt.



FUNDING STRATEGY STATEMENT

The Funding Strategy Statement was revised at the 2020 Actuarial Valuation and reflects CIPFA guidance: "Preparing and maintaining a funding strategy statement in the Local Government Pension Scheme 2016".

Key changes include:

- The introduction of a new risk-based (stochastic) approach to setting employer contribution rates. This takes into consideration specific employer circumstances, including the assessment of the employer's covenant, and also considers expected future economic conditions. This approach isn't suitable for all employers. Contribution rates for employers closed to new entrants are instead set using a deterministic method, using a single set of assumptions. Such employers are expected to leave the fund sooner and therefore current market conditions are more relevant.
- The introduction of a salary strain mechanism as a way of recognising the cost of higher than anticipated salary increases by any individual employer at the point at which pay awards are granted, rather than letting the cost be met over a much longer time period.

As required by Scheme Regulations, the fund consulted with employers as part of the review process.

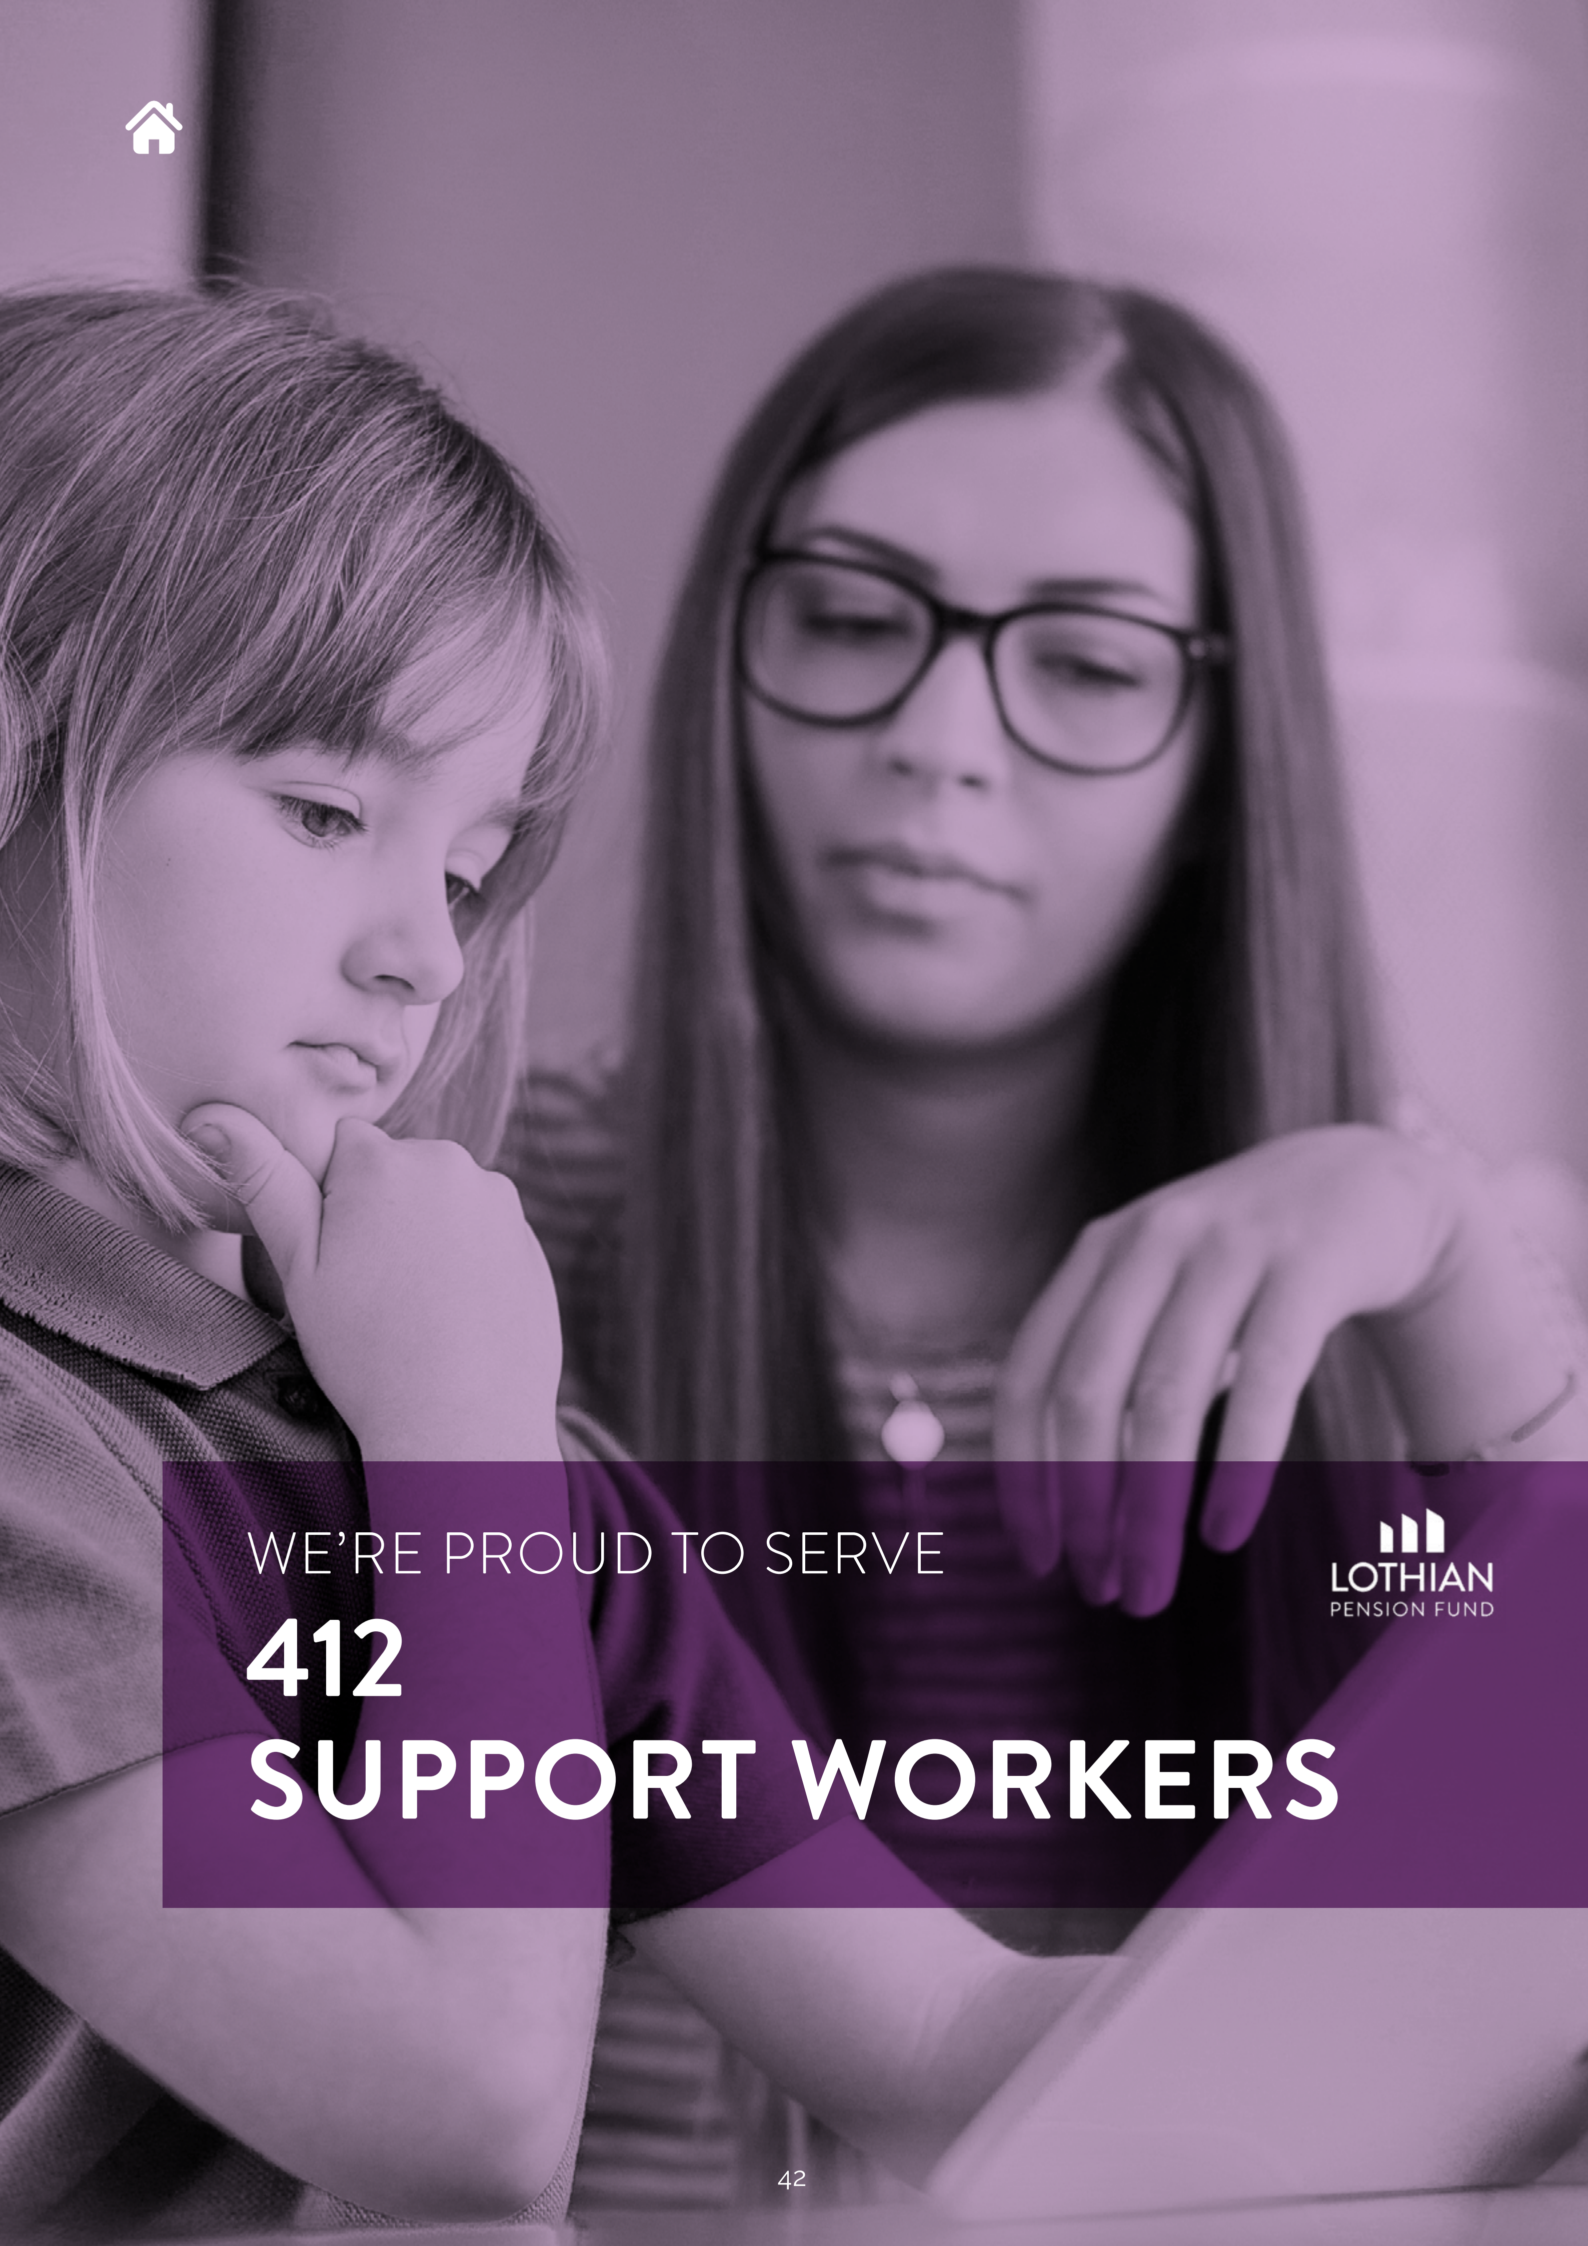
The fund must be able to meet all benefit payments as and when they fall due. These payments will be met by contributions (resulting from the funding strategy), or asset returns (derived from the investment strategy). A formal review of the fund's investment strategies is undertaken at least every three years to ensure appropriate alignment with liabilities. Further information on the investment strategies can be found in LPF's Statement of Investment Principles also available at www.lpf.org.uk.

The next triennial valuation for both funds will be undertaken as at 31 March 2023.

COLLEAGUE PROFILE **Lucy Pemberton – Pensions Administrator**

Lucy joined as a Trainee Pensions Administrator in January 2019 and recently qualified as a Pensions Administrator. Her main responsibilities are processing members' benefits and answering any questions they might have. Lucy also plays an important role in helping our new trainees. Lucy says:

"I enjoy working at LPF because I'm part of a great team that makes every day fun and I love knowing that we're providing a really important service to our members."



WE'RE PROUD TO SERVE

412 SUPPORT WORKERS

LOTHIAN PENSION FUND

FINANCIAL PERFORMANCE

Administration expenses

A summary of the Fund's administrative expenditure for 2020/21, against the budget approved by the Pensions Committee, is shown in the table below.

The budget focuses on controllable expenditures, so excludes all benefit payments and transfers of pensions from the Fund. Similarly, income doesn't include contributions receivable and pension transfers to the Fund. The total net cost outturn of £31,030k against the budget of £31,921k represented an underspending of £891k (2.8%) for the Fund.

The most significant budget variances serving to generate this underspending were:

- **Employees – £335k underspend.** Following an organisational design review earlier in the year, recruitment delays led to an underspend. Most of these vacant posts have now been filled. Variable pay awards were also substantially lower than the full budgeted award.
- **Transport and premises - £237k underspend.** The Fund has postponed its move into new premises and plans to reassess the position next year. In the meantime, the current office has been refurbished to comply with social distancing requirements, which will also improve future marketing potential for the unit.
- **Supplies and Services – £332k underspend.** Underspending occurred against budget for investment systems, while the roll out of a secure document management and governance portal has been delayed to after the transition of IT provider.
- **Investment managers fees - Invoiced – £1,119k underspend.** Charges on external managed portfolios are based on market values. Over the financial year the Fund took approximately £200m of externally managed funds under internal management.
- **Investment managers fees- Uninvoiced - £713k overspend.** Above budget spend is the result of an increase in investment property operational costs, most of which was the result of void costs due to the ongoing pandemic.
- **Support Costs – £180k underspend.** Contained within the budget was a period of parallel running between CGI and the new ICT provider. The contract with the new provider started on the 1st April 2021 so this overlapping period did not take place in the 2020/21 financial year.
- **Income – £605k under-recovery.** Income in relation to collaborative partners is based on a cost sharing mechanism. Due to underspend against budget, in particular property costs, as well as the lower than expected deal flow in relation to collaborative investments, income was below budget.

FINANCIAL PERFORMANCE

	Approved budget	Actual outturn	Variance

FINANCIAL PERFORMANCE

LOTHIAN PENSION FUND

Cash-flow

Cash-flow to and from a pension fund is very dependent on the profile of its membership. Specifically, a maturing membership, where the proportion of active to deferred and pensioner members is reducing, would be expected to see a reduction in contributions received, together with additional outlays on payments to pensioners.

The tables below show the projected cash flow, as reported to Pensions Committee on 17 March 2021, against the actual movement for the year. It's important to distinguish between the basis of preparation for these, with the projected figures prepared on a cash basis, i.e. from when cash is received by the Fund, compared to the accruals basis of the Financial Statements to reflect accounting standards.

	2020/21 Projected	2020/21 Accruals basis	2020/21 Cash Basis
Income	**£000**	**£000**	**£000**
Contributions from employers	191,000	191,463	194,223
Contributions from employees	50,750	51,193	51,055
Transfers from other schemes	5,500	62,308	49,894
	247,250	**304,964**	**295,182**
Expenditure			
Pension payments	(188,000)	(187,565)	(187,565)
Lump sum retirement payments	(58,000)	(50,205)	(51,222)
Refunds to members leaving service	(550)	(551)	(551)
Transfers to other schemes	(9,000)	(5,734)	(5,734)
Administrative expenses	(2,600)	(2,879)	(2,859)
	(258,150)	**(246,934)**	**(247,931)**
Net additions/(deductions) from dealings with members	**(10,900)**	**58,030**	**47,251**

For the first time in five years, LPF has seen a net addition in value from our dealings with our members. This is not a trend that's expected to continue, this gain being the result of the consolidation of the multi fund employer VisitScotland. It's worth highlighting that although this bulk transfer had been highlighted to Pensions Committee, the inflow had been excluded from the projection owing to the uncertainty of the transfer value.

FINANCIAL PERFORMANCE

Cash-flow (cont.)

Lothian Pension Fund	Actual	Cash flow forecast									
	2020 /2021 £m	2021 /2022 £m	2022 /2023 £m	2023 /2024 £m	2024 /2025 £m	2025 /2026 £m	2026 /2027 £m	2027 /2028 £m	2028 /2029 £m	2029 /2030 £m	2030 /2031 £m
Pensions income	305.0	252.3	255.5	258.8	262.1	265.5	268.9	272.3	275.9	279.5	283.2
Pensions expenditure	(246.9)	(260.0)	(270.0)	(280.5)	(291.5)	(303.0)	(315.0)	(327.6)	(340.8)	(354.6)	(369.0)
Net pensions cash flow	**58.1**	**(7.7)**	**(14.5)**	**(21.7)**	**(29.4)**	**(37.5)**	**(46.1)**	**(55.3)**	**(64.9)**	**(75.1)**	**(85.8)**
Net investment income	**228.7**	**235.0**	**239.7**	**244.5**	**249.4**	**254.4**	**259.5**	**264.7**	**270.0**	**275.4**	**280.9**

The above figures are the estimated annual cash flow on pensions activity and investment income for the next ten years. The forecast is based on the 2020/21 actual cash flows (included for comparison) adjusted for actuarial assumptions.

Throughout the forecast period it's expected that investment income will provide multiple cover for negative net pensions cash flow, with no asset sales being required to fund on going pensioner payments.

SCOTTISH HOMES PENSION FUND

	2020/21 Projected	2020/21 Accruals basis	2020/21 Cash Basis
Income	**£000**	**£000**	**£000**
Administration charge	70	70	70
Expenditure			
Pension payments	(6,720)	(6,619)	(6,619)
Lump sum retirement payments	(750)	(734)	(721)
Transfers to other schemes	(100)	-	-
Administrative expenses	(70)	(64)	(64)
	(7,640)	**(7,417)**	**(7,404)**
Net additions/(deductions) from dealings with members	**(7,570)**	**(7,347)**	**(7,334)**

Scottish Homes Pension Fund is a mature fund with no active members. As a result, pension outlays are met from investment income, supplemented by asset sales. Net pension outlays were £7.3million which is in line with the prior year.

Membership statistics and funding statements from the Actuary are provided for both funds in the Fund Accounts sections.

Cash-flow (cont.)

Scottish Homes Pension Fund	Actual	Cash flow forecast									
	2020 /2021 £m	2021 /2022 £m	2022 /2023 £m	2023 /2024 £m	2024 /2025 £m	2025 /2026 £m	2026 /2027 £m	2027 /2028 £m	2028 /2029 £m	2029 /2030 £m	2030 /2031 £m
Pensions income	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0
Pensions expenditure	(7.3)	(7.2)	(7.0)	(6.9)	(7.0)	(6.8)	(6.7)	(6.5)	(6.4)	(6.3)	(6.0)
Net pensions cash flow	**(7.3)**	**(7.2)**	**(7.0)**	**(6.9)**	**(7.0)**	**(6.8)**	**(6.7)**	**(6.5)**	**(6.4)**	**(6.3)**	**(6.0)**
Net investment income	**2.0**	**2.0**	**1.9**	**1.9**	**1.8**	**1.7**	**1.7**	**1.7**	**1.6**	**1.6**	**1.5**

The estimated annual cash flows for Scottish Homes Pension Fund is based on actuarial analysis of the fund's membership profile. Although investment income is below the annual pension outgoings, no asset sales are required to meet the shortfall. Instead the all gilt investment strategy incorporates these cash flow requirements, with redemption dates of gilts tying into the fund's liquidity needs.

2020 Actuarial Valuations

The most recent triennial assessment of the funding position of the pension funds was undertaken by LPF's Actuary as at 31 March 2020. The valuation set employer contribution rates for the three year period from 1 April 2021. The Funding Strategy Statement was reviewed and amended following consultation with employers.

For Lothian Pension Fund, the funding level increased from 98% at 31 March 2017 to 106% at this valuation. The deficit of £145million at 31 March 2017 is now a surplus of £408 million at 31 March 2020.

Lothian Pension Fund requires employers to provide written confirmation that minimum contribution rates set by the Actuary are affordable as it's not in the best interests of the individual employers or the fund for employers to continue to accrue unaffordable pension liabilities. The fund continues to work with employers to put in place funding agreements to address repayment of debt when an employer leaves, to avoid employer default or insolvency.

The funding level for Scottish Homes Pension Fund at 31 March 2020 was 117.7%, increased from 104.7% from the 2017 actuarial valuation. Consultation was undertaken with the Scottish Government on the potential benefits offered by revising the Funding Agreement for this fund. However, it advised that it didn't want to revisit this and, as a result, the investments of the fund are now fully invested in UK government bonds and cash.

The next triennial valuation for both funds will be undertaken as at 31 March 2023.

FINANCIAL PERFORMANCE

Investment management cost transparency

Local authorities are required to account for pension funds in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom (the Code). The Code is based on approved accounting standards issued by the International Accounting Standards Board and interpretations of the International Financial Reporting Interpretations Committee, except where these are inconsistent with specific statutory requirements.

The Code also draws on approved accounting standards issued by the International Public Sector Accounting Standards Board and the UK Financial Reporting Council, where these provide additional guidance. Guidance is still awaited from CIPFA as to how these costs should be standardised and reported in the Annual Reports of LGPS Funds.

The Chartered Institute of Public Finance and Accountancy (CIPFA) published this guidance in July 2014, which promoted greater transparency of investment management fees. These principles were adopted as best practice in the presentation of the Lothian Pension Fund audited Annual Report 2015. In June 2016, CIPFA revised its guidance including the following: "Investment costs incurred by a separate legal entity, or in respect of investment decisions over which the pension fund has no control, should not be included in the Fund Account."

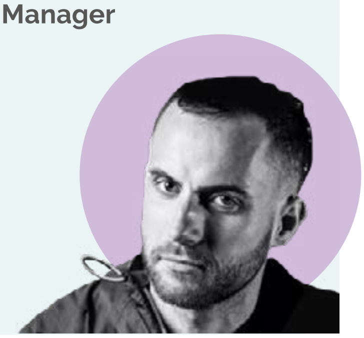
The revised guidance changed the disclosure of fees for fund of funds investment arrangements. A 'fund of funds' is an investment holding a portfolio of other investment funds rather than investing directly in funds. Typically, fees are payable to the 'fund of funds' manager as well as to the managers of the underlying funds. Generally, under the revised guidance from CIPFA, the second and third layer of fees would not be disclosed with just the fees from the 'fund of funds' manager stated.

In the preparation of the Fund's Annual Report for 2014/15 and 2015/16, the Fund made efforts to be completely transparent on the totality of costs incurred for managing its investment assets. The Fund's disclosures included all layers of fees. At its meeting on 28 September 2016, the Pensions Committee instructed the Committee Clerk to communicate to CIPFA, Audit Scotland and the Scottish Local Government Pension Scheme Advisory Board (SLGPSAB), the Committee's and

COLLEAGUE PROFILE Sean Reid - Compliance and Risk Manager

Sean joined LPF in September 2020 as our Compliance and Risk manager. Sean is responsible for the day-to-day management of the compliance and risk functions and helps colleagues to proactively identify and manage risks to ensure good outcomes for our members. Sean says:

"I enjoy working at LPF as it has an inclusive culture and I can make a difference for our members."



FINANCIAL PERFORMANCE

Convener's disquiet with the relaxation of the principle of full cost transparency of investment management fees, as explicit in CIPFA's revised guidance "Accounting for Local Government Pension Scheme Management Costs".

In May 2018, CIPFA published: "Proposals for LGPS Fund Reporting in a 'Pooled World.'" This sets out proposals for revised reporting for LGPS pension funds to meet several objectives, including:

- To further enhance reporting of costs reflecting the introduction of the LGPS SAB Code of Transparency for asset managers
- Initiatives underway by the Financial Conduct Authority (FCA) and Department for Work and Pensions (DWP) which aim to create more transparent and granular reporting standards for both providers and trustees

In March 2019, CIPFA published "Preparing the annual report – Guidance for Local Government Pension Scheme Funds (LGPS) 2019 Edition." The purpose of this guidance is to assist local government pension funds with the preparation and publication of the annual report required by Regulation 55 of The Local Government Pension Scheme (Scotland) Regulations 2018.

The Pensions and Lifetime Saving Association (PLSA) has also issued cost data templates to support its Cost Transparency Initiative. The aim of this initiative is to provide a standardised way for asset managers to report costs and charges to investors. Such further cost disclosure will be included within the notes to the financial statements.

The financial statements of Lothian Pension Fund and Scottish Homes Pension Fund continue to include full transparency for both funds' internal and external investment management fees.

WHAT OUR MEMBERS SAY:

'I have other pensions and I wish they were as good as Lothian Pension Fund.'

FINANCIAL PERFORMANCE

	Lothian Pension Fund		Scottish Homes Pension Fund	
	2019/20	2020/21	2019/20	2020/21
	£000	£000	£000	£000
Investment management expenses in compliance with CIPFA guidance	31,443	37,468	104	112
Investment management expenses per financial statements	32,398	38,479	104	112
Disclosure in excess of CIPFA guidance	955	1,011	0	0

Utilising its internal investment management expertise, the investment strategy of Lothian Pension Fund has evolved to move away from complicated and expensive investment vehicle structures, such as fund of funds, to increased direct investment, e.g. in infrastructure. This significantly reduces the layers of management fees incurred.

The Fund is now at the realisation stage of its fund of fund investments, with its holdings in listed private equity and infrastructure funds being reduced and those receipts serving to fund additional direct investments. Although the disclosure in excess of CIPFA guidance for 2020/2021 (£1,011K), is broadly in line with the previous year (£955K), it's expected that over time these disclosures will continue to fall. Crucially, the disclosure of the full costs of investment management remains fundamental to effective comparison between LGPS funds, particularly given the common use of fund of fund investment vehicles.

FINANCIAL PERFORMANCE

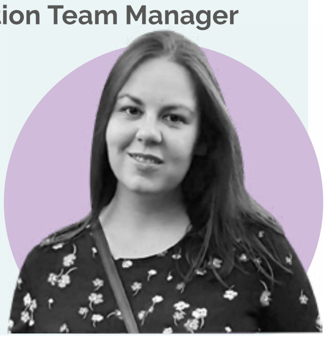
Investment cost benchmarking

Investment strategy focuses on risk-adjusted returns net of costs. The Fund has participated in investment cost benchmarking provided by CEM, an independent benchmarking expert for global pension funds with a database of 307 pension funds representing £7.4 trillion in assets. To provide a fair comparison, CEM calculates a benchmark based on fund size and asset mix, which are key drivers of investment costs.

The latest analysis available (for the year to 31 March 2020) showed that LPF's investment costs 0.36% of average assets were significantly lower than CEM's benchmark cost of 0.51%, an equivalent annual saving of approximately £11.6m. This saving largely reflects the fact that the Fund manages a relatively high percentage of assets internally compared with other similar pension funds and that it has low exposure to fund-of-fund investment vehicles.

COLLEAGUE PROFILE Gillian Angus – Pensions Administration Team Manager

Gillian joined LPF in December 2015 as a Trainee Pensions Administrator and has worked her way up to the role of Pensions Administration Team Manager. Gillian's role is very varied and includes co-ordinating work and training for the pensions administration team to ensure that they're able to resolve member complaints and meet their KPIs. Gillian is currently working as part of a project team to review our year end processes. Gillian says:



"I like working at LPF because the people are fantastic, and the job is very interesting."

PERFORMANCE AND ADMINISTRATION

Key Performance Indicators 2020/21

Our strong commitment to customer service drives continuous service development, ensuring the best possible service, whilst recognising potential demands of the future. We set challenging performance targets and measure these through both key indicators which are reported to our Pensions Committee and Pension Board, and internal indicators, which are reported to internal management. This year we've focused on improving the services we provide digitally to enable members quick and easy access to their personal information.

The table shows our performance against these targets.

2019/2020		Target	2020/2021
Retained	Maintain Customer Service Excellence Standard (CSE) (Annual assessment)*	Retain	Retained
Met	Audit of Annual Report and Accounts	Unqualified opinion	Not yet assessed
100%	Proportion of members receiving a benefit statement by August	100%	100%
92.7%	Overall satisfaction of employers, active members and pensioners measured by surveys	92%	96%
99.7%	Percentage by value of pension contributions received within 19 days of end of month to which they relate	99%	99.5%
Met	Investment performance and Risk of Lothian Pension Fund over a rolling five-year period	Meet benchmark 1.31*	Not met 1.06*
Met	Monthly pension payroll paid on time	Met	Met
3.9%	Level of sickness absence	4.0%	2.85%
100%	All colleagues complete at least two days training per year	Yes	100%
73%	Colleague engagement index	Greater than 70%	73%

*Due to the Coronavirus outbreak the assessment to be held in March 2020 was rescheduled and took place in January 2021
**Sharpe ratio measuring annualised portfolio return less risk free return divided by standard deviation of returns.

PERFORMANCE AND ADMINISTRATION

Value for Money
Pension Administration Benchmarking

Value for Money is the term used to assess whether an organisation has obtained the maximum benefit from the services it acquires or provides, within the resources available to it. It has three components to take account of: economy, efficiency and effectiveness.

For many years, LPF has participated in benchmarking provided by the Chartered Institute of Public Finance and Accountancy (CIPFA). The purpose of this is to help identify the areas where we can make improvements to deliver better value for money. The benchmarking facilitates:

- Comparison between costs and performance
- The provision of evidence to support decisions on budget relating to the sustainability and capability to enhance customer satisfaction
- Sharing of information and ideas with peers
- A review of performance trends over time.

The outputs and analyses have served to supplement internal performance management information. However, the Chartered Institute of Public Finance and Accountancy (CIPFA) has stated that, to protect its commercial interests, its benchmarking reports "cannot be put in the public domain. It is for internal uses only within the authority . . . and for contacting and communicating with other members of the club." We're therefore unable to include full information on the results in the Annual Report.

The Pensions Administration Standards Association (PASA)

Holding PASA Accreditation is the gold standard for quality in pensions administration. We're proud to hold accreditation, as we believe that it's important that we can demonstrate that we're carrying out our role as a LGPS efficiently and effectively. The PASA standards are an excellent external validation of these capabilities.

We chose to apply for accreditation with PASA in 2017 as its standards are specific and relevant to the pensions industry and would ensure the levels of services provided by LPF were in line with both the Pension Regulator's Codes of Practice as well as best practice in pension administration services in the private sector. PASA accreditation is valid for three years, so we were delighted to achieved reaccreditation in December 2020.

PERFORMANCE AND ADMINISTRATION

A summary of the benchmarking, based on 2019/20 data as reported to Pensions Committee in March 2021, is below:

- Lothian Pension Fund's cost per member of £24.19 falls within the very wide range of local authority funds of c£14 to £42 and the cost is lower than the average of all funds of £30.33
- The composition of a fund's membership impacts costs. Active members represent 38.6% of Lothian Pension Fund membership compared with an average of 33.1%. Pensioners represent 34.7% compared with 29.4%, with the consequence that deferred members represent a lower proportion of membership (23.6%) than the typical fund. As deferred members are less demanding on administration services, these factors would tend to increase pension administration and payroll workload and therefore cost
- The proportion of our colleagues holding relevant pension administration qualifications (54%) is significantly higher than the average (32%)
- In addition, our administration performance is above average for 13 of the 16 industry standard indicators in certain instances, by a considerable margin.

We participated in the pension administration survey carried out by CEM for the first time in 2019. This gave us further insight into pension administration cost and quality of service and we're pleased to continue the survey in 2020.

Although CIPFA is exclusive to local authority funds, the CEM peer group also included UK private sector schemes. Participating funds from both private and public sectors were of a significantly larger size than us. CEM's benchmarking results categorised our pension administration service as "low cost; high service standard".

WHAT OUR MEMBERS SAY:

'I am very happy with the services provided, and I know that if I have any queries, I can easily get in touch via email and phone.'

PERFORMANCE AND ADMINISTRATION

Customer and complaint feedback

Listening to feedback is key to our services and LPF carry out surveys to monitor individual and overall satisfaction. Our overall satisfaction continues to improve and in 2020/21 remains above the 92% target at 97%.

We also monitor complaints and ensure we respond to and resolve all complaints where possible, within 20 working days.

We investigate and learn from both formal and informal complaints to ensure we're continuously improving our services. Complaints are split by those about the service we provide and those about how Scheme Regulations are applied.

We carried out 26,776 processes in 2020/21 and there were very few complaints made, less than 0.01%. Complaints covered a broader range of issues including taking small pensions as a cash lump sum and the time it took to pay a Cash Equivalent Transfer Value to new pension providers.

Internal Dispute Resolution Procedure (IDRP)

Pensions law requires that the Local Government Pension Scheme must have a formal procedure in place for resolving disputes arising from the running of the scheme. The IDRP is a two-stage process. An external independent appointed person deals with disputes at the first stage and the second stage is dealt with by the Scottish Ministers.

In 2020/21, there were four stage 1 disputes for investigation. If a member remains dissatisfied with the Stage 1 decision, they have six months to take their appeal to Stage 2. In 2020/21, there were two Stage 2 disputes, both of which are included in the statistics below.

Reason for dispute	Stage 1 outcome	Stage 2 outcome	On-going
Not allowing a Cash Equivalent Transfer Value (CETV) within 12 months of Normal Retirement Date (NRD)	1 not upheld	1 not upheld	0
Non return of contributions on re-joining LGPS	1 not upheld	0	0
Awards, e.g. early payment of deferred pension on health grounds	1 not upheld		1
The amount of Cash Equivalent Transfer Value (CETV) payable for a Pension Credit Member	1 upheld		0

Further information about the IDRP and complaints procedure is available on our website at www.lpf.org.uk/aboutus.

PERFORMANCE AND ADMINISTRATION

Our data

We issued 100% of benefit statements by the statutory deadline of 31 August 2020. This is the third year in a row we've achieved this target which was set by the Pensions Regulator in 2015. Previous years saw us achieve 99%.

We measure our pension record keeping standards against the Pension Regulator's best practice guidance. Poor record-keeping can lead to significant additional costs in areas such as administration, error correction, claims from members as well as fines from The Pensions Regulator.

All our employers submit monthly contribution and pensionable pay data through our employer data portal, and we audit submissions to ensure the continuation of data accuracy.

We utilise a Data Quality Service provided by the administration software supplier to determine the scores for our common and conditional data as required by the Pensions Regulator. The scores are based on the percentage of clean member records; those considered to be without a single data failure.

The following scores were submitted to the Pension Regulator for the 2020 annual scheme return. Lothian Pension Fund and Scottish Homes Pension Fund scored 98.3% and 96.7% respectively for common data (2019 scores were 98.3% and 96.5% respectively) and 96.9% and 99.3% for conditional data (2019 scores were 95.4% and 96.7% respectively). The quality of data continues to be considered to be of a high standard.

Customer Service Excellence (CSE)

We're proud to have held the Customer Service Excellence (CSE) Award (previously known as Charter Mark) since 2008.

The CSE Awards were established to provide a practical tool for service providers to drive customer-focused change within their organisation. It has helped us to become even more efficient and effective and provide an excellent service to our members and employers.

Yearly formal assessments are carried out by a licenced certification body and we're delighted to have received successful inspections for the last 13 years.

VisitScotland – Direction Order by Scottish Ministers

As an LGPS employer, VisitScotland participated in all 11 funds in Scotland. New staff employed were offered membership in Lothian Pension Fund (LPF), with VisitScotland's participation in the other ten funds being on a closed (to new entrants) basis. In 2019, VisitScotland identified an opportunity to rationalise their Local Government Pension Scheme (LGPS) participation and consolidate administration and communications into one fund, Lothian Pension Fund. Approval of Pensions Committee to this transfer of obligations was granted in September 2019, which enabled VisitScotland to seek the authority of Scottish Ministers.

The Local Government Pension Scheme (Miscellaneous Amendments) (Scotland) Regulations 2020 amended Schedule 4 of the 2018 Regulations, to specify that the Scottish Ministers may, upon application of a Scheme employer, by a written direction, substitute a different administering authority as the appropriate administering authority for a person or class of persons.

Accordingly, this request was made by VisitScotland and following requisite statutory consultation, the formal Direction Order was issued by Scottish Ministers in August 2020.

LPF initiated a major administration and communications project to undertake bulk transfer of these members from all ten ceding funds.

The project to transfer members, assets and liabilities from the ten ceding funds to LPF as the receiving fund, was split over two tranches to reduce risk and smooth the effort required by key stakeholders at peak times.

The effective date for tranche 1 was 30 September 2020 and included broadly similar funds, where there were limited complexities around the pensioner payroll given the commonality of software system and member Additional Voluntary Contribution (AVC) arrangements. This transfer was completed successfully moving Strathclyde, North East and Fife Pension Funds to LPF. From October 2020, LPF became the administrators for members from those ceding funds in scope of the transfer.

VisitScotland – Direction Order by Scottish Ministers (cont.)

The effective date for tranche 2 was 31 December 2020, transferring the remaining seven funds to LPF. This more complex transfer, dealt with different payroll providers, which required an additional data validation step. Members across two funds held AVCs which had to be transferred to comparable LPF funds. This tranche was completed successfully moving the remaining funds to LPF. From January 2021, LPF became the administrators for members from all those ceding funds in scope of the transfer.

Ceding Fund	Transferring Members - Actives	Transferring Members - Deferreds	Transferring Members - Pensioners	Transferring Members - Total
1st Tranche				
Strathclyde	6	53	28	87
North East Scotland	1	35	40	76
Fife	5	7	17	29
2nd Tranche				
Tayside	10	31	49	90
Falkirk	5	25	32	62
Highland	8	39	56	103
Scottish Borders	1	8	7	16
Dumfries and Galloway	5	7	19	31
Shetland	1	5	4	10
Orkney	0	4	4	8
Total	**42**	**214**	**256**	**512**

The asset transfer payments from all ceding funds, as determined by the Actuary, were sent to LPF on 31 March 2021, which progressed the transfer close to completion, subject to any potential "true-up" payments (reconciling actual asset returns from the transfer date to the payment date, refined from the investment market roll-up adjustment). [Payments etc. to be confirmed]

The project's success was a result of good working relationships and high engagement across all stakeholders. Regular project meetings with ceding funds and the project team were key to tracking progress and identifying and remedying areas of concern and ultimately delivering the project to plan and budget.

PERFORMANCE AND ADMINISTRATION

Rectification of age discrimination - McCloud and Sargeant judgements

When public service pension schemes were reformed following the Public Service Pensions Act 2013, protections for older scheme members were introduced. In December 2018, the Court of Appeal ruled that the transitional protections included in the Judges' ("McCloud") and Firefighters' ("Sargeant") pension schemes constituted unlawful age discrimination. Following this, in July 2019 a Written Ministerial Statement confirmed that the UK Government believed that the ruling applied to all the main public service pension schemes and that the discrimination would be addressed in all the relevant schemes, including Local Government Pension Scheme (LGPS) in Scotland.

On 4 August 2020, the Scottish Public Pensions Agency (SPPA) issued a statutory consultation on the proposed remedy, with this closing in October 2020. As anticipated, it's proposed that a comparison will be made between the benefits payable under the current rules with the entitlements which would have been paid if the Scheme had not changed in 2015, and with any higher sum being paid to the member. This protection will apply automatically and members who meet the qualifying criteria won't need to take any action. Many members' benefits won't change or will only see a small increase because of low salary growth since the new scheme was introduced.

As the changes will be backdated to April 2015 and apply to qualifying members who left the LGPS after that date, implementation of the remedy is expected to be extremely challenging from both administration and communications perspectives. SPPA has not yet published its formal response to its consultation. In March 2021, SPPA advised administering authorities that rectification regulations should come into force in April 2023 (one year later than anticipated).

Pension administration

Our in-house pension administration team provides a dedicated service for the pension fund members. We monitor the time taken to complete our procedures. Key procedures include: processing of retirement and dependent benefits; providing information for new members; and transfers and retirement quotes. Despite the challenging environment, 96.82% of key procedures in 2020/21 were completed on target. However, in other areas, some delays were experienced while this key work was prioritised.

The table below shows the number and type of retirements in 2020/21.

	Health	Early-age 60 to NPA	Early-age 55 to 59	Redundancy	Late	Other	TOTAL
Lothian Pension Fund	86	418	248	140	167	101	**1160**
Scottish Homes Pension Fund	0	0	0	0	0	0	**0**

PERFORMANCE AND ADMINISTRATION

The table below shows performance against key procedures in 2019/20.

2019/20		Target	2020/21
93.5%	Proportion of critical pensions administration work completed within standards – individual performance within this indicator are shown below	Greater than 91%	96.8%
97.6%	Provide a maximum of one guaranteed Cash Equivalent Transfer Value (CETV) within 10 working days of receiving a request	90%	94.0%
98.8%	Pay lump sum retirement grant within seven working days of receiving all the information we need from the member	95%	98.8%
97.6%	Acknowledge of the notification of the death of a member to next of kin within five working days.	95%	94.6%
100%	Respond in writing within 20 working days to formal complaints that have escalated from frontline resolution, or recorded directly as an investigation	95%	100%
97.8%	Notify early leavers entitled to deferred benefits of their rights and options within 10 days of being informed of end of pensionable service.	90%	96.3%
75.2%	Proportion of non-key procedures completed within standard including Additional Regular Contributions, responding to member communications, updating nominations and maintaining the member database.	75%	78.1%
92.8%	Notification of dependant benefits within five working days of receiving all necessary paperwork	95%	93.2%
94.8%	Payment of CETV within 20 working days of receiving all completed transfer out forms	95%	98.1%
64.2%	Provide transfer-in quote within 10 working days of receiving the Cash Equivalent Transfer Value (CETV) from member's previous pension provider.	95%	86.1%
77.3%	Notify members holding more than three months, but less than two years' service, of their options at leaving. As there is a one month and a day lying period, the target is within 10 days of the end of the lying period or after the employer providing full leaving information if later.	80%	88.8%
89.3%	Pay a refund of contributions within seven working days of receiving the completed declaration and bank detail form.	90%	99.3%
82.6%	Estimate requested by employer of retirement benefits within 10 working days	90%	99.5%
90.8%	Pay any lump sum death grant within seven working days of receipt of the appropriate documentation	95%	99.3%

PERFORMANCE AND ADMINISTRATION

Combatting pension scams – The Pensions Regulator's Pledge

The Pension Regulator is asking trustees, providers and administrators to make a pledge to do what they can to protect scheme members and follow the principles of the Pension Scams Industry Group (PSIG) Code of Good Practice.

We were very keen to sign up to the Pledge because it demonstrates our commitment to combat pension scams, shows intent to protect our members and tells members and the pensions industry that we're committed to stopping scammers in their tracks. A project team was given the objective of thoroughly reviewing our administration and communications procedures to enable requisite self-certification that we've met the "six steps" within TPR's "The Pledge", with a target date of 31 March 2021.

To do this, we needed our administrators, as well as our Pensions Committee and Board members, to take the following steps:

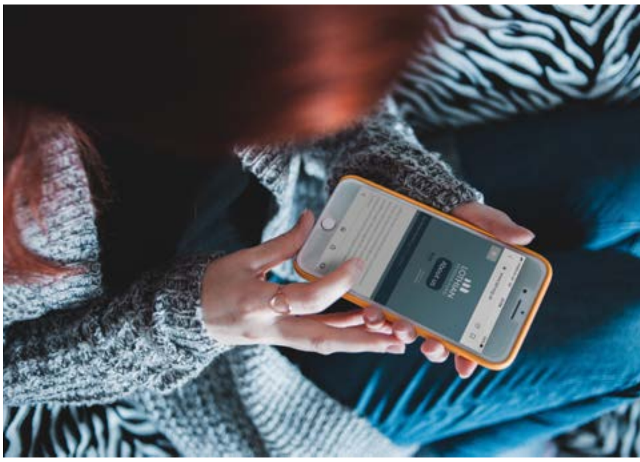
- Get to know the warning signs of a pension scam; this will help you to assess the level of risk when members make transfer and cash drawdown requests
- Regularly warn members about the risk of scams
- Encourage members asking for cash drawdown to get guidance
- Take appropriate due diligence measures by carrying out checks on pension transfers and documenting pension transfer procedures
- Clearly warn members about high-risk transfers
- Report concerns about a scam to the authorities and communicate this to the scheme member

We're delighted to report that this important member assurance has been attained.

PERFORMANCE AND ADMINISTRATION

Online services

In 2020/21, we continued our move towards providing as many services digitally wherever possible. Digital has become part of everyday life and we saw an increase in use during the Covid pandemic. Better digital services encourage members to engage with their pension and use our website and online service as their first port of call for answers. We continue to redesign how we work to meet current and future needs of our customers by rethinking what we do to provide the right information and service for our members and employers. Members can now securely upload documents via our online service and carry out processes such as requesting payment of deferred benefits, obtaining a transfer value and claiming a refund. Before the pandemic, we started to move towards providing forms online, and this was increased for the majority of processes once lockdown began.



We provide pension payslips and P60s online for all our members via My Pension Online. Information for members is also available via email, phone and via our website and we've also introduced a help hub to answer frequently asked questions. We currently have 35,200 (43%) members registered for the online service (including 52.5% of all our active members) and we're continuing to work to increase these numbers.

Our employers also use a variety of digital services including providing monthly contribution returns via a secure transfer portal. This allows data to be automatically uploaded to the pension software system which significantly improved the provision of employer data, allowed automation of tasks and considerably simplified the year end processes.

WHAT OUR MEMBERS SAY:

'I inherited a part of my husband's pension on his death. Your service was personal, professional and sympathetic at a very difficult time. I thank you for that.'

PERFORMANCE AND ADMINISTRATION

Unclaimed Monies Account

When a member leaves the Fund with less than two years membership they're entitled to a refund, a transfer to another pension provider or to defer their decision for five years. Where we don't receive a response, we now hold these records as 'Status 9: Frozen Refund' with a marker to show why the money has not been paid out. Examples of reasons for the refund not yet being paid include when the member has elected to delay making their decision for five years, or where the member no longer lives at the address we hold and is therefore 'gone away'.

Over the last year we've contacted members with an unpaid refund to encourage them to take payment of their money. As of 11 May 2021, this exercise has resulted in the Fund making payment to 175 members which represents £76,848.90 of money previously classed as unclaimed.

It's our intention in September 2021 to start contacting members whose money is still not paid out. By now recording details as to why the refund is unclaimed, we can target communications to specific groups to continue making these payments. We aim to make this an annual exercise.

Employer performance

The Pensions Administration Strategy sets out the roles and responsibilities of both the Fund and employers, specifying the levels of services the parties will provide to each other, and referring to four key areas where the Fund will pass on the costs of poor performance from employers:

- Late payment of contributions
- Late submission of membership information at the end of the year
- Failure to supply the Fund with information required to provide members with pensions savings statements
- Failure to provide details of member contributions monthly.

These areas are particularly important to ensure compliance with legislation, including accurate data to administer the career average pension scheme and the requirement to provide members with a pension forecast by 31 August each year. Charges for late payment of contributions are as stated in the Scheme Regulations, whilst other recovery of costs has been set to reflect the additional time spent in resolving queries and pursuing late information.

Since the strategy was introduced, provision of early leaver and retiral information from

PERFORMANCE AND ADMINISTRATION

employers has been well below the expected standard. 2020/21 was a challenging year for the Fund and employers due to the Pandemic. Despite this however, our officers took a variety of approaches to improve employer performance, including:

- Providing training to payroll/HR colleagues via Microsoft Teams
- Presenting performance updates at virtual meetings
- Escalating to senior officers at annual employer meetings
- Monitoring with employers where performance has been particularly poor.

To improve service to members, indirect costs can now be recovered from an employer if any persistent and ongoing administration failures occur, with no improvement demonstrated or if they're unwilling to resolve the identified issues.

We monitor employer performance against the standards set out in the Pension Administration Strategy. Results are reported to employers in an annual performance report, with more regular reporting for larger employers.

Overall employer performance for 2020/21 is shown below, with 2019/20 shown for comparison purposes.

		2019/20			2020/21		
Case type	**Target (working days)**	**Number received**	**Number within target**	**% within target**	**Number received**	**Number within target**	**% within target**
New members	20	7,489	4,554	61%	4,314	3,294	76%
Leavers	20	3,632	1,450	40%	2,580	1,214	47%
Retirements	20	1,374	512	37%	1,160	469	40%
Deaths in Service	10	16	10	63%	20	11	55%

PERFORMANCE AND ADMINISTRATION

Our largest employers are now submitting new starters through i-Connect which has improved the performance this year. We expect further improvement next year with only exceptional cases not being met in target.

Whilst the provision of leaver information within target has improved, a high percentage are still being received out of target. Two of our largest employers were faced with a high amount of historical cases identified from year end and this has impacted the fund result negatively. We continue to provide missing leaver queries to employers monthly and are confident that employers are now mainly focussing on 'business as usual' cases.

Most retirement information continued to be provided out of target. Similar to last year, just over a quarter of retirements out of target are received between 10 and 19 days before the member's retirement date, but just under 50% are received after the member's retirement date.

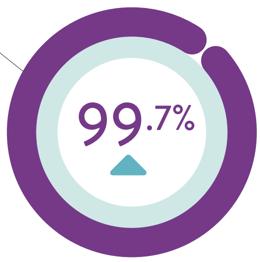
Edinburgh Development Group	1		
TOTAL			**27**

Contributions by value paid on time



99.7% of contributions by value were paid on time. Of the 976 payments made, 27 were paid later than the 19th and these are shown in the table. The option to levy interest on overdue contributions was not exercised in 2020/21 as late contributions weren't received significantly later than the 19th.

PERFORMANCE AND ADMINISTRATION

Scotland's Learning Partnership

On 26 April 2019, the Scottish Public Pensions Agency (SPPA) advised that "Ministers have agreed that Scottish Government will provide a guarantee in respect of the liabilities for the staff from the former Community Learning Scotland who transferred to the Local Government Pension Scheme". This guarantee was signed on 3 June 2019.

Following the guarantee, Scotland's Learning Partnership received an updated valuation result with amended contribution rates and has agreed to settle an outstanding secondary rate payment by March 2022 via instalments. Whilst this means that the Fund hasn't yet received the minimum contributions in full, as certified by the Fund Actuary, the level of outstanding secondary rate contributions is not deemed significant and the Fund isn't exposed to default risk, given the guarantee by the Scottish Government. We have advised the Scottish Public Pensions Agency of the position.

WHAT OUR MEMBERS SAY:

'I've worked for the City of Edinburgh Council for 11 years and have never had to worry about my pension as I know it's safe with Lothian Pension Fund'.

Ann Duff, Senior Communications Officer, City of Edinburgh Council

OUR COLLEAGUES

Our colleagues

Engaging our colleagues is critical to delivering our strategy and ambition. We firmly believe that having happy and motivated colleagues helps us deliver for our members, employers and stakeholders.

Our core values

We're passionate about pensions and our values are enduring principles that inform, inspire and instruct our day to day behaviour. We're proud to be:

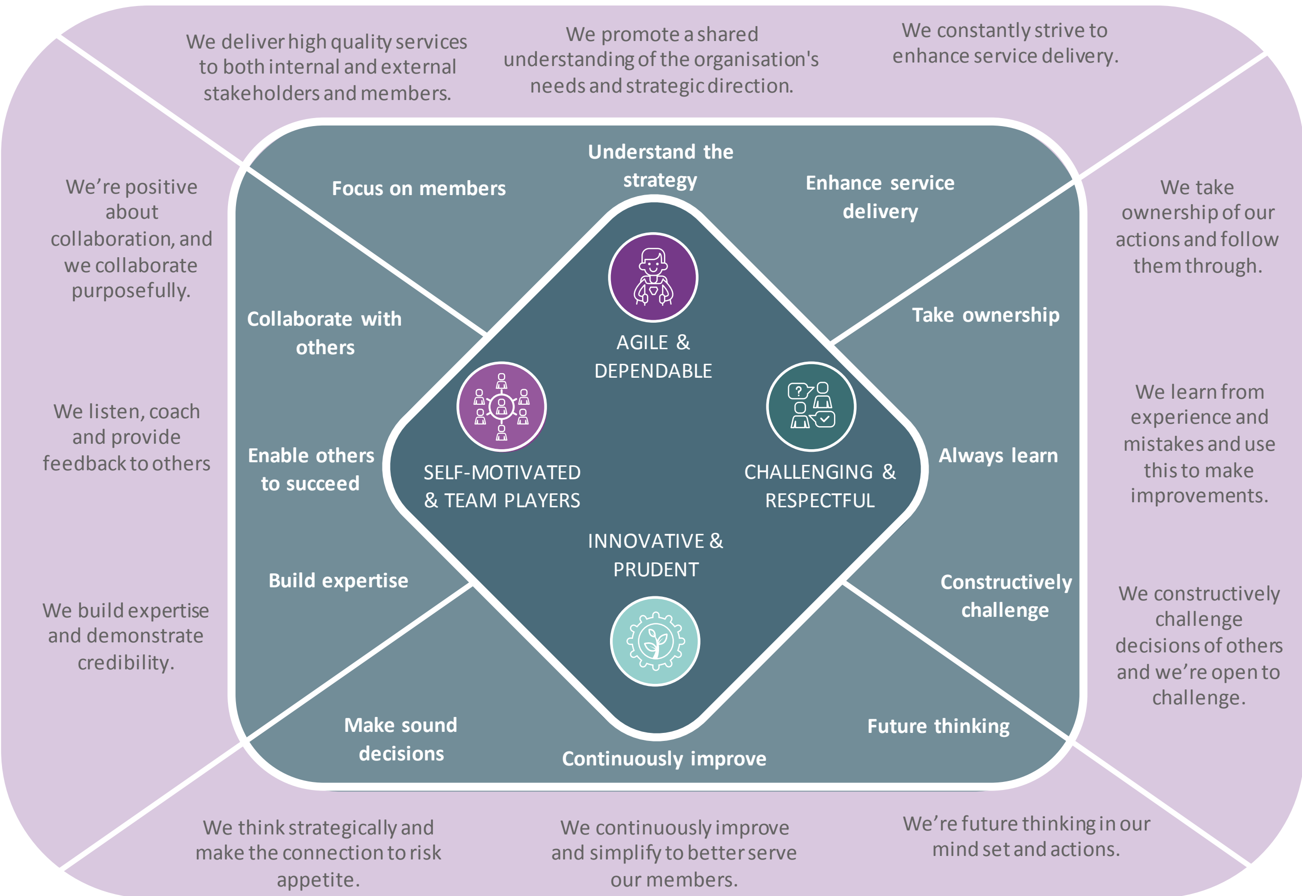
- **Agile and dependable**
  We approach work with an open and flexible attitude and take responsibility to manage our work effectively and efficiently. We also embrace new processes in a consistent and reliable way.
- **Self-motivated and team players**
  We actively participate as individuals, taking pride and responsibility in what we do. At the same time, we show awareness for the team and ensure our objectives support the team's objectives.
- **Challenging and respectful**
  We appreciate the need to challenge status quo and ask questions in a constructive and respectful way.
- **Innovative and prudent**
  We always look to improve processes and practices and ensure we do this in a way that's safe and protects LPF from unnecessary risk.

Inclusivity

We're one team, but we represent many ideas, experiences and backgrounds. We value everyone's contributions and believe that everyone should be their whole self at work. We want a diverse, inclusive and respectful workplace and this will be achieved by driving a positive environment. As at 31 March 2021 our permanent headcount was 56% female and 44% male.

We recognise the many strengths and talents our diverse colleagues bring to the workplace so we're taking steps to make sure that LPF is as inclusive as possible for both our colleagues and members:

OUR COLLEAGUES



- In 2019, we signed up to Disability Confident and more importantly, committed to review and improve everything we do with respect to recruitment and employment. Through Disability Confident, we'll work to ensure that disabled people and those with long term health conditions can fulfil their potential and realise their aspirations with us as an employer
- We're proud to be one of the firms in Scotland to partner with Future Asset and offer work experience placements for senior school girls. Future Asset aims to raise aspirations and confidence in girls in S4-S6, encouraging them to choose ambitious career paths, and informing them about rewarding opportunities in investment
- We've joined several organisations supporting the Scottish launch of a nationwide initiative focused on increasing diversity and inclusion in the asset management, professional services and financial services industries
- We continue our work on the Scotland chapter of the Diversity Project, which aims to accelerate progress toward a more inclusive culture in the investment and savings sectors across all demographics, including gender, ethnicity, sexual orientation, age and disability.

WE'RE PROUD TO SERVE

447 COOKS

LOTHIAN PENSION FUND

OUR COLLEAGUES

Gender Balanced

We continue to work towards our goal of being fully gender balanced across the organisation by 2030.

- As at 31 March 2021 we have, on aggregate, 35% women in our top three leadership layers and across the whole company, 56% of our workforce are women
- Our mean gender pay gap is 29.3% (median: 0.36%)
- Our positive action approach for gender, which is benchmarked externally, is helping to ensure that our people policies and processes are inclusive and accessible, from how we attract and recruit, to how we reward and engage our colleagues. We're confident this approach is the right one and through time, it will help us achieve a better balance of diversity throughout the organisation. During 2020, we recruited 16 colleagues, 69% of these were women.

Performance and Reward

During the second half of 2020 our focus was on the launch of our new performance management process for 2021. In preparation for the launch, we rolled out new role profiles and underpinned them with the values and standards specific to each role. This completes the performance management practice and how we assess individual performance and suitability of candidates in the recruitment process. We introduced our colleagues to the new performance management process through training on our learning portal. To complement the training, we held question and answer sessions and supported our colleagues and managers whilst they started to build their goals and objectives for 2021.

Our approach to performance management provides clarity for our colleagues about how their contribution and performance links to our vision and values. We are transparent with our pay structures to ensure our colleagues understand that they're paid fairly for their performance in line with industry best practices.

We make sure that colleagues have a common awareness of the financial and economic factors affecting LPF's performance through fortnightly all colleague calls and quarterly events. More information on our remuneration policies and employee share plans can be found later in this document.

OUR COLLEAGUES

Developing Skills and Capabilities Culturally

Becoming a learning organisation is one of our priorities. We ensure that colleagues have the required skills and qualifications to perform their roles and prepare them for the future. We're committed to developing colleagues in key areas we've identified that will help build the right knowledge, skills and behaviours to help them stay relevant and employable and support our ambition and purpose. In addition, we're encouraging agility and shifting mindsets so that a focus on the future, continuous learning, knowledge-sharing and reflective practice becomes the norm.

Professional standards are important to us and we offer a wide range of learning to support professional development. We work closely with a wide range of professional bodies, government agencies and our peers to maintain and grow professional standards across the industry.

Investing in Colleagues

We implemented ComplianceServe, a new digital e-learning platform, in the first half of 2020, giving our colleagues the opportunity to expand their own development as well as complete our quarterly core learning. This new platform allows us to regularly report on our company learning targets and our colleagues can record all their continued professional development (CPD) in one place.

Health and Wellbeing

We firmly believe that colleague wellbeing is linked to a successful and happy workforce. All colleagues have access to our free Employee Assistance Programme which offers help and advice on topics like health, legal, finance and lifestyle.

We take our colleagues' wellbeing very seriously and to support this, we launched a suite of Moments that Matter documents focusing on mental health, physical health, financial health and life changing events. These documents are aimed to help colleagues and managers recognise signs and symptoms of wellbeing concerns and where to find help and support.

We also run weekly virtual WorkFit fitness classes to help keep our colleagues healthy and moving during lockdown.

Investment Strategy

The fund's current investment strategy was approved by the Pensions Committee in December 2018. In order to provide suitable investment strategies for the differing requirements of employers, the fund operates four investment strategies. Most employer liabilities are funded under the Main Strategy, which adopts a long-term investment strategy, aiming to maximise the investment return within reasonable and considered risk parameters and minimise the cost to the employer.

The investment strategy is set at broad asset class or policy group levels, which are the key determinants of risk and return. These policy groups consist of Equities, Other Real Assets, Non-Gilt Debt, Gilts and Cash. The Main Strategy maintains significant exposure to real investments, such as Equities and Infrastructure, which have a history of protecting and growing purchasing power.

A small number of employers are funded in the Mature Employer Strategy, which invests in a portfolio of UK index-linked and nominal gilts to reduce funding level and contribution rate risk as they approach exit from the fund. The liabilities funded by the Mature Employer Strategy represent approximately 1% of total liabilities.

The 50/50 Strategy enables another small group of less mature employers to fund liabilities with a 50/50 mix of the Main Strategy and the Mature Employer Strategy. The liabilities funded by the 50/50 strategy represent a further 1% of total liabilities.

LOTHIAN PENSION FUND INVESTMENT STRATEGY

From 2019, membership includes that of the former Lothian Buses Pension Fund, which was merged with the main Lothian Pension Fund in January 2019. The Committee agreed that the Buses Strategy should be adjusted in line with the investment strategy that it had previously approved for the Lothian Buses Pension Fund. With a maturing liability profile, the strategy reduced the risk / return profile of the assets over a five-year period. As the estimated funding level improved more quickly than expected, risk reduction was achieved during 2019/20 by reducing the equity allocation from 51.5% to 35% and increasing the allocation to gilts and non-gilt debt. The Buses strategy was unchanged through 2020/21.

Following the results of the 2020 actuarial valuation, work is currently underway to review investment strategy.

The table below presents total fund strategy, which is the weighted average of the four employer strategies also shown.

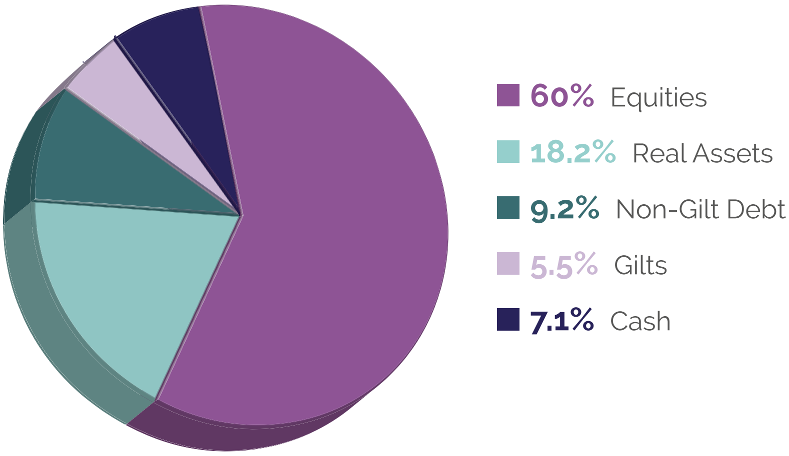
LOTHIAN PENSION FUND INVESTMENT STRATEGY

ACTUAL ASSET ALLOCATION TOTAL FUND STRATEGY 31 MARCH 2021



A key objective of the fund's investment strategy is to avoid unrewarded risk, and significant steps were taken more than seven years ago to achieve this. The current equity strategy evolved by shifting from a regional to a global manager structure with a significant proportion of assets managed internally. The intention was to create relative stability appropriate to a long-term pension fund. The current equity investment strategy has remained broadly unchanged for several years now and there were no significant changes over 2020/21.

Just under 90% of the fund's listed equities are managed internally, with the majority of this in low cost, low turnover strategies which are expected to enhance the fund's risk-adjusted returns over the long-term. The fund also hedges exposure to the currencies of overseas listed equities with the explicit aim of reducing volatility rather than seeking to generate improved returns. The fund therefore maintains exposure to currencies that are expected to reduce volatility, such as the US Dollar and Japanese Yen which tend to fall as equities rise, and hedge exposure to currencies that are expected to increase volatility, such as the Australian Dollar, which tends to rise as equities rise.

Over recent years, the fund's strategy has been to increase the actual allocation to the Real Asset policy group, which includes investments in property, infrastructure and timber funds and assets. The long term and defensive nature of most of these assets provides an element of diversification to the overall investment strategy and the objective is to provide attractive risk-adjusted returns that are expected to be somewhat lower than listed equities over the long term. Most of these investments are unlisted and increasing exposure is dependent on sourcing attractive opportunities. The fund's longstanding commitment to infrastructure investing has resulted in a large and diverse portfolio of real assets.

While the fund continues to make new commitments to infrastructure, the actual allocation to real assets has decreased somewhat this year from 22% to 18%. This reduction in weighting is predominantly as a result of an exceptional 27% gain in equities over the last twelve months against broadly flat performance from real assets. Almost 60% of this exposure is invested in infrastructure and approximately one third is invested in property. While the COVID-19 pandemic

LOTHIAN PENSION FUND INVESTMENT STRATEGY

has hit the property sector hard, the in-house team have worked proactively with tenants to agree rent holidays, deferments and other concessions to help manage the impact of the pandemic on assets and maximise long term tenant retention and income collection.

The Non-Gilt Debt allocation has been increasing modestly in recent years as the fund strives to improve diversification and secure returns in excess of gilt yields. The actual allocation was increased gradually over 2020/21 from 7.8% to 9.2% with additional investment in investment grade corporate bonds and a new allocation to US Treasury Inflation Protected Securities (TIPS). Given very low sovereign bond yields and historically low spreads in credit markets, the fund remains below the long-term strategic allocation.

The fund's allocation to Gilts declined over the year, from 5% to 4.2%, which, in common with the Non-Gilt Debt allocation, remains below its long-term strategy target, which is 7%. There were no significant changes over 2020/21. The UK government confirmed plans to align the RPI with the CPI from 2030, following a consultation with bondholders in which we took part. The fund retains exposure, as index-linked gilts provide some insurance against an unexpected rise in inflation and a return broadly in line with the fund's liabilities. However, having benefited from uncertainty following the EU referendum and subsequent Brexit, real yields and inflation expectations are comparatively low and high respectively in an international context. As a result, the fund added to diversification within the Non-Gilt Debt allocation instead.

Investment performance

The fund's performance over the last year and over longer-term timeframes is shown in the table below.

Annualised returns to 31 March 2021 (% per year)	1 year	5 years	10 years
Lothian Pension Fund	15.5	8.5	8.8
Benchmark*	24.0	11.8	9.4
Average Weekly Earnings (AWE)	4.1	2.7	2.1
Consumer Price Index (CPI)	0.7	1.8	1.7

**Comprises equity, 'gilts plus', gilts and cash indices*

LOTHIAN PENSION FUND INVESTMENT STRATEGY

ANNUALISED 5 YEARLY RETURNS ENDING 31 MARCH (% PER YEAR)

	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
Fund	4.7	3.6	7.1	12.7	9.5	9.1	12.9	10.3	10.9	6.8	8.5
Benchmark	3.0	2.1	5.7	13.0	8.8	7.1	11.4	9.3	10.1	7.1	11.8
Relative	1.7	1.5	1.4	-0.3	0.7	1.9	1.5	1.0	0.8	-0.3	-3.2

The investment objectives of the fund are to achieve a return on fund assets which is sufficient over the long term to meet the funding objectives as outlined in the Funding Strategy Statement.

In effect, the fund aims to generate adequate returns to pay promised pensions and to make the scheme affordable to employers now and in the future, while minimising the risk of having to increase contribution rates in the future. The fund aims to achieve a return in line with its strategic benchmark allocation, over the long term, with a lower-than-benchmark level of risk.

The fund return over the twelve months to March 2021 was very strong in absolute terms though notably weak relative to benchmark. This was broadly driven by equities where the global index (MSCI ACWI in GBP) gained 38.9% over the period. In-line with strategy, the fund's broadly lower risk equities increased at a lesser, but still robust, 26.8% over the period. This has significantly impacted the five-year figures. The fund's objective is to meet the strategic benchmark return over five and ten-year periods with lower risk. Given the recent negative relative returns, the fund is now 3.2% p.a. behind benchmark over five years (+8.5% vs +11.8%) and a more modest 0.6% p.a. behind over ten years. These returns have been achieved with lower levels of volatility (approximately 90% of benchmark risk).

It should be noted that the fund isn't expected to behave like the benchmark in the short term for two main reasons: portfolios aren't constructed to track the market capitalisation benchmarks, and private market benchmarks aren't readily available nor assets well suited to short term measurement. UK CPI and Average Weekly Earnings have grown at low and relatively stable rates for many years, although liability values have grown faster than asset values as interest rates have declined and remain exceptionally low.

LOTHIAN PENSION FUND INVESTMENT STRATEGY

The fund's focus on risk-adjusted returns and lower volatility has been broadly in place since 2013 involving a change in structure that included a greater focus on lower volatility equities. While this had broadly resulted in the fund behaving as expected, lagging the benchmark during strong markets and declining less through periods of weakness, market behaviour through the pandemic has been unusual and extreme.

With COVID-19 being the catalyst for notable market declines in early 2020, those stocks that had led the market in prior years also held up the best. While certain parts of the market saw their businesses essentially shut down overnight, many technology stocks were work-from-home winners and held up far better than the traditionally more defensive shares. These investments also lead the subsequent rally from the lows of March 2020 and, unsurprisingly, Lothian Pension Fund's low risk equities made lower gains. With the announcement of vaccines and a potential route back to "normality", the market strength has broadened in recent months. The Fund continues to adopt a diversified approach both across and within asset classes, though maintains an emphasis on lower volatility equities that we believe should serve us well over the long term.

The fund's independent performance measurement provider, Portfolio Evaluation, also reports that the fund's annualised ex-post risk has been lower than the strategic benchmark over the most recent five-year (7.7% vs 8.8%) and ten-year (7.2% vs 8.0%) periods.

COLLEAGUE PROFILE **Miko Zhou – Senior Investment Analyst**

Miko joined LPF in March 2020 as our Senior Investment Analyst. Miko conducts fundamental research on the fund's investments and identifies potential opportunities to help fund managers make investment decisions. Miko says:

"I enjoy delivering for our members by identifying opportunities to ensure that the long-term growth of the fund provides sufficient funding for benefits payment to our scheme members."

LOTHIAN PENSION FUND ACCOUNTS

The unaudited accounts were issued on 23 June 2021 and the audited accounts were authorised for issue on 27 September 2021.

John Burns FCMA CGMA, PgC
Chief Finance Officer,
Lothian Pension Fund

Notes to the net asset statement

The financial statements summarise the transactions of the Fund during the year and its net assets at the year end. They don't take account of the obligations to pay pensions and benefits which fall due after the end of the year. The actuarial position of the Fund, which does take account of such obligations, is discussed in the Actuarial Valuation section of this report and these financial statements should be read in conjunction with that information. In addition, as required by IAS26, the Actuarial Present Value of Promised Retirement Benefits is disclosed in the notes to these financial statements.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

1 Statement of Accounting Policies

The statement of accounting policies for all funds can be found on page 158.

2 Lothian Pension Fund Group

Basis of consolidation, presentation of financial statements and notes
Commencing with the year ended 31 March 2018, Consolidated Financial Statements have been prepared for Lothian Pension Fund. The Financial Statements of Scottish Homes Pension Fund continue to be prepared on a single entity basis.

The Consolidated Financial Statements for Lothian Pension Fund are prepared by combining the Financial Statements of the Fund (the parent entity) and its controlled entities (LPFE Limited and LPFI Limited) as defined in accounting standard IAS27 - Consolidated and Separate Financial Statements. Consistent accounting policies are employed in the preparation and presentation of the Consolidated Financial Statements. All inter-entity balances and transactions between entities, including any unrealised profits or losses, have been eliminated on consolidation.

Because the controlled entities activities are primarily focused on the provision of services to the Fund, its consolidation has a limited impact on the figures included in the Fund Account and Net Assets Statement of Lothian Pension Fund. An additional column has been added in both the Fund Account and Net Assets Statement, with the figures prior to consolidation being identified as "Parent" and after consolidation as "Group". In the notes to the accounts, where there is a difference between the parent and group figures they're identified as either "Parent " or "Group".

Notes	Description
27	Related party transactions and balances Describes transactions during the year and balances at year end which relate to the parent and the companies.
28a	Consolidated Lothian Pension Fund group - LPFE Limited - deferred tax Describes the deferred tax non-current asset of the Company. See 2 f) ii) in the Statement of Accounting Policies and General notes for more information.
28b	Consolidated Lothian Pension Fund group - LPFE Limited and LPFI Limited - share capital Describes the share capital of the Company.
29	Retirement benefits obligation - group Provides the information on the retirement benefits obligation of the Company as required under IAS19 - Employee Benefits. See 2 q) ii) in the Statement of Accounting Policies and General notes for more information.

Prior to the consolidation of the audited group accounts, the LPFE and LPFI boards met on 25 June 2021 to approve their respective audited financial statements for 2020/21. The figures used in the consolidation are from these audited financial statements.

LOTHIAN PENSION FUND NOTES TO THE FINANCIAL STATEMENTS

3 Events after the Reporting Date

Weslo Housing Management ("Weslo") transfer of engagements to Link Group Limited ("Link")

Owing to financial difficulties, Weslo Housing Management was placed in 'intervention status' by the Scottish Housing Regulator in 2019. Link Housing Association was selected as Weslo's preferred partner and following requisite ballot of its tenants, lender consents and stakeholder authorisations, a 'transfer of engagements' was effected on 1 June 2021. With the employer's membership of Lothian Pension Fund terminating concurrent with the transfer to Link, a bespoke commercial agreement between Link Housing Association and Lothian Pension Fund was proposed to address the accrued pension liabilities. Suitable provision has been made to reflect the cessation valuation by the Fund's Actuary, once this has been calculated. An oral update was provided by officers to the Pensions Committee on 17 March 2021. It (the Committee) acknowledged the balance of factors taken into consideration by the Fund to secure the best available outcome, and that the Executive Director of Resources and the Convener of the Pensions Committee would be consulted once the terms of the agreement were finalised.

On 15 April 2021, in accordance with delegated authority provisions, the Executive Director of Resources affirmed his support to the agreement "having reflected carefully upon the legal advice, the responses (by the Chief Executive Officer, Lothian Pension Fund, to questions from the Chair of the Pensions Board) and to the position in respect of the tenants supporting the move to Link" and "also (recognising) that this is an atypical funding agreement." This agreement between LPF and Link was duly signed, with an effective date of 7 May 2021.

LPFI Share Capital Issue

As part of the LPFI's ongoing compliance with the FCA rules, the fund is required to carry out an Internal Capital Adequacy Assessment Process (ICAAP) to determine its regulatory capital held from time to time. LPFI's process assessed that it was required to inject additional capital to retain the requisite surplus and so the fund financed an additional £100k of share capital for LPFI in June 2021 for that purpose. All of LPFI's regulatory capital is nevertheless retained in cash on deposit earning interest under the group's institutional cash investment programme.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

4 Contributions from employers

The total contributions receivable for the administering authority, other scheduled bodies and admitted bodies were as follows:

	2019/20	2020/21
By category	**£000**	**£000**
Primary Contribution (future service)	170,896	179,426
Secondary Contribution (past service deficit)	7,821	7,991
Strain costs	2,931	2,497
Cessation contributions	3,170	1,549
	184,818	**191,463**

	2019/20	2020/21
By employer type	**£000**	**£000**
Administering Authority	64,051	68,087
Other Scheduled Bodies	96,189	100,485
Community Admission Bodies	23,402	21,207
Transferee Admission Bodies	1,176	1,684
	184,818	**191,463**

Employer contributions, as calculated by the Fund Actuary, comprise two elements:

- An estimate of the cost of benefits accruing in the future, referred to as the "primary contribution rate" previously referred to as the "future service rate", which is expressed as a percentage of payroll and;
- an adjustment for the solvency of the Fund based on the benefits already accrued, known as the "secondary contribution rate". If there's a surplus, there may be a contribution reduction; if there's a deficit there may be a contribution increase. For all employers, contributions to cover any Past Service Deficit are expressed as a fixed monetary sum, rather than as a percentage of payroll and are payable on a monthly basis that is one twelfth of the annual total.

Where an employer makes certain decisions, which result in benefits being paid early, this results in a "strain" on the Fund. The resulting pension strain costs are calculated and recharged in full to that employer.

Any employer that ceases to have at least one actively contributing member is required to pay cessation contributions.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

5 Contributions from members

By employer type	2019/20 £000	2020/21 £000
Administering Authority	17,508	18,359
Other Scheduled Bodies	25,295	26,296
Community Admission Bodies	6,375	6,150
Transferee Admission Bodies	330	388

6 Transfers in from other pension schemes

	2019/20 £000	2020/21 £000
Group transfers	-	58,318
Individual transfers	6,036	3,990
	6,036	**62,308**

After the conclusion of year end processes, Hymans Robertson recalculated the final bulk transfer value for the Visit Scotland transfer. It was found that "true up" payments for the value of £1.5m were required to be paid to the fund. These were received in the 2021/22 financial year and haven't been included in the above figures. Further details on the transfer can be found on page 58-59.

7 Pensions payable

By employer type	2019/20 £000	2020/21 £000
Administering Authority	80,152	82,489
Other Scheduled Bodies	82,455	87,431
Community Admission Bodies	16,383	17,371
Transferee Admission Bodies	239	274
	179,229	**187,565**

Local Government (Discretionary Payments and Injury Benefits) (Scotland) Regulations 1998 [Section 31] allows employers to pay additional pensions on a voluntary basis.

As is typical within the Local Government Pension Schemes (LGPS), arrangements exist whereby additional teachers' pensions and employee pensions are paid with the payment of funded pensions. In order that such are not regarded as "unauthorised payments" by HMRC, these pension payments are met by the administering authority through a general fund bank account and recharged to the body or service which granted the benefits.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

As "unfunded payments" are discretionary benefits, they're not relevant to the sums disclosed in the Fund accounts. As such, Lothian Pension Fund provides payment and billing services to certain employers on a no charge agency agreement basis.

The Fund has requested that responsibility for these "unfunded transfer payments" should transfer to the Scottish Public Pension's Agency (SPPA). A response from SPPA is awaited.

LPFE, which is a wholly owned subsidiary of the Council, is responsible for providing the staffing resource to administer the pension funds. The Fund has a service level agreement in place with the Council for certain support services. Costs directly attributable to a specific fund are charged to the relevant fund, costs that are common to the twofunds are allocated on a defined basis.

COLLEAGUE PROFILE

Bruce Howieson - IT System manager

Bruce is one of our longest serving colleagues, having worked at LPF for 33 years. Bruce provides IT cover for the Fund and ensures that colleagues' IT needs are met to allow them to perform their roles. Bruce says:

"I like working at LPF as we have a great team of colleagues. As my role supports all departments, it provides me with different challenges and the opportunity to work with colleagues with a variety of different abilities and skills."

Equities	6,378	3,846	53	2,479
Pooled investment vehicles	17,104	14,005	2,945	243
Property	3,821	3,821	-	-
Cash and FX contacts	44	44	-	-

Investment costs directly attributable to a specific fund are charged to the relevant fund, costs that are common to all three funds are allocated based on the value of the funds as at the year end.

Any indirect costs incurred through the bid-offer spread on some pooled investment vehicles are reflected in the cost of investment acquisitions or in the proceeds of investment sales (see note 14 - Reconciliation of movements in investments and derivatives).

The external investment management fees (deducted from capital) above include £9.7m (£9.6m direct, £0.1m indirect) in respect of performance-related fees compared to £3.0m in 2019/20 (£2.9m direct, £0.1m indirect).

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

It should be noted that Lothian Pension Fund's disclosure on investment management fees exceed CIPFA's "Accounting for Local Government Pension Scheme Management Costs" revised guidance on cost transparency which came into effect from 1st April 2016. Consistent with previous years, the Fund recognises fees deducted from investments not within its direct control (such as fund of fund fees) to give a full picture of its investment management costs. Further details can be found in the "Investment management cost transparency" section of the Management Commentary.This further disclosure highlights an extra £1m in costs (2020 £1m).

11c Total management expenses

In accordance with CIPFA guidance, the analysis below considers the combined administration and investment management expenses in notes 11b and c and splits out the costs to include a third category covering oversight and governance expenditure.

	LPF Parent 2019/20	LPF Group 2019/20	LPF Parent 2020/21	LPF Group 2020/21
	£000	£000	£000	£000

Oversight and governance costs	2,665	2,747	2,830	3,636
	34,894	**34,697**	**41,358**	**43,857**

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

12 Investment income

	2019/20	2020/21
	£000	£000
Income from bonds	3,526	1,486
Dividends from equities	163,388	157,622
Unquoted private equity and infrastructure	40,419	48,952
Income from pooled investment vehicles	3,134	2,710
Gross rents from properties	23,914	21,207
Interest on cash deposits	2,213	282
Stock lending and sundries	577	537
	237,171	**232,796**
Irrecoverable withholding tax	(4,329)	(4,139)
	232,842	**228,657**

Included within the dividend from equities income for the year is cross border withholding tax yet to be received. The Fund's custodian Northern Trust manages this process and due to the high certainty of success it is assumed that the Fund will make full recovery of these reclaims. For the period of 2020/21 £5,684k of the stated income relates to tax yet to be received. At the 31st March 2021 £14,901k (including prior periods) of investment income receivable related to cross border withholding tax. The Fund monitors these claims to ensure its optimum tax efficiency and provides an annual progress report to the Pensions Audit Sub-Committee.

WHAT OUR MEMBERS SAY:

'I'm impressed by the efficient and friendly service. Thank you.'

Up to one month	GBP	AUD	59,450	106,867	454	-
One to six months	USD	CHF	3,920	3,459	171	-
Open forward currency contracts at 31 March 2021					625	-
Net forward currency contracts at 31 March 2021						625

Prior year comparative

Open forward currency contracts at 31 March 2020	15,228	(22)
Net forward currency contracts at 31 March 2020		15,206

The above table summarises the contracts held by maturity date; all contracts are traded on an over-the-counter basis.

In order to maintain appropriate diversification of investments in the portfolio and take advantage of wider opportunities, the Lothian Pension Fund invests over half of the fund in overseas markets. A currency hedging programme, using forward foreign exchange contracts, has been put in place to reduce the extent to which the Fund is exposed to certain currency movements.

Over the last two years no single investment represented more than 5% of the net assets of the Fund.

17 Securities lending

During the year Lothian Pension Fund participated in a securities lending arrangement with the Northern Trust Company. As at 31 March 2021, £118.8m (2020 £132.6m) of securities were released to third parties. Collateral valued at 104.7% (2020 107.0%) of the market value of the securities on loan was held at that date.

18 Property holdings

	2019/20 £000	2020/21 £000

NOTES TO THE FINANCIAL STATEMENTS

19 Financial Instruments

19a Classification of financial instruments

Accounting policies describe how different asset classes of financial instruments are measured, and how income and expenses, including fair value gains and losses, are recognised. The following table analyses the fair value amounts of financial assets and liabilities by category and net assets statement heading. No financial assets were reclassified during the accounting period.

All financial instruments are marked to market (at fair value) in the Fund accounting records, hence there's no difference between the carrying value and fair value.

Classification of financial instruments - parent	31 March 2020			31 March 2021

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

19c Fair Value Hierarchy

The valuation of financial instruments has been classified into three levels, according to the quality and reliability of information used to determine fair values.

Level 1
Financial instruments at Level 1 are those where the fair values are derived from unadjusted quoted prices in active markets for identical assets or liabilities. Products classified as level 1 comprise quoted equities and unit trusts.

Quoted investments are shown at bid prices. The bid value of the investment is based on the bid market quotation of the relevant stock exchange.

Level 2
Financial instruments at Level 2 are those where quoted market prices aren't available; for example, where an instrument is traded in a market that isn't considered to be active, or where valuation techniques are used to determine fair value and where these techniques use inputs that are based significantly on observable market data.

Level 3
Financial instruments at Level 3 are those where at least one input that could have a significant effect on the instrument's valuation isn't based on observable market data. Such instruments would include unquoted equity investments, which are valued using various valuation techniques that require significant judgement in determining appropriate assumptions.

The values of the investments in unquoted private equity, infrastructure, timber and European real estate are based on valuations provided by the general partners to the funds in which the Fund has invested.

These valuations are prepared in accordance with the International Private Equity and Venture Capital Valuation Guidelines or similar guidelines provided by the British Venture Capital Association, which follow the valuation principles of International Financial Reporting Standards (IFRS). The valuations are typically undertaken annually at the end of December. Cash flow adjustments are used to roll forward the valuations to 31 March as appropriate.

LOTHIAN PENSION FUND NOTES TO THE FINANCIAL STATEMENTS

20 Nature and extent of risk arising from financial instruments

Risk and risk management

The Fund's primary aim is to ensure that all members and their dependants receive their benefits when they become payable. The Main investment strategy aims to maximise the returns from investments within reasonable risk parameters and hence minimise the long-term cost to employers. It achieves this by investing in a diverse range of assets to reduce risk to an acceptable level. In addition, the Fund ensures that sufficient cash is available to meet all liabilities when they are due to be paid.

Responsibility for the Fund's overall investment strategies rests with the Pensions Committee. The Joint Investment Strategy Panel and the internal investment team monitor investment risks on a regular basis. Investment risk management tools are used to identify and analyse risks faced by the Fund's investments.

Consideration of the Fund's investment risk is part of the overall risk management of the pensions operations. Risks are reviewed regularly to reflect changes in activity and market conditions.

Types of investment risk

There are various ways of considering investment risks for pension funds. For the purposes of this note, market risk is the potential for an investor to experience losses from falls in the prices of investments. All financial instruments, including cash deposits, present a risk of loss of capital and risks vary depending on different asset classes.

Market risk also changes over time as economic conditions and investor sentiment change. The Fund considers overall fluctuations in prices arising from a variety of sources: market risk, foreign exchange risk, interest rate risk, credit risk, etc. The different risks may, to some extent, offset each other.

The overall market risk of the fund depends on the actual mix of assets and encompasses all the different elements of risk.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

20 Nature and extent of risk arising from financial instruments (cont)

The Fund manages these risks in a number of ways:

- Assessing and establishing acceptable levels of market risk when setting overall investment strategy. Importantly, risk is considered relative to the liabilities of the Fund
- Diversification of investments in terms of type of asset, investment styles, investment managers, geographical and industry sectors as well as individual securities
- Taking stewardship responsibilities seriously and pursuing constructive engagement with the companies in which we invest
- Monitoring market risk and market conditions to ensure risk remains within tolerable levels
- Using equity futures contracts from time to time to manage market risk. Options are not used by the Fund.

Sensitivity analysis

Asset prices have a tendency to fluctuate. The degree of such fluctuation is known as "volatility" and it differs by asset class. The table sets out the long-term volatility assumptions used in the Fund's asset-liability modelling undertaken by Isio investment advisers:

Asset type	Potential price movement (+ or -)
Equities - Developed Markets	20.5%
Equities - Emerging Markets	28.0%
Private Equity	30.0%
Timber and Gold	18.0%
Secured Loans	10.5%
Fixed Interest Gilts	8.1%
Index-Linked Gilts	11.5%
Infrastructure	12.0%
Property	13.0%
Cash	1.0%

Volatility is the standard deviation of annual returns. Broadly speaking, in two years out of three, the asset's change in value (which could be a gain or a loss) is expected to be lower than the volatility figure, but in one year out of three, the change in value is expected to be higher than the volatility figure.

Asset classes do not always move in line with each other. The extent to which assets move together is known as their "correlation". A lower correlation means that there is less risk of assets losing value at the same time.

The overall Fund benefits from "diversification" because it invests in different asset classes, which don't all move in line with each other. Consequently, the aggregate risk at the Fund level is less than the total risk from all the individual assets in which the Fund invests. The following table shows the risks at the asset class level and the overall Fund level, with and without allowance for correlation.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

20 Nature and extent of risk arising from financial instruments (cont)

	Value at 31 March 2021	% of fund	Potential Change +/-	Value on increase	Value on decrease
	£m	%	%	£m	£m
Equities - Developed Markets	4,606	53.6	20.5%	5,550.2	3,661.8
Equities - Emerging Markets	406	4.7	28.0%	519.7	292.3
Private Equity	148	1.7	30.0%	192.4	103.6
Timber and Gold	119	1.4	18.0%	140.4	97.6
Secured Loan	470	5.5	10.5	519.4	420.7
Fixed Interest Gilts	93	1.1	8.1	100.5	85.5
Index-Linked Gilts	613	7.1	11.5	683.5	542.5
Infrastructure	892	10.4	12.0%	999.0	785.0
Property	551	6.4	13.0%	622.6	479.4
Cash and forward foreign exchange	699	8.1	1.0	706.0	692.0
Total [1]	**8,597**	**100.0**	**16.7%**	**10,033.8**	**7,160.2**
Total [2]			**13.0%**	**9,716.3**	**7,477.7**
Total [3]			**13.7%**	**9,776.5**	**n/a**

[1] No allowance for correlations between assets
[2] Including allowance for correlations between assets
[3] Including allowance for correlation between assets and liabilities.

The value on increase/decrease columns illustrate the monetary effect of the percentage change in the volatility column. The actual annual change in value is expected to be lower than this in two years out of three, but higher in one year out of three.

It can be seen that the risk to the overall Fund assets [2] is lower than the total of the risks to the individual assets.

However, because the purpose of a pension scheme is to make payments to scheme beneficiaries, the true risk of a pension scheme is not measured in absolute terms, but relative to its liabilities [3].

This risk analysis incorporates volatility from market, interest rate, foreign exchange, credit, and all other sources of risk, and, importantly, makes allowance for how these risks may offset each other.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

20 Nature and extent of risk arising from financial instruments (cont)

Credit risk

Credit risk represents the risk that the counterparty to a transaction or a financial instrument will fail to discharge an obligation and cause the Fund to incur a financial loss. The market values of investments generally reflect an assessment of credit risk in their pricing and consequently the risk of loss is implicitly provided for in the value of the Fund's assets and liabilities (as outlined in Market Risk above).

In essence, the Fund's entire investment portfolio is exposed to some sort of credit risk. However, through the selection of counterparties, brokers and financial institutions the Fund reduces the credit risk that may occur through the failure to settle a transaction in a timely manner.

Cash deposits, derivatives and securities lending are the major areas of credit exposure where credit risk is not reflected in market prices.

Cash deposits

At 31 March 2021, cash deposits represented £1009m, 11.60% of total net assets. This was held with the following institutions:

	Moody's Credit Rating at 31 March 2021	Balances at 31 March 2020	Balances at 31 March 2021
Held for investment purposes		**£000**	**£000**
Northern Trust Global Investment Limited - liquidity funds	Aaa-mf	88,569	180,045
Northern Trust Company - cash deposits	Aa3	238,706	612,447
UK Short-Term Bills and Notes	Aa3	218,968	-
The City of Edinburgh Council - treasury management	See below	135,229	135,111
Total investment cash		**681,472**	**927,603**
Held for other purposes			
The City of Edinburgh Council - treasury management	See below	38,168	80,021
JLL in-house property cash (Barclays)	A1	-	5,847
Total cash - parent		**719,640**	**1,013,471**
Cash held by LPFE/LPFI Limited			
Royal Bank of Scotland	A1	870	901
Total cash - group		**720,510**	**1,014,372**

The majority of Sterling cash deposits of the Fund are managed along with those of the administering authority (the City of Edinburgh Council) and other related organisations which are pooled for investment purposes as a treasury cash fund. Management of the cash fund is on a low risk basis, with security of the investments the key consideration.

UK Pseudo-Sovereign risk instruments			
Other Local Authorities [1]	Aa3	93,628	75,377
		173,397	**215,132**

[1] Very few Local Authorities have their own credit rating, but they're generally assumed to have a pseudo-sovereign credit rating (which in the UK at 31 March 2021 was 'Aa3').

The Council has in place institutional restrictions on investments and counterparty criteria. These include:

(a) UK Government and other UK local Authorities with no limit, other public bodies up to £20 million per organisation.
(b) Money market funds (MMFs) no more than £30 million or 15% with any one Fund.
(c) Financial Institutions: Banks and Building Societies with multiple criteria based on a range of short and long term credit ratings, as well as any security, provided from maximum of £60 million / 20% of assets under management (AUM) for institutions with the highest criteria to £10 million / 5% of AUM for institutions with the lowest acceptable criteria.

No breaches of the Council's counterparty criteria occurred during the reporting period and the Fund does not expect any losses from non-performance by any of its counterparties in relation to deposits.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

20 Nature and extent of risk arising from financial instruments (cont)

Securities lending
The Fund participates in a securities lending programme as described above. The Fund is potentially exposed to credit risk in the event of the borrower of securities defaulting. This risk is mitigated by the contractual commitment that borrowers provide collateral in excess of 100% of the value of the securities borrowed. In addition, Northern Trust has signed an agreement requiring it to make good any losses arising from the lending programme.

Derivatives
The Fund transacts foreign currency derivatives over-the-counter and hence is exposed to credit risk in the event of a counterparty defaulting on the net payment or receipt that remains outstanding. This risk is minimised by the use of counterparties that are recognised financial intermediaries with acceptable credit ratings and by netting agreements. At 31 March 2021, the Fund was owed £625k on over-the-counter foreign currency derivatives.

Refinancing risk
Refinancing risk is the risk that the Fund will be bound to replenish a significant proportion of its pension fund financial instruments at a time of unfavourable interest rates. The Fund is not bound by any obligation to replenish its investments and hence is not exposed to refinancing risk.

Liquidity risk
Liquidity risk reflects the risk that the Fund will not be able to meet its financial obligations as they fall due. The Fund therefore ensures that there's adequate cash and liquid resources to meet its commitments. Cash flow projections are prepared on a regular basis to understand and manage the timing of the Fund's cash flows.

The majority (estimated to be approximately 80% (2020 76%)) of the Fund's investments could be converted to cash within three months in a normal trading environment.

21 Actuarial statement

The Scheme Actuary has provided a statement describing the funding arrangements of the Fund. This can be found at the end of this section.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

22 Actuarial present value of promised retirement benefits

The actuarial value of promised retirement benefits at the accounting date, calculated in line with International Accounting Standard 19 (IAS19) assumptions, is estimated to be £10,374m (2020 £8,774m). This figure is used for statutory accounting purposes by Lothian Pension Fund and complies with the requirements of IAS26. The assumptions underlying the figure match those adopted for the Administering Authority's FRS102/IAS19 reports at each year end.

The figure is only prepared for the purposes of IAS26 and has no validity in other circumstances. In particular, it isn't relevant for calculations undertaken for funding purposes and setting contributions payable to the Fund.

	31 March 2020	31 March 2021
	% p.a.	% p.a.
Inflation / pensions increase rate	1.9	2.9
Salary increase rate	3.5	3.4
Discount rate	2.3	2.0

Longevity assumptions

Life expectancy is based on the Fund's VitaCurves with improvements in line with the CMI 2020 model, with a 0% weighting of 2020 data, standard smoothing (Sk7), initial adjustment of 0.5% and a long term rate of improvement of 1.5% per annum. Based on these assumptions, the average future life expectancies at age 65 are summarised below:

	31 March 2020		31 March 2021	
	Male	Female	Male	Female
Current pensioners	21.7 years	24.3 years	20.5 years	23.3 years
Future pensioners (assumed to be currently 45)	24.7 years	27.5 years	21.9 years	25.2 years

Commutation assumption

An allowance is included for future retirements to elect to take 50% of the maximum additional tax-free cash up to HMRC limits for pre-April 2009 service and 75% of the maximum tax-free cash for post-April 2009 service.

26 Additional Voluntary Contributions

Active members of the Lothian Pension Fund have the option to pay additional voluntary contributions (AVCs). These AVCs are invested separately from the main funds, securing additional benefits on a money purchase basis for those members that have elected to contribute. The investment of the AVCs is managed by Standard Life and Prudential.

In accordance with regulation 4 (2) (b) of the Local Government Pension Scheme (Management and Investment of Funds) (Scotland) Regulations 2010, AVCs are not included in the pension fund financial statements.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

27 Related parties
The City of Edinburgh Council

The Lothian Pension Fund and the Scottish Homes Pension Fund are administered by the City of Edinburgh Council. Consequently, there's a strong relationship between the Council and the Pension Funds.

LPFE, which is a wholly owned subsidiary of the Council, is responsible for providing the staffing resource to administer the pension funds. The Fund has a service level agreement in place with the Council for certain support services. Costs directly attributable to a specific Fund are charged to the relevant Fund, costs that are common to the two Funds are allocated on a defined basis.

Transactions between the Council and the Fund are managed via a holding account. Each month the Fund is paid a cash sum leaving a working balance in the account to cover the month's pension payroll costs and other expected costs.

Heriot-Watt University	3,205	3,446
Scottish Police Authority	2,802	3,395
Edinburgh College	2,621	2,694

Governance

As at 31 March 2021, all members of the Pensions Committee, with the exception of Richard Lamont, and all members of the Pension Board were members of the Lothian Pension Fund. One member of both the Pensions Committee and the Pension Board are in receipt of pension benefits from Lothian Pension Fund.

Each member of the Pensions Committee and Pension Board is required to declare any financial and non-financial interests they have in the items of business for consideration at each meeting, identifying the relevant agenda item and the nature of their interest.

During the period from 1 April 2020 to the date of issuing of these accounts, a number of employees of the City of Edinburgh Council and its wholly owned subsidiary, LPFE Limited, held key positions in the financial management of the Lothian Pension Fund. Total compensation paid in relation to key management personnel employed by LPFE Limited during the period was as follows:

	31 March 2020	31 March 2021
	£000	£000
Short-term employee benefits	757	864
Post-employment benefits - employer pension contributions	140	189

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

27 Related parties (cont)

Key management personnel employed by LPFE had accrued pensions totalling £119,873 (1 April 2020: £106,596 and lump sums totalling £126,989 (1 April 2020: £121,925) at the end of the period. Further details on senior management remuneration can be found within the remuneration report on page 190.

Remuneration of key management personnel employed by City of Edinburgh Council is disclosed separately in the Financial Statements of City of Edinburgh Council.

The Councillors, who are members of the Pensions Committee, are also remunerated by City of Edinburgh Council.

LPFE Limited & LPFI Limited- loan facility

LPFE and LPFI Limited are wholly owned by the City of Edinburgh Council as administrating authority of Lothian Pension Fund and have entered into a shareholder agreement with the Council to address governance matters. The companies have a loan facility agreement with the City of Edinburgh Council for the purpose of the provision of short-term working capital. The current agreement covers the period to 1 May 2023 and provides that interest is payable at 2% above the Royal Bank of Scotland base lending rate on the daily balance. In order to minimise the amount of interest payable, the companies return any cash not immediately required and this can result in short periods when the companies have returned more cash than has been drawn. On such days the loan interest is negative, reducing the amount of interest payable.

Interest payable by LPFE Limited during the period was £1882 of which £747 was due at the year end and for LPFI Limited there was minimal interest payable for the year. At 31 March 2021, there was zero balance on the loan facilities for both LPFE Limited and LPFI Limited.

LPFE Limited - staffing services

Staffing services are provided to Lothian Pension Fund for the purposes of administering the funds under a intra-group resourcing agreement. The agreement also provides for the running costs of the company to be covered as part of a service charge and allows for the provision of staffing services to LPFI Limited. During the year to 31 March 2021, the Fund was invoiced £5,031k (2020 £4,239k) for the services of LPFE Limited staff.

**One ordinary share of £1 was issued to Lothian Pension Fund at par value on incorporation. Due to the low value this does not show on the Net Assets Statement.*

As part of the LPFI's FCA permissions extension, the Fund is required to meet new ICAAP capital requirements based on the value of assets under management. The Fund financed an additional £530k of share capital for LPFI in March 2020 to meet this requirement.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

29 Retirement benefits obligation - group

The retirement benefit obligation described in this note relates only to the employees of LPFE. This is because obligation in respect of the staff employed by the City of Edinburgh Council is accounted for in the Financial Statements of the Council.

On 1 May 2015, LPFE commenced trading and its staff transferred their employment from the City of Edinburgh Council to the Company on that date. At that time, the Company also entered into appropriate admission arrangements with the City of Edinburgh Council with respect to the transferring individuals continuing to be members of the Lothian Pension Fund and in relation to its obligations as an employer in that Fund.

The present value of the defined benefit obligation and related current and past service cost were measured using the Projected Unit Credit Method.

Fund assets

LPFE's share of the fair value of the Fund's assets which are not intended to be realised in the short term and may be subject to significant change before they are realised, was comprised as follows:

		Fair value at 31 March 2020	% of total 31 March 2020	Fair value at 31 March 2021	% of total 31 March 2021

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

29 Retirement benefits obligation - group (cont)

Principal actuarial assumptions used in this valuation	**31 March 2020**	**31 March 2021**
	% p.a.	**% p.a.**
Inflation / pensions increase rate	1.8	2.8
Salary increase rate	3.4	3.3
Discount rate	**2.3**	**2.1**

The assumptions used by the actuary are the best estimates chosen from a range of possible actuarial assumptions which, due to the timescale covered, may not necessarily be borne out in practice. Best estimate has been interpreted to mean that the proposed assumptions are 'neutral' – there is an equal chance of actual experience being better or worse than the assumptions proposed.

The financial assumptions used for reporting in the financial statements are the responsibility of the employer. These assumptions are largely prescribed at any point and reflect market conditions at the reporting date. Changes in market conditions that result in changes in the net discount rate can have a significant effect on the value of the liabilities reported.

A reduction in the net discount rate will increase the assessed value of liabilities as a higher value is placed on benefits paid in the future. A rise in the net discount rate will have an opposite effect of a similar magnitude. There is also uncertainty around life expectancy of the UK population – the value of current and future pension benefits will depend on how long they are assumed to be in payment.

Life expectancy is based on the Fund's VitaCurves with improvements in line with the CMI 2020 model, with a 0% weighting of 2020 data, standard smoothing (Sk7), initial adjustment of 0.5% and a long-term rate of improvement of 1.5% p.a.

Based on these assumptions, the average future life expectancies at age 65 are summarised below:

	31 March 2020		**31 March 2021**	
	Male	**Female**	**Male**	**Female**
Current pensioners	21.7 years	24.3 years	20.5 years	23.3 years
Future pensioners	24.7 years	27.5 years	21.9 years	25.2 years

Expected employer contributions to the defined benefit plan for the year ended 31 March 2021 are £616k, based on a pensionable payroll cost of £3,406k.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

30 Contractual commitments

Investment commitments

The Fund has commitments relating to outstanding call payments due on unquoted funds held in the private equity, timber, property and infrastructure parts of the portfolio. The amounts 'called' by these funds are irregular in both size and timing, taking place over a number of years from the date of each original commitment. The outstanding commitments at the year end are as follows:

	31 March 2020	31 March 2021
	£000	£000
Outstanding investment commitment	301,002	264,448
	301,002	**264,448**

Office accommodation - 144 Morrison Street, Edinburgh

The Fund is committed to making the following future payments.

	31 March 2020	31 March 2021
	£000	£000
Within one year	124	118
Between one and five years	373	355
After five years	566	429
	1,063	**902**
Recognised as an expense during the year	**105**	**88**

The Fund is overdue a review on its rent agreement, the above expense including a provision for a backdated rental increase. This expense has been allocated across the two Funds, with Lothian Pension Fund's share being £86k.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

31 Contingent assets and liabilities

Contribution refunds

At 31st March 2021, Lothian Pension Fund had £1,484k (2020: £914k) in unclaimed refunds due to members.

Co-investment deal abort costs

At 31 March 2021 the Fund had entered into negotiations for a timber co-investment in which it is exposed to the potential risk of investment abort costs. Lothian Pension Fund's exposure to this is approximately £375.3k.

Employer Cessations

As stated in note 24, "In accordance with the Funding Strategy Statement and in recognition of severe affordability constraints facing the charitable sector, "Funding Agreements" have been put in place with certain former employers to repay cessation valuation debt". In exceptional circumstances, this includes "repayment of less than the cessation debt in order to avoid employer insolvency, with an appropriate agreement which allows the Fund to revisit the repayment of the remaining debt at a future date (i.e. the debt would be a contingent liability and hence not recognised on an employer's balance sheet); and seeking, where appropriate, suitable "anti-embarrassment" provisions in legal agreement covering future increase in employer asset values". At 31 March 2021, such contingent assets of the Fund totalled £2,386k and the Fund has secured second ranking security over two employer property assets.

EU Tax claims & income recovery

The Fund participates in various claims to recover withheld investment income. EU tax claims relate to the recovery of tax deducted from dividend payments prior to receipt or payable tax credits thereon. The claims can be divided into three main types – "Manninen" / Foreign Income Dividends (Fids), "Fokus Bank" and Manufactured Dividends. Given the high level of uncertainty as to the eventual success of such claims from EU tax authorities, no accrual of income is made in the financial statements. The value of these outstanding claims is approximately £12.5m. To date, the amount of tax recovered exceeds the cost of pursuing claims. Legal costs are shared across a pool of claimants and the Fund has the right to cease participation without incurring further costs. An annual progress report is provided to Pensions Audit Sub-Committee.

LOTHIAN PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

31 Contingent assets and liabilities (cont)

Variable pay arrangements

In 2018/19 the company introduced three variable pay schemes, two of which have vesting periods. The Portfolio Manager and Senior Management schemes entitle eligible colleagues to receive an assessed percentage of their salary as an additional variable pay award if they meet certain objectives during the year. The assessment year runs from 1 January to 31 December with the award then vesting over three years. The first part is payable at the end of the first year if the objectives are met and the remaining two parts are payable in the following two years if the requirement that the employee is still employed by the company at such time is met. Payment one for the 2020/21 year, payment two for the 2019/20 year and payment three for the 2018/19 year were made in January 2021. A liability has been raised at 31 March 2021 for the 2 months of service for the second and third instalment of 2020/21 and third instalment of 2019/20 which the employees have delivered with regards to the second and third payments in the scheme.

In the event that all the staff involved in the arrangements at 31 December 2020 remain in the company's employment there is a contingent liability of £408,036 in excess of the current and non-current liabilities, as recognised in these financial statements in accordance with IAS19. This amount would be payable over two years.

Rectification of age discrimination - McCloud and Sargeant judgements

When public service pension schemes were reformed following the Public Service Pensions Act 2013, protections for older scheme members were introduced. In December 2018, the Court of Appeal ruled that the transitional protections included in the Judges' ("McCloud") and Firefighters' ("Sargeant") pension schemes constituted unlawful age discrimination. Following this, in July 2019 a Written Ministerial Statement confirmed that the UK Government believed that the ruling applied to all the main public service pension schemes and that the discrimination would be addressed in all the relevant schemes, including Local Government Pension Scheme (LGPS) in Scotland.

On 4 August 2020, the Scottish Public Pensions Agency (SPPA) issued a statutory consultation on the proposed remedy, with this closing in October 2020. As anticipated, it is proposed that a comparison will be made between the benefits payable under the current rules with the entitlements which would have been paid if the Scheme had not changed in 2015, and with any higher sum being paid to the member. This protection will apply automatically and members who meet the qualifying criteria won't need to take any action. Many members benefits won't change or will only see a small increase because of low salary growth since the new scheme was introduced. As the changes will be backdated to April 2015 and apply to qualifying members who left the LGPS after that date, implementation of the remedy is expected to be extremely challenging from both administration and communications perspectives. SPPA has not yet published its formal response to its consultation.

LOTHIAN PENSION FUND NOTES TO THE FINANCIAL STATEMENTS

31 Contingent assets and liabilities (cont)

In March 2021, SPPA advised administering authorities that rectification regulations should come into force in April 2023 (one year later than anticipated).

The Fund's IAS26 reporting from its actuary, as disclosed in Note 14, takes into account the appeal decision and the proposed remedy.

GMP Equalisation - Lloyds ruling on historic transfers
On 20 November the High Court ruled on the equalisation for GMPs of historic transfers out of the three largest Lloyds Banking Group pension schemes. The judgement requires all transfers with 17 May 1990 - 5 April 1997 GMPs to be equalised, even if they were taken as long ago as 1990. Schemes will be expected to pay a top-up to receiving scheme with interest at Bank base rate +1%. There are limited exceptions that do not require a top-up, but it is not obvious within the judgement that there is to be any blanket exception on the application of this ruling to public sector schemes.

It is not yet clear what impact this will have for the LGPS and the Fund is awaiting further guidance before taking any further action.

Weslo Housing Management ("Weslo") Transfer of engagements to Link Group Limited ("Link")
Link Housing Association has advised the Fund that the formation of Weslo Housing Management arose partially from a stock transfer, in 1994, from the then Scottish Homes governmental agency. Its interpretation of relevant Weslo archives is that there is potential that a guarantee or indemnity for the pension liabilities of transferred employees may pertain from the Scottish Government. Accordingly, it has approached the Scottish Government and a definitive legal opinion is awaited as to whether a proportion of the pension liabilities of Weslo Housing Management should be transferred from Lothian Pension Fund and be met by Scottish Homes Pension Fund. Lothian Pension Fund has no evidence within its own records to support such transfer. Should, the Scottish Government accept such historic guarantee, however, then the contributions payable by Link to Lothian Pension Fund would be reduced proportionately and transfer to Scottish Homes Pension Fund effected.

32 Impairment losses

	2019/20	2020/21
	£000	£000
Bad Debt provision	166	54

During the year the Fund recognised an decrease in impairment losses in respect of specific benefit over payments for which reimbursement has been requested of £112k. This decreased the impairment to £54k at the year end.

LOTHIAN PENSION FUND ("THE FUND") ACTUARIAL STATEMENT FOR 2020/21

This statement has been prepared in accordance with Regulation 55(1)(d) of the Local Government Pension Scheme (Scotland) Regulations 2018. It has been prepared at the request of the Administering Authority of the Fund for the purpose of complying with the aforementioned regulation.

Description of Funding Policy

The funding policy is set out in the Administering Authority's Funding Strategy Statement (FSS), dated March 2021. In summary, the key funding principles are as follows:

- to ensure the long-term solvency of the overall Fund
- to ensure the solvency of each individual employers' share of the Fund based on their expected term of participation in the Fund
- to minimise the degree of short-term change in employer contribution rates
- maximise the returns from investments within reasonable and considered risk parameters, and hence minimise the cost to the employer
- to ensure that sufficient cash is available to meet all liabilities as they fall due for payment
- to help employers manage their pension liabilities
- where practical and cost effective, to make allowance for the different characteristics of different employers and groups of employers.

The FSS sets out how the Administering Authority seeks to balance the conflicting aims of securing the solvency of the Fund and keeping employer contributions stable. For employers whose covenant was considered by the Administering Authority to be sufficiently strong, contributions have been stabilised to have a sufficiently high likelihood of achieving the funding target over 20 years. Asset-liability modelling has been carried out which demonstrates that if these contribution rates are paid and future contribution changes are constrained as set out in the FSS, there is at least a 67% chance that the Fund will be fully funded after 20 years.

Funding Position as at the last formal funding valuation

The most recent actuarial valuation carried out under Regulation 60 of the Local Government Pension Scheme (Scotland) Regulations 2018 was as at 31 March 2020. This valuation revealed that the Fund's assets, which at 31 March 2020 were valued at £7,479 million, were sufficient to meet 106% of the liabilities (i.e. the present value of promised retirement benefits) accrued up to that date. The resulting surplus at the 2020 valuation was £408 million. For the avoidance of doubt, these results are based on the assumptions that apply to the Fund's Primary investment strategy. Each employer had contribution requirements set at the valuation, with the aim of achieving full funding within a time horizon and probability measure as per the FSS. Individual employers' contributions for the period 1 April 2021 to 31 March 2024 were set in accordance with the Fund's funding policy as outlined in its FSS.

Principal Actuarial Assumptions and Method used to value the liabilities

Full details of the methods and assumptions used are described in the 2020 valuation report.

LOTHIAN PENSION FUND ("THE FUND") ACTUARIAL STATEMENT FOR 2020/21

Method

The liabilities were assessed using an accrued benefits method which takes into account pensionable membership up to the valuation date, and makes an allowance for expected future salary growth and inflation to retirement or expected earlier date of leaving pensionable membership.

Assumptions

A market-related approach was taken to valuing the liabilities, for consistency with the valuation of the Fund assets at their market value.

The key financial assumptions adopted under the Primary investment strategy for the 2020 valuation were as follows:

	31 March 2020
Financial assumptions	**% p.a.**
Discount rate	3.00%
Salary increase assumption	2.45%
Benefit increase assumption (CPI)	1.95%

The key demographic assumption was the allowance made for longevity. The life expectancy assumption was based on the Fund's Vita Curves alongside future improvements based on the CMI 2019 model with an allowance for smoothing of recent mortality experience and a long term rate of improvement of 1.5% p.a. Based on these assumptions, the average future life expectancies at age 65 are as follows:

	Male	Female
Current Pensioners	20.5 years	23.3 years
Future Pensioners *	22.0 years	25.2 years

**Currently aged 45*

Copies of the 2020 valuation report and Funding Strategy Statement are available on the Fund's website.

Experience over the period since 31 March 2020

Markets were severely disrupted by COVID-19 at the 31 March 2020 funding valuation date, resulting in depressed asset values but have recovered strongly in 2020/21. Although the value placed on the liabiliities will also have increased due to changes in underlying market conditions, the funding level of the Fund as at 31 March 2021 is likely to be significantly improved compared to that reported as at 31 March 2020.

The next actuarial valuation will be carried out as at 31 March 2023. The Funding Strategy Statement will also be reviewed at that time.

SCOTTISH HOMES PENSION FUND INVESTMENT STRATEGY

Investment strategy

The Fund's actuary completed his triennial valuation during the year with a reassessment of financial and demographic estimates based on the latest three years of experience. He estimated that the funding level of the Scottish Homes Pension Fund was 117.7% at 31 March 2020, an improvement from the prior estimate of 104.7% at 31 March 2017. The fund has, therefore, maintained its full funding objective ahead of the target originally agreed by the Scottish Government and the City of Edinburgh Council.

The fund is closed to new entrants and relatively mature, and given the actuary's estimate of full funding, it is able to minimise investment shortfall risk of assets relative to liabilities as guided by the Scottish Government. There has, therefore, been no change to the objective approved by the Pensions Committee in June 2018: "To match the cash flow from gilt income and redemption payments as closely as possible with the expected liability payments of the fund."

There was no change to the fund's strategic allocation of 100% to bonds in the year to 31 March 2021, and the fund invests solely in cash and bonds, specifically UK gilts, which move proportionately with liability values. The strategic and actual asset allocations for the fund at the end of the 2020 and 2021 financial years are shown in the table below.

Asset Class	Strategic Allocation	Actual Allocation	Strategic Allocation	Actual Allocation
	31 March 2020	31 March 2020	31 March 2021	31 March 2021
	%	%	%	%
Equities	-	-	-	-
Bonds	100	99	100	90
Property	-	-	-	-
Cash	-	1	-	10
Total	**100**	**100**	**100**	**100**

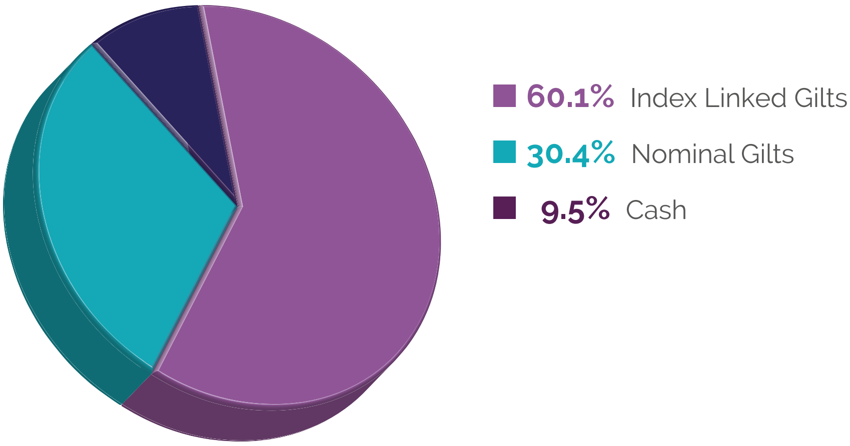
To ensure that invested assets are as closely matched with the liability profile as possible, the investment manager takes into consideration the expected duration of liabilities and whether they're fixed or index-linked in nature. The fund's strategy is to match the cash flows of liabilities one year beyond the date of the next valuation and to match the duration of liabilities beyond that. This is because of the greater visibility of pension payments in the near term.

SCOTTISH HOMES PENSION FUND INVESTMENT STRATEGY

Over the longer term, funding levels are subject to the actuary's financial and demographic assumptions of future experience, which are re-examined every three years. Some rebalancing of the fund's assets will be undertaken early in the new financial year to ensure that liabilities are cash flow matched until 2024.

The actual asset allocation of the fund is shown in the pie chart below:

ACTUAL ASSET ALLOCATION 31 MARCH 2021



Investment movements

As the Scottish Homes Pension Fund is relatively mature, it uses the proceeds of gilt coupons and redemptions to pay pensions. Cash or cash equivalents are held to enable pensions to be paid between the dates when gilts redeem. Being fully funded, the fund typically invests excess cash in short-dated bills and gilts. To avoid paying interest or taking undue interest rate risk on negative yielding assets, the fund increased the proportion of cash over the year. The cash balance at end March 2021 was equivalent to approximately two years' pension payments.

The fund's assets have decreased in value by 2.0% over the year, adjusted for cash flow movements to pay pensions, as gilt prices fell in anticipation of higher economic growth and rising inflationary pressures.

SCOTTISH HOMES PENSION FUND ACCOUNT FOR YEAR ENDED 31 MARCH 2021

This statement shows a summary of the income and expenditure that the fund has generated and consumed in delivering the Local Government Pension Scheme. Included is the income from investment dealings and as well as the cost of providing benefits and administration of the Fund.

John Burns FCMA CGMA, PgC
Chief Finance Officer, Lothian Pension Fund
21 September 2021

Note to the net asset statement
The financial statements summarise the transactions of the Fund during the year and its net assets at the year end. They don't take account of the obligations to pay pensions and benefits which fall due after the end of the year. The actuarial position of the Fund, which does take account of such obligations, is discussed in the Actuarial Valuation section of this report and these financial statements should be read in conjunction with that information. In addition, as required by IAS26, the Actuarial Present Value of Promised Retirement Benefits is disclosed in the notes to these financial statements.

SCOTTISH HOMES PENSION FUND NOTES TO THE FINANCIAL STATEMENTS

The statement of accounting policies for both Funds can be found on page 158.

2 Events after the Reporting Date

There have been no events since 31 March 2021, and up to the date when these Financial Statements were authorised, that require any adjustments to these Financial Statements.

SCOTTISH HOMES PENSION FUND NOTES TO THE FINANCIAL STATEMENTS

3 Contributions from the Scottish Government

The Scottish Homes Pension Fund (SHPF) is an employer pension fund for former employees of Scottish Homes (subsequently Communities Scotland), Scottish Special Housing Association and Homeless Action Scotland (HAS) (formerly The Scottish Council for Single Homeless).

The City of Edinburgh Council was selected by the Scottish Executive to be the administering authority of a fund created prior to the wind up of the Scottish Homes Residuary Body and therefore became the administering authority of SHPF on 1 July 2005, pursuant to section 2(a)(1A) of The Local Government Pension Scheme (Scotland) Amendment (No. 2) Regulations 2005 (SSI 315/2005) (the 2005 Regulations). Former employees of HAS were transferred to SHPF on 12 July 2018 following receipt of Scottish Ministers approval on 31 March 2020..

SHPF is a mature, non-active fund. The fund has no contributions paid into it by active members, but consists only of deferred and pensioner members and therefore only pays money out to the pensioners.

Section 2 (1C) of the 2005 Regulations stipulates that:
where the actuary determines, after having regard to the existing and prospective liabilities of the fund, that additional funding is necessary to maintain the solvency of the fund (SHPF), then Scottish Ministers will make payments to the administering authority to maintain that solvency.

In this way, the Scottish Government acts as the 'Guarantor' for SHPF's liabilities, as confirmed in the Funding Agreement, signed on behalf of the Scottish Executive and dated 6 July 2005.

As at the latest triennial actuarial valuation date of 31 March 2020, SHPF showed a funding surplus of £24.9 million with a funding level of 117.7%, derived from a market valuation of assets of £166.1million and liabilities of £141.1million.

In accordance with the provisions of the Funding Agreement, the assets of SHPF are now invested entirely on a low risk basis. With a funding surplus, the Scottish Government isn't required to provide any contribution, but as Guarantor has the responsibility to pay towards the administration expenses of the fund. This amounted to £70,000 per annum for years 2018 to 31 March 2021, with this rising to £90,000 per annum for the three years starting 1st April 2021 following the most recent actuarial valuation. Investment expenses are being met directly from the fund's surplus.

SCOTTISH HOMES PENSION FUND NOTES TO THE FINANCIAL STATEMENTS

11 Financial Instruments

11a Classification of financial instruments

Accounting policies describe how different asset classes of financial instruments are measured, and how income and expenses, including fair value gains and losses, are recognised. The following table analyses the fair value amounts of financial assets and liabilities by category and net assets statement heading. No financial assets were reclassified during the accounting period.

All financial instruments are marked to market (at fair value) in the fund's accounting records hence there is no difference between the carrying value and fair value.

	31 March 2020			31 March 2021

11c Valuation of financial instruments carried at fair value

The valuation of financial instruments has been classified into three levels, according to the quality and reliability of information used to determine fair values.

Level 1

Financial instruments at Level 1 are those where the fair values are derived from unadjusted quoted prices in active markets for identical assets or liabilities. Products classified as level 1 comprise quoted equities and unit trusts.

Quoted investments are shown at bid prices. The bid value of the investment is based on the bid market quotation of the relevant stock exchange.

Level 2

Financial instruments at Level 2 are those where quoted market prices are not available; for example, where an instrument is traded in a market that isn't considered to be active, or where valuation techniques are used to determine fair value and where these techniques use inputs that are based significantly on observable market data.

SCOTTISH HOMES PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

11c Valuation of financial instruments carried at fair value (cont)

Level 3

Financial instruments at Level 3 are those where at least one input that could have a significant effect on the instrument's valuation isn't based on observable market data. Such instruments would include unquoted equity investments, which are valued using various valuation techniques that require significant judgement in determining appropriate assumptions.

The values of the investments in unquoted private equity, infrastructure, timber and real estate are based on valuations provided by the general partners to the funds in which the fund has invested.

These valuations are prepared in accordance with the International Private Equity and Venture Capital Valuation Guidelines or similar guidelines provided by the British Venture Capital Association, which follow the valuation principles of International Financial Reporting Standards (IFRS). The valuations are typically undertaken annually at the end of December. Cash flow adjustments are used to roll forward the valuations to 31 March as appropriate.

SCOTTISH HOMES PENSION FUND NOTES TO THE FINANCIAL STATEMENTS

12 Nature and extent of risk arising from financial instruments

Risk and risk management

The fund's primary aim is to ensure that all members and their dependents receive their benefits when they become payable. As directed by Scottish Government, with the 31 March 2020 actuarial valuation showing a funding level of 117.7%, the fund is invested entirely in low risk assets. In addition, the fund ensures that sufficient cash is available to meet all liabilities when they fall due.

Responsibility for the fund's overall investment strategy rests with the Pensions Committee. The Joint Investment Strategy Panel and the internal investment team monitor investment risks on a regular basis. Investment risk management tools are used to identify and analyse risks faced by the fund's investments.

Types of investment risk

There are various ways of considering investment risks for pension funds. For the purposes of this note, market risk is the potential for an investor to experience losses from falls in the prices of investments. All financial instruments, including cash deposits, present a risk of loss of capital and risks vary depending on different asset classes.

Market risk also changes over time as economic conditions and investor sentiment change. The market risk of the Scottish Homes Pension Fund has to some extent been mitigated, as the fund holds only gilts. Most of the reduction in market risk is relative to the liabilities, and not outright. The fund's assets have been matched to its liabilities as at the 31 March 2017 triennial valuation so that interest rate risk has been minimised, and as all assets held are valued in pound Sterling, no exchange risk occurs. A review of the asset matching of the fund takes place following the publication of each triennial valuation, which is typically a year after the valuation point. Following the results of the 31 March 2020 triennial valuation, rebalancing is scheduled to take place early in the new financial year.

.

Sensitivity analysis

Asset prices have a tendency to fluctuate. The degree of such fluctuation is known as "volatility" and it differs by asset class. The table sets out the long-term volatility assumptions used by the fund's investment adviser Isio:

Asset type	Potential price movement (+ or -)
Index-Linked Gilts	10.8%
Fixed Interest Gilts	3.8%
Cash	0.2%

SCOTTISH HOMES PENSION FUND NOTES TO THE FINANCIAL STATEMENTS

12 Nature and extent of risk arising from financial instruments (cont)

Volatility is the standard deviation of annual returns. Broadly speaking, in two years out of three, the asset's change in value (which could be a gain or a loss) is expected to be lower than the volatility figure, but in one year out of three, the change in value is expected to be higher than the volatility figure.

Asset classes don't always move in line with each other. The extent to which assets move together is known as their "correlation". A lower correlation means that there's less risk of assets losing value at the same time. The overall fund benefits from "diversification" because it invests in numerous different asset classes, which don't all move in line with each other. Consequently, the aggregate risk at the fund level is less than the total risk from all the individual assets in which the fund invests.

The table below shows the risks at the asset class level and the overall fund level.

	Value at 31 March 2021	% of fund	Potential Change +/-	Value on increase	Value on decrease
	£000	%	%	£000	£000
Index-Linked Gilts	94	59.9	10.8	104	84
Fixed Interest Gilts	47	30.2	3.8	49	45
Cash	15	9.9	0.2	15	15
Total [1]	**156**	**100.0**	**14.7**	**168**	**144**
Total [2]			**13.5**	**177**	**135**
Total [3]			**1.9**	**159**	**n/a**

[1] No allowance for correlations between assets

[2] Including allowance for correlations between assets

[3] Including allowance for correlation between assets and liabilities.

The value on increase/decrease columns illustrate the monetary effect of the percentage change in the volatility column. The actual annual change in value is expected to be lower than this in two years out of three, but higher in one year out of three.

It can be seen that the risk to the overall fund assets [2] is lower than the total of the risks to the individual assets [1].

However, because the purpose of a pension scheme is to make payments to scheme beneficiaries, the true risk of a pension scheme isn't measured in absolute terms, but relative to its liabilities [3]. The risk is lower than the absolute asset risk, due to the impact of correlation with the discount rate used to value the liabilities.

This risk analysis incorporates volatility from market, interest rate, foreign exchange, credit, and all other sources of risk, and, importantly, makes allowance for how these risks may offset each other.

SCOTTISH HOMES PENSION FUND NOTES TO THE FINANCIAL STATEMENTS

12 Nature and extent of risk arising from financial instruments (cont)

Credit risk

Credit risk represents the risk that the counterparty to a transaction or a financial instrument will fail to discharge an obligation and cause the fund to incur a financial loss. The market values of investments generally reflect an assessment of credit risk in their pricing and consequently the risk of loss is implicitly provided for in the value of the fund's assets and liabilities (as outlined in Market Risk above).

In essence, the fund's entire investment portfolio is exposed to some sort of credit risk. However, through the selection of counterparties, brokers and financial institutions, the fund reduces the credit risk that may occur through the failure to settle a transaction in a timely manner.

Cash deposits are the major areas of credit exposure where credit risk isn't reflected in market prices.

Cash deposits

At 31 March 2021, cash deposits represented £16m, 10% of total net assets. This was held with the following institutions:

	Moody's Credit Rating at 31 March 2021	Balances at 31 March 2020	Balances at 31 March 2021
Held for investment purposes		**£000**	**£000**

The City of Edinburgh Council - treasury management	See below	1,599	1,357
Total cash		**2,923**	**16,263**

SCOTTISH HOMES PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

The majority of Sterling cash deposits of the fund are managed along with those of the administering authority (the City of Edinburgh Council) and other related organisations which are pooled for investment purposes as a treasury cash fund. Management of the cash fund is on a low risk basis, with security of the investments the key consideration. The Council has in place counterparty criteria.
The Council has in place institutional restrictions on investments and counterparty criteria. These include:

(a) UK Government and other UK local Authorities with no limit, other public bodies up to £20 million per organisation.
(b) Money market funds (MMFs) no more than £30 million or 15% with any one fund.
(c) "Financial Institutions: Banks and Building Societies with multiple criteria based on a range of short and long term credit ratings, as well as any security provided, from maximum of £60 million / 20% of assets under management (AUM) for institutions with the highest criteria to £10 million / 5% of AUM for institutions with the lowest acceptable criteria.

	Moody's Credit Rating at 31 March 2021	Balances at 31 March 2020	Balances at 31 March 2021

UK Pseudo-Sovereign risk instruments			
Other Local Authorities [1]	Aa3	864	475
		1,689	**1,357**

[1] Very few Local Authorities have their own credit rating but they're generally assumed to have a pseudo-sovereign credit rating (which in the UK at 31 March 2021 was 'Aa3').

SCOTTISH HOMES PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

12 Nature and extent of risk arising from financial instruments (cont)

No breaches of the Council's counterparty criteria occurred during the reporting period and the fund doesn't expect any losses from non-performance by any of its counterparties in relation to deposits.

Refinancing risk

Refinancing risk is the risk that the fund will be bound to replenish a significant proportion of its pension fund financial instruments at a time of unfavourable interest rates. The fund isn't bound by any obligation to replenish its investments and hence is not exposed to refinancing risk.

Liquidity risk

Liquidity risk reflects the risk that the fund won't be able to meet its financial obligations as they fall due. The fund therefore ensures that there's adequate cash and liquid resources to meet its commitments. Cash flow projections are prepared on a regular basis to understand and manage the timing of the fund's cash flows.

All of the fund's investments could be converted to cash within three months in a normal trading environment.

13 Actuarial statement

The Actuary has provided a statement describing the funding arrangements of the fund. This can be found at the end of this section.

SCOTTISH HOMES PENSION FUND NOTES TO THE FINANCIAL STATEMENTS

14 Actuarial present value of promised retirement benefits

The actuarial value of promised retirement benefits at the accounting date, calculated in line with International Accounting Standard 19 (IAS19) assumptions, is estimated to be £125m (2020 £122m). This figure is used for statutory accounting purposes by Scottish Homes Pension Fund and complies with the requirements of IAS26. The assumptions underlying the figure match those adopted for the Administering Authority's IAS19 reports at each year end.

The figure is only prepared for the purposes of IAS26 and has no validity in other circumstances. In particular, it is not relevant for calculations undertaken for funding purposes and setting contributions payable to the fund.

	31 March 2020	31 March 2021
	% p.a.	% p.a.
Inflation/pensions increase rate	1.90%	2.85%
Discount rate	2.30%	2.00%

Longevity assumptions

The life expectancy assumption is based on fund specific statistical analysis with improvements in line with the CMI 2020 model, with a 0% weighting of 2020 data, standard smoothing (Sk7), initial adjustment of 0.5% and a long term rate of improvement of 1.5% p.a. Based on these assumptions, the average future life expectancies at age 65 are summarised below:

	31 March 2020		31 March 2021	
	Male	Female	Male	Female
Current pensioners	22.4 years	24.8 years	20.8 years	23.2 years
Future pensioners (assumed to be currently 45)	24.8 years	27.8 years	21.0 years	26.0 years

Commutation assumption

An allowance is included for future retirements to elect to take 50% of the maximum additional tax-free cash up to HMRC limits for pre-April 2009 service and 75% of the maximum tax-free cash for post-April 2009 service.

17 Related party transactions

The City of Edinburgh Council

The Lothian Pension Fund and the Scottish Homes Pension Fund are administered by the City of Edinburgh Council. Consequently there is a strong relationship between the Council and the Pension Funds.

LPFE, which is a wholly owned subsidiary of the Council, is responsible for providing the staffing resource to administer the pension funds. Lothian PensionThe Fund (inclusive of Scottish Homes Pension Fund) has a service level agreement in place with the Council for certain support services. Costs directly attributable to a specific fund are charged to the relevant fund, costs that are common to the two funds are allocated on a defined basis.

Transactions between the Council and the fund are managed via a holding account. Each month the fund is paid a cash sum leaving a working balance in the account to cover the month's pension payroll costs and other expected costs.

	31 March 2020	31 March 2021
	£000	£000
Year end balance of holding account	130	141
	130	**141**

Part of the fund's cash holdings are invested on the money markets by the treasury management operations of the Council, through a service level agreement.

During the year to 31 March 2020, the fund had an average investment balance of £2.5m (2019 £10.6m). Interest earned was £20k (2019 £74k).

SCOTTISH HOMES PENSION FUND NOTES TO THE FINANCIAL STATEMENTS

Held for investment purposes	-	-
Held for other purposes	1,599	1,357
	1,599	**1,357**

Fund Guarantor

The fund guarantor (by definition) is a related party to the scheme. The Scottish Government's contributions to the Fund can be found in note 4 (page 135) of the notes to the Financial Statements

LPFE Limited - staffing services

Staffing services are provided to Lothian Pension Fund and Scottish Homes Pension Fund for the purposes of administering the Funds under an intra-group resourcing agreement. The agreement also provides for the running costs of the company to be covered as part of a service charge and allows for the provision of staffing services to LPFI Limited. Lothian Pension Fund is invoiced for these services and Scottish Homes Pension Fund is then allocated a percentage recharge on a defined basis. During the year to 31 March 2021, the fund was recharged £88k (2020 £81k) for the services of LPFE Limited staff.

Governance

As at 31 March 2021, all members of the Pensions Committee, with the exception of Richard Lamont, and all members of the Pension Board, were members of the Lothian Pension Fund. One member of both the Pensions Committee and the Pension Board are in receipt of pension benefits from Lothian Pension Fund

Each member of the Pensions Committee and Pensions Board is required to declare any financial and non-financial interests they have in the items of business for consideration at each meeting, identifying the relevant agenda item and the nature of their interest.

SCOTTISH HOMES PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

During the period from 1 April 2020 to the date of issuing of these accounts, Lothian Pension Fund was charged by City Of Edinburgh Councils via its service level agreement for time spent by its Executive Management team on pension fund issues, Scottish Homes Pension Fund is then recharged for these services on a defined basis. All other staff that held key positions in the financial management of Lothian Pension Fund and Scottish Homes Pension Fund were employed by LPFE Limited. Total compensation paid in relation to key management personnel employed by LPFE Limited during the period was as follows:

	31 March 2020	31 March 2021
	£000	£000
Short-term employee benefits	757	864
Post-employment benefits - employer pension contributions	140	189

Key management personnel employed by LPFE had accrued pensions totalling £119,873 (1 April 2020: £106,596 and lump sums totalling £126,989 (1 April 2020: £121,925) at the end of the period.

Staff are either employed by City of Edinburgh Council or LPFE Limited, and their costs reimbursed by the Pension Funds. The Councillors, who are members of the Pensions Committee, are also remunerated by City of Edinburgh Council.

WHAT OUR MEMBERS SAY:

'Very happy with the website. It's easy to get around and I particularly like seeing my payslip and p60 online as it saves on my filing at home. Thank you.'

SCOTTISH HOMES PENSION FUND
NOTES TO THE FINANCIAL STATEMENTS

18 Contingent assets/liabilities

Rectification of age discrimination - McCloud and Sargeant judgements

When public service pension schemes were reformed following the Public Service Pensions Act 2013, protections for older scheme members were introduced. In December 2018, the Court of Appeal ruled that the transitional protections included in the Judges' ("McCloud") and Firefighters' ("Sargeant") pension schemes constituted unlawful age discrimination. Following this, in July 2019 a Written Ministerial Statement confirmed that the UK Government believed that the ruling applied to all the main public service pension schemes and that the discrimination would be addressed in all the relevant schemes, including Local Government Pension Scheme (LGPS) in Scotland.

On 4 August 2020, the Scottish Public Pensions Agency (SPPA) issued a statutory consultation on the proposed remedy, with this closing in October 2020. As anticipated, it's proposed that a comparison will be made between the benefits payable under the current rules with the entitlements which would have been paid if the Scheme had not changed in 2015, and with any higher sum being paid to the member. This protection will apply automatically and members who meet the qualifying criteria won't need to take any action. Many members' benefits won't change or will only see a small increase because of low salary growth since the new scheme was introduced. As the changes will be backdated to April 2015 and apply to qualifying members who left the LGPS after that date, implementation of the remedy is expected to be extremely challenging from both administration and communications perspectives. SPPA has not yet published its formal response to its consultation.

In March 2021, SPPA advised administering authorities that rectification regulations should come into force in April 2023 (one year later than anticipated).

The Fund's IAS26 reporting from its actuary, as disclosed in Note 14, takes into account the appeal decision and the proposed remedy.

GMP Equalisation - Lloyds ruling on historic transfers

On 20 November the High Court ruled on the equalisation for GMPs of historic transfers out of the three largest Lloyds Banking Group pension schemes. The judgement requires all transfers with 17 May 1990 - 5 April 1997 GMPs to be equalised, even if they were taken as long ago as 1990. Schemes will be expected to pay a top-up to receiving scheme with interest at Bank base rate +1%. There are limited exceptions that don't require a top-up, but it's not obvious within the judgement that there's to be any blanket exception on the application of this ruling to public sector schemes.

It's not yet clear what impact this will have for the LGPS and we're awaiting further guidance before taking any further action.

SCOTTISH HOMES PENSION FUND ("THE FUND") ACTUARIAL STATEMENT FOR 2020/21

Weslo Housing Management ("Weslo") Transfer of engagements to Link Group Limited ("Link")

Link Housing Association has advised Lothian Pension Fund that the formation of Weslo Housing Management arose partially from a stock transfer in 1994, from the then Scottish Homes governmental agency. Its interpretation of relevant Weslo archives is that there's potential that a guarantee or indemnity for the pension liabilities of transferred employees may pertain from the Scottish Government. Accordingly, it has approached the Scottish Government and a definitive legal opinion is awaited as to whether a proportion of the pension liabilities of Weslo Housing Management should be transferred from Lothian Pension Fund and be met by Scottish Homes Pension Fund. Lothian Pension Fund has no evidence within its own records to support such transfer. Should the Scottish Government accept such historic guarantee, then the contributions payable by Link to Lothian Pension Fund would be reduced proportionately and transfer to Scottish Homes Pension Fund effected.

19 Contractual commitments

The Fund had no contractual commitments at the year end.

20 Impairment losses

No impairment losses have been identified during the year.

SCOTTISH HOMES PENSION FUND ("THE FUND") ACTUARIAL STATEMENT FOR 2020/21

This statement has been prepared in accordance with Regulation 55(1)(d) of the Local Government Pension Scheme (Scotland) Regulations 2018. It has been prepared at the request of the Administering Authority of the Fund for the purpose of complying with the aforementioned regulation.

Description of Funding Policy

The Administering Authority's Funding Strategy Statement (FSS), dated March 2021, states that a bespoke funding strategy has been adopted for the fund.

The strategy aims for the fund to be 100% solvent by 2044 using a discount rate based on government bonds. It includes target funding levels at each actuarial valuation. Contributions from the Scottish Government are determined by reference to the target funding levels. The deficit recovery period is eight years.

The fund's assets are invested wholly in index-linked gilts.

Funding Position as at the last formal funding valuation

The most recent actuarial valuation carried out under Regulation 60 of the Local Government Pension Scheme (Scotland) Regulations 2018 was as at 31 March 2020. This valuation revealed that the fund's assets, which at 31 March 2020 were valued at £166.1 million, were sufficient to meet 117.7% of the liabilities (i.e. the present value of promised retirement benefits) accrued up to that date. The resulting surplus at the 2020 valuation was £24.9 million.

The Guarantor's contributions for the period 1 April 2021 to 31 March 2024 were set in accordance with the fund's funding policy as outlined in its FSS

SCOTTISH HOMES PENSION FUND ("THE FUND") ACTUARIAL STATEMENT FOR 2020/21

Principal Actuarial Assumptions and Method used to value the liabilities

Full details of the methods and assumptions used are described in the 2020 valuation report.

Method

The liabilities were assessed using an accrued benefits method which takes into account pensionable membership up to the valuation date.

Assumptions

A market-related approach was taken to valuing the liabilities, for consistency with the valuation of the fund assets at their market value.

The key financial assumptions adopted for the 2020 valuation were as follows:.

Financial assumptions	31 March 2020
Discount Rate	Bank of England nominal yield curve
Benefit increase assumption (CPI)	Bank of England implied (RPI) curve less 0.9% p.a.

SCOTTISH HOMES PENSION FUND ("THE FUND") ACTUARIAL STATEMENT FOR 2020/21

The key demographic assumption was the allowance made for longevity. The life expectancy assumption was based on the fund's Vita Curves alongside future improvements based on the CMI 2019 model with an allowance for smoothing of recent mortality experience and a long term rate of improvement of 2.0% p.a. Based on these assumptions, the average future life expectancies at age 65 are as follows

	Male	Female
Current Pensioners	20.8 years	23.3 years
Future Pensioners *	21.1 years	26.0 years

**Currently aged 45*

Copies of the 2020 valuation report and Funding Strategy Statement are available on the LPF website.

Experience over the period since 31 March 2020

Since the last formal valuation, real bond yields have fallen placing a higher value on the liabilities and asset values have fallen over the last year. As a result, the funding level of the fund as at 31 March 2021 is likely to be lower than that reported at the previous formal valuation.

The next actuarial valuation will be carried out as at 31 March 2023. The Funding Strategy Statement will also be reviewed at that time.

Richard Warden FFA
For and on behalf of Hymans Robertson LLP
11 May 2021

ACCOUNTING POLICIES AND GENERAL NOTES

1. Basis of preparation

The Financial Statements have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 which is based upon International Financial Reporting Standards (IFRS), as amended for the UK public sector.

The Financial Statements summarises the transactions of the funds for the 2020/21 financial year and report on the net assets available to pay pension benefits as at 31 March 2021. The Financial Statements don't take account of obligations to pay pensions and benefits which fall due after the end of the financial year. The actuarial present values of promised retirement benefits, valued on an International Accounting Standard (IAS) 19 basis, are disclosed in the Notes to the Financial Statements.

The Financial Statements are prepared on the going concern basis, which provides that the funds will continue in operational existence for the foreseeable future. The basis is on the grounds that there's sufficient funding available to the funds to support the anticipated continuation of the provision of services.

2. Summary of significant accounting policies

General

a) Basis of consolidation – Group accounts

Commencing with the year ended 31 March 2016, Consolidated Financial Statements have been prepared for Lothian Pension Fund. The Financial Statements of Scottish Homes Pension Fund continue to be prepared on a single entity basis.

The Consolidated Financial Statements for Lothian Pension Fund are prepared by combining the Financial Statements of the Fund (the parent entity) and its controlled entities (LPFE Limited and LPFI Limited) as defined in accounting standard IAS27 – Consolidated and Separate Financial Statements. Consistent accounting policies are employed in the preparation and presentation of the Consolidated Financial Statements. All inter-entity balances and transactions between entities, including any unrealised profits or losses, have been eliminated on consolidation.

Further details of the consolidation are provided in the Notes to the Financial Statements of Lothian Pension Fund.

LPFE Limited (LPFE) and LPFI Limited (LPFI) are wholly owned by the City of Edinburgh Council in its capacity as administering authority for the Local Government Pension Scheme in the Lothian area.

The purpose of LPFE is to provide staff services in respect of management of the Fund. LPFI's purpose is to provide FCA regulated services to LPF and other Local Government Pension Scheme funds. It's considered appropriate to consolidate the Financial Statements of the two companies with those of Lothian Pension Fund.

ACCOUNTING POLICIES AND GENERAL NOTES

Fund account – revenue recognition

b) Contribution income

Normal contributions, both from the members and from employers, are accounted for on an accruals basis at the rate certified by the Scheme Actuary in the payroll period to which they relate.

Similarly, employer deficit funding contributions are accounted for on the due date on which they're payable as certified by the Scheme Actuary.

Employers' pensions strain contributions are accounted for in the period in which the liability arises. Any amount due but unpaid will be classed as a current financial asset. Amounts not due until future years are classed as long-term financial assets.

c) Transfers to and from other schemes

Transfer values represent the amounts received and paid during the year for members who have either joined or left the fund during the financial year and are calculated in accordance with the Local Government Pension Scheme Regulations.

Individual transfers in/out are accounted for when received/paid, which is normally when the member liability is accepted or discharged.

Transfers in from members wishing to use the proceeds of their additional voluntary contributions to purchase scheme benefits are accounted for on a receipts basis and are included in transfers in.

Bulk (group) transfers are accounted for on an accruals basis in accordance with the terms of the transfer agreement.

d) Investment income

i) Interest income
Interest income is recognised in the fund accounts as it accrues, using the effective interest rate of the financial instrument as at the date of acquisition or origination. Income includes the amortisation of any discount or premium, transaction costs or other differences between the initial carrying amount of the instrument and its amount at maturity calculated on an effective interest rate basis.

ii) Dividend income
Dividend income is recognised on the date the shares are quoted ex-dividend. Any amount not received by the end of the reporting period is disclosed in the Net Assets Statement as a current

ACCOUNTING POLICIES AND GENERAL NOTES

financial asset.

iii) Distributions from pooled funds
Distributions from pooled funds are recognised at the date of issue. Any amount not received by the end of the reporting period is disclosed in the Net Assets Statement as a current financial asset.

iv) Income from unquoted private equity and infrastructure investments
Income from the above sources is recognised when it's notified by the manager. Distributions are split into capital and income elements with the latter being included under investment income in the Fund Account.

v) Property related income
Property-related income consists primarily of rental income. Rental income from operating leases on properties owned by Lothian Pension Fund is recognised on a straight-line basis over the term of the lease. Any lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease.

Rental income is reported gross with the operational costs of the properties included in investment management expenses.

Contingent rents based on the future amount of a factor that changes other than with the passage of time, such as turnover rents, are only recognised when contractually due.

vi) Movement in the net market value of investments
Changes in the net market value of investments (including investment properties) are recognised as income and comprise all realised and unrealised profits/losses during the year.

Fund Account – expense items

e) Benefits payable
Pensions and lump sum benefits payable include all amounts known to be due as at the end of the financial year. Any amounts due but unpaid are disclosed in the Net Assets Statement as current liabilities.

ACCOUNTING POLICIES AND GENERAL NOTES

f) Taxation

i) Pension Funds

The Local Government Pension Scheme is a registered public service scheme under section 1(1) of Schedule 36 of the Finance Act 2004 and as such is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrecoverable tax is accounted for as a fund expense as it arises.

ii) Controlled entities – LPFE and LPFI

The Companies are mutual traders and are therefore not liable to corporation tax on any surpluses generated from services provided in respect of the Fund. The tax charges for the period are based on any profit for the period from non-mutual trade, adjusted for any non-assessable or disallowed items. They're calculated using tax rates that have been enacted or are substantively enacted by the period end date.

Deferred tax is accounted for using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Financial Statements. No deferred tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the income statement except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred tax assets are recognised to the extent that it's probable that future profits will be available against which deductible temporary differences can be utilised.

The amount of benefit brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the economic entity will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

ACCOUNTING POLICIES AND GENERAL NOTES

g) Administrative expenses

All administrative expenses are accounted for on an accruals basis. Lothian Pension Fund is responsible for administering the two funds. The costs include charges from LPFE and LPFI for services rendered. LPF receives an allocation of the overheads of the Council based on the amount of central services consumed. In turn, these costs are allocated to the two funds.

Costs directly attributable to a specific fund are charged to the relevant fund. Investment management costs that are common to all funds are allocated in proportion to the value of each fund as at the end of the year. Other administration costs are allocated in proportion to the number of members in each of the funds at the end of the year.

h) Investment management expenses

All investment management expenses are accounted for on an accruals basis.

Fees of the external investment managers and custodian are agreed in the respective mandates governing their appointments. Broadly, these are based on the market value of the investments under their management and therefore increase or reduce as the value of these investments change.

For some investment managers, an element of their fee is performance related. The amount of any performance related fees paid is disclosed in the note to the accounts on investment management expenses provided for each fund.

The cost of administering the Local Government Pension Scheme in the UK has come under increasing scrutiny in recent years. As a result, it has been decided to recognise investment management costs that are deducted from the value of an investment and recognised this as a cost in the Fund Account rather than as a reduction in the change in market value of investments. Investment transaction costs that are added to an investment purchase price or deducted from the proceeds of a sale are also recognised as a cost in the Fund Account rather than as a reduction in the change in market value of investments.

In June 2016, CIPFA revised and updated its guidance "Accounting for Local Government Pension Scheme Management Costs". Whilst the underlying principle of transparency of investment costs remains unchanged, there's been a degree of relaxation to full cost disclosure. Specifically, for complex 'fund of funds' structures, the new guidance states that "Investment costs incurred by a separate legal entity, or in respect of investment decisions over which the pension fund has no control, should not be included in the (Pension) Fund Account . . . If pension funds wish to provide information about the total cost of 'fund of fund' investments, this should be included as part of the Investments section in the Annual Report."

The impact of this is that investment management costs deducted from any underlying fund in a 'fund of funds' investment would not be included in the costs disclosed in the Fund Account. As this would significantly under-report investment management costs, it has been decided not

ACCOUNTING POLICIES AND GENERAL NOTES

to adopt this element of the CIPFA guidance. However, this type of cost is separately identified as "external management fees – deducted from capital (indirect)" in the notes on investment management expenses.

Any indirect costs incurred through the bid-offer spread on some pooled investment vehicles are not treated as an expense. Such costs are accounted for as part of the acquisition costs or sale proceeds.

The cost of obtaining investment advice from external consultants is included in investment management charges.

The costs of the in-house investment management team are charged to the fund. The basis of allocation is as described in section g.

Securities lending revenue is reported gross and their fees are disclosed in investment management expenses.

i) Operating lease

Lease payments under an operating lease are recognised as an expense on a straight-line basis over the term of the lease. In accordance with Standard Interpretations Committee (SIC) 15, subsequently endorsed by the International Accounting Standards Board (IASB), lease incentives are recognised as a reduction in the lease expense over the term of the lease on a straight-line basis.

Net Assets Statement

j) Financial assets

Financial assets are included in the Net Assets Statement on a fair value basis as at the reporting date. A financial asset is recognised in the Net Assets Statement on the date the Fund becomes party to the contractual acquisition of the asset. From this date, any gains or losses arising from changes in the fair value of asset are recognised by the fund.
The values of investments as shown in the Net Assets Statement have been determined at

WE'RE PROUD TO SERVE

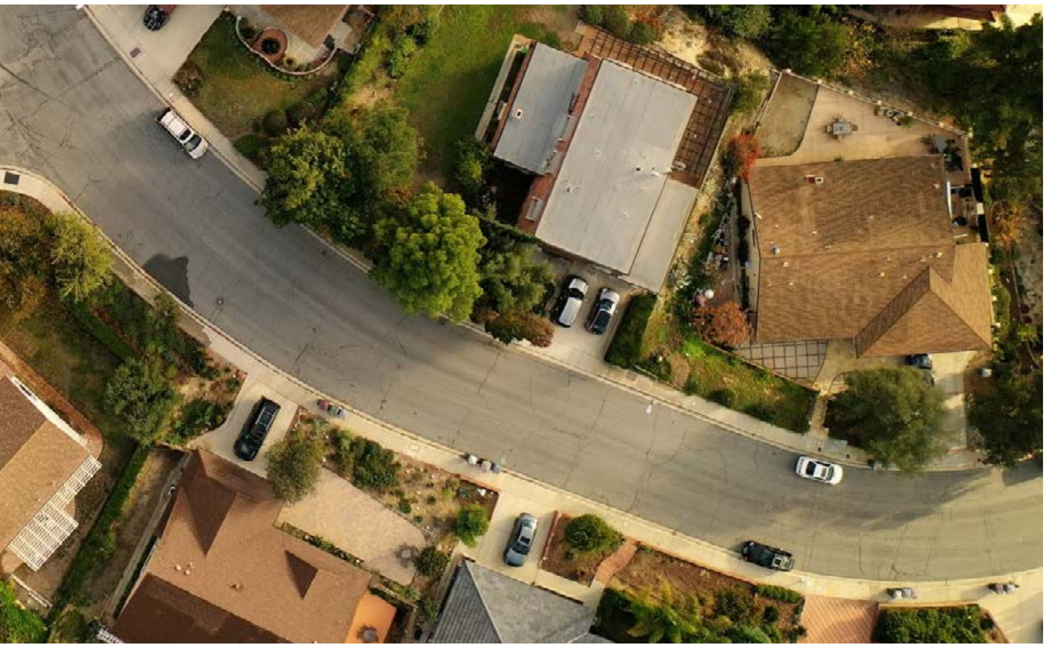
262 FACILITIES MANAGERS AND ASSISTANTS

LOTHIAN PENSION FUND

ACCOUNTING POLICIES AND GENERAL NOTES

fair value in accordance with the requirements of the Code and IFRS13. For the purposes of disclosing levels of fair value hierarchy, the fund has adopted the classification guidelines recommended in Practical Guidance on Investment Disclosures (PRAG/Investment Association, 2016).

The basis of the valuation of each class of investment assets is set out on the next page. There has been no change in the valuation techniques used during the year. All assets have been valued using fair value techniques which represent the highest and best price available at the reporting date.



ACCOUNTING POLICIES AND GENERAL NOTES

Description of asset	Valuation hierarchy	Basis of valuation	Observable and unobservable inputs	Key sensitivity affecting the valuations provided
Market quoted investments - Equities	Level 1	Closing bid value on published exchanges	Not required	Not required
Exchange traded pooled investments	Level 1	Closing bid value on published exchanges	Not required	Not required
Future derivative contracts	Level 1	Determined using exchange prices at the reporting date. Amounts due from or owed to the broker are the amounts outstanding in respect of the initial margin and variation margin.	Not required	Not required
Forward foreign exchange derivatives	Level 1	Based on market forward exchange rates at the year-end date and determined as the gain or loss that would arise if the outstanding contract were matched at the year-end with an equal and opposite contract.	Not required	Not required
Government bonds – fixed interest / index linked gilts	Level 2	Recorded at net market value based on their current yields.	Evaluated price feeds	Not required
Freehold and leasehold properties	Level 3	Valued at fair value at the year-end using the investment method of valuation by John Symes-Thompson FRICS of independent valuers, CBRE Ltd in accordance with RICS Red Book Global Valuation Standards (introduced with effect from 31 January 2020).	Existing lease terms and rentals. Independent market research. Nature of tenancies. Covenant strength for existing tenants. Assumed vacancy levels. Estimated rental growth. Discount rate.	Significant changes in rental growth, vacancy levels or the discount rate could affect valuations as could more general changes to market price
Unquoted Pooled investments – Private Equity, Infrastructure, Timber, Private Secured Loans & Property	Level 3	Comparable valuation of similar companies in accordance with International Private Equity and Venture Capital Guidelines and the IPEV Board's Special Valuation Guidance (March 2020).	EBITDA multiple Revenue multiple. Discount for lack of marketability. Control premium.	Valuations could be affected by material events occurring between the date of the financial statements provided and the Fund's own reporting date, by changes to expected cashflows, and by any differences between audited and unaudited accounts.

ACCOUNTING POLICIES AND GENERAL NOTES

Sensitivity of assets valued at level 3

Having analysed historical data and current market trends, and consulted with independent investment advisers, the fund has determined that the valuation methods described above are likely to be accurate to within the following ranges, and has set out below the consequent potential impact on the closing value of investments held at 31 March 2021.

Lothian Pension Fund	Assessed Valuation range (+ or -)	Value at 31 March 2021	Value on increase	Value on decrease
Unquoted		**£m**	**£m**	**£m**
Private Equity	30%	53	69	37
Infrastructure	12%	865	969	761
Timber	18%	119	140	98
Private Secured Loans	7.5%	293	315	271
Property	13%	377	426	328
		1,707	**1,919**	**1,495**

Scottish Homes Pension Fund has no assets valued at Level 3.

k) Foreign currency transactions and balances

Dividends, interest and purchases and sales of investments in foreign currencies have been accounted for at the spot market rates at the date of the transaction. End-of-year spot market exchange rates are used to value cash balances held in foreign currency bank accounts, market values of overseas investments and purchases and sales outstanding at the end of the reporting period.

l) Cash and cash equivalents

Cash comprises cash in hand and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and that are subject to minimal risk of changes in value.

m) Financial liabilities

The fund recognise financial liabilities at fair value as at the reporting date. A financial liability is recognised in the Net Assets Statement on the date the fund becomes party to the liability. From this date, any gains or losses arising from changes in the fair value of the liability are recognised.

ACCOUNTING POLICIES AND GENERAL NOTES

n) Actuarial present value of promised retirement benefits
The actuarial present value of promised retirement benefits of each of the fund is assessed on an annual basis by the Scheme Actuary in accordance with the requirements of IAS 19 and relevant actuarial standards.

As permitted under IAS26, the fund have opted to disclose the actuarial present value of promised retirement benefits by way of a note to the Net Assets Statements.

o) Additional voluntary contributions
The Lothian Pension Fund and Lothian Buses Pension Fund provide an additional voluntary contributions (AVC) scheme for their members, the assets of which are invested separately from those of the fund. The fund has appointed Standard Life and Prudential as their AVC providers. AVCs are paid to the AVC providers by employers and are specifically for providing additional benefits for individual contributors. Each AVC contributor receives an annual statement showing the amount held in their account and the movements in the year.

In accordance with regulation 5(2)(b) of the Local Government Pension Scheme (Management and Investment of Funds) (Scotland) Regulations 1998, AVCs are not included in pension fund financial statements. Details of contributions paid and the total value of funds invested are disclosed by way of note.

p) Contingent assets and contingent liabilities
A contingent liability arises where an event has taken place prior to the year-end giving rise to a possible financial obligation whose existence will only be confirmed or otherwise by the occurrence of future events. Contingent liabilities can also arise in circumstances where a provision would be made, except that it is not possible at the balance sheet date to measure the value of the financial obligation reliably.

A contingent asset arises where an event has taken place giving rise to a possible asset whose existence will only be confirmed or otherwise by the occurrence of future events.

Contingent assets and liabilities are not recognised in the Net Assets Statement but are disclosed by way of narrative in the notes.

q) Employee benefits
The employees of LPFE are eligible to participate in Lothian Pension Fund.

In the Consolidated Financial Statements, the current service cost for the period is charged to the Fund Account. The assets of Lothian Pension Fund are held separately from those of the Company. The Company has fully adopted the accounting principles as required by IAS19 – Employee Benefits.

ACCOUNTING POLICIES AND GENERAL NOTES

The liability recognised in the Net Asset Statement in respect of the defined benefit pension plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets, together with adjustments for unrecognised past-service costs.

The defined benefit obligation is calculated annually, by the Scheme Actuary, using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in a currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension obligations.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to the Fund Account in the period in which they arise.

Past-service costs are recognised immediately in the Fund Account, unless the changes to the pension plan are conditional on the employees remaining in service for a specified time period (the vesting period). In this case, the past-service costs are amortised on a straight-line basis over the vesting period.

3. Accounting Standards that have been issued but not yet adopted

The Code requires the disclosure of information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. This applies to the adoption of the following new or amended standards within the 2021/22 Code:

The Code requires implementation from 1 April 2021 and there's therefore no impact on the 2020/21 financial statements.

- Definition of a Business: Amendments to IFRS 3 Business Combinations
- Interest Rate Benchmark Reform: Amendments to IFRS 9, IAS 39 and IFRS 7
- Interest Rate Benchmark Reform: Phase 2: Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16.

The amendments are generally minor or principally providing clarification. Overall, these new or amended standards are not expected to have a significant impact on the financial statements.

ACCOUNTING POLICIES AND GENERAL NOTES

4 . Critical judgements in applying accounting policies

Unquoted private equity and infrastructure investments

It's important to recognise the highly subjective nature of determining the fair value of private equity and infrastructure investments.

They're inherently based on forward-looking estimates and judgements involving many factors. These valuations are prepared in accordance with the International Private Equity and Venture Capital Valuation Guidelines or similar guidelines provided by the British Venture Capital Association, which follow the valuation principles of IFRS.

For the Lothian Pension Fund, the value of unquoted private equity, infrastructure, timber and secured loan investments at 31 March 2021 was £1,629m (2020 £1,395m).

Actuarial present value of promised retirement benefits

Each fund is required to disclose the estimated actuarial present value of promised retirement benefits as at the end of the financial year. These estimates are prepared by the fund Actuary. These values are calculated in line with International Accounting Standard 19 (IAS19) assumptions and comply with the requirements of IAS26, however, the results are subject to significant variances based on changes to the underlying assumptions.

The figures are only prepared for the purposes of IAS26 and has no validity in other circumstances. In particular, it's not relevant for calculations undertaken for funding purposes and setting contributions payable to the fund.

5 . Assumptions made about the future and other major sources of estimation uncertainty

The Financial Statements contain estimated figures that are based on assumptions made by the Council; private equity and infrastructure managers; other providers of valuation information; and the Scheme Actuary about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because amounts cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Net Assets Statement at 31 March 2020 for which there's a significant risk of material adjustment in the forthcoming financial year are as follows:

ACCOUNTING POLICIES AND GENERAL NOTES

a) Actuarial present value of promised retirement benefits

Uncertainties

Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on the fund's assets. The fund actuary advises on the assumptions to be applied and prepares the estimates.

Effect if actual results differ from assumptions – Lothian Pension Fund

The effects on the net pension liability of changes in individual assumptions can be illustrated as follows:

Change in assumptions - year ended 31 March 2021	Approx Increase in liabilities %	Approx monetary amount £m
0.5% decrease in the real discount rate	10	1,042
1 year increase in member life expectancy	4	417
0.5% increase in salary increase rate	1	111
0.5% increase in pensions increase rate	9	909

Effect if actual results differ from assumptions – Scottish Homes Pension Fund

The effects on the net pension liability of changes in individual assumptions can be illustrated as follows:

Change in assumptions – year ended 31 March 2021	Approx Increase in liabilities %	Approx monetary amount £m
0.5% decrease in the real discount rate	5	6
1 year increase in member life expectancy	4	5
0.5% increase in pensions increase rate	5	6

ACCOUNTING POLICIES AND GENERAL NOTES

b) Valuation of unquoted private equity and infrastructure investments

Uncertainties
These investments aren't publicly listed and therefore there's a degree of estimation involved in their valuation, see 2j above for more details on the valuation methodology.

Effect if actual results differ from assumptions
There is a risk that these investments may be under or overstated in the accounts at any point in time. The actual financial return of this type of investment is only known with certainty when they reach the end of their lifecycles and the final distributions are made to investors. A sensitivity analysis can be found in note 2j above.

c) Quantifying the cost of investment fees deducted from capital

Uncertainties
Section 2 h) describes the accounting policy for investment management expenses in relation to expenses deducted from the capital value of investments. Quantification of these costs involves asking the relevant managers for information and only some of this information can be independently verified. In cases where the charges relate to an investment as a whole, an estimate needs to be made of the costs applicable to the holding owned by the relevant fund.

Effect if actual results differ from assumptions
There's a risk that the cost of investment fees deducted from capital may be under or overstated. However, as the costs are included in the Fund Account by adjusting the change in market value of investments, any inaccuracy in the cost estimate will not change the reported net change in the fund for the year.

COLLEAGUE PROFILE

Mark Smith, Employers and Members Quality Assurance Manager

Mark joined Lothian Pension Fund in July 2000 as our Employer and Members Quality Assurance Manager. Mark's responsible for ensuring that our members and employers receive a quality, professional service. Mark says:

"From the very first day I started with LPF, every day has been busy, varied, challenging and rewarding. No day is ever is the same and there's a lot of opportunity to develop my skills and knowledge."

ACCOUNTING POLICIES AND GENERAL NOTES

d) Property Valuations - Novel Coronavirus (COVID-19) Outbreak

Uncertainties

The outbreak of the Novel Coronavirus (COVID-19), declared by the World Health Organisation as a "Global Pandemic" on the 11th March 2020, continues to impact many aspects of daily life and the global economy - with some real estate markets having experienced lower levels of transactional activity and liquidity. Travel, movement and operational restrictions have been implemented by many countries. In some cases, "lockdowns" have been applied - in varying degrees - to reflect further `waves' of COVID-19. While these may imply a new stage of the crisis, they're not unprecedented in the same way as the initial impact.

The pandemic and the measures taken to tackle COVID-19 continue to affect economies and real estate markets globally. Nevertheless, as at the valuation date, property markets are mostly functioning again, with transaction volumes and other relevant evidence at levels where enough market evidence exists upon which to base opinions of value. Accordingly - and for the avoidance of doubt - our valuation is not reported as being subject to `material valuation uncertainty', as defined by VPS 3 and VPGA 10 of the RICS Valuation - Global Standards.

For the avoidance of doubt, this explanatory note has been included to ensure transparency and to provide further insight as to the market context under which the valuation opinion was prepared. In recognition of the potential for market conditions to move rapidly in response to changes in the control or future spread of COVID-19, we highlight the importance of the valuation date.

Effect if actual results differ from assumptions

There's a risk that these investments may be under or overstated in the accounts at any point in time. The actual financial return of this type of investment is only known with certainty at the time the asset is sold.

STATEMENT OF RESPONSIBILITIES FOR THE ANNUAL ACCOUNTS

The responsibilities of the Administering Authority

The Administering Authority's responsibilities are to:

- Make arrangements for the proper administration of the financial affairs of the Fund in its charge and to secure that one of its officers has the responsibility for the administration of those affairs. The Head of Finance serves as the Section 95 Officer for all the Council's accounting arrangements, including those of Lothian Pension Fund and Scottish Homes Pension Fund. For the Fund, this Section 95 responsibility has been delegated to the Chief Finance Officer, Lothian Pension Fund
- Manage its affairs to secure economic, efficient and effective use of its resources and safeguard its assets
- Ensure the Annual Accounts are prepared in accordance with legislation (The Local Authority Accounts (Scotland) Regulations 2014) and, so far as is compatible with that legislation, in accordance with proper accounting practices (section 12 of the Local Government in Scotland Act 2003)
- Approve the Unaudited Annual Accounts for signature.

Hugh Dunn
Head of Finance
The City of Edinburgh Council
27 September 2021

STATEMENT OF RESPONSIBILITIES FOR THE ANNUAL ACCOUNTS

The responsibilities of the Chief Finance Officer, Lothian Pension Fund
The Chief Finance Officer, Lothian Pension Fund, is responsible for the preparation of the Fund's Financial Statements which, in terms of the CIPFA / LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 (the Code of Practice), is required to present a true and fair view of the financial position of the Fund at the accounting date and their income and expenditure for the year ended 31 March 2021.

In preparing this statement of accounts, the Chief Finance Officer, Lothian Pension Fund, has:

- Selected suitable accounting policies and then applied them consistently
- Made judgements and estimates that were reasonable and prudent
- Complied with the Code of Practice

The Chief Finance Officer, Lothian Pension Fund, has also:

- Kept proper accounting records which were up to date
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

John Burns, FCMA CGMA PgC
Chief Finance Officer
Lothian Pension Fund
27 September 2021

INDEPENDENT AUDITOR'S REPORT

Independent auditor's report to the members of City of Edinburgh Council as administering authority for Lothian Pension Fund and Scottish Homes Pension Fund and the Accounts Commission

Report on the audit of the financial statements

Opinion on financial statements

We certify that we have audited the financial statements in the annual report of Lothian Pension Fund and Scottish Homes Pension Fund (the Funds) for the year ended 31 March 2021 under Part VII of the Local Government (Scotland) Act 1973. The financial statements comprise the Lothian Pension Fund Fund Account, the Lothian Pension Fund Net Assets Statement, Scottish Homes Pension Fund Fund Account, the Scottish Homes Pension Fund Net Assets Statement and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union, and as interpreted and adapted by the Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 (the 2020/21 Code).

In our opinion the accompanying financial statements:

- Give a true and fair view in accordance with applicable law and the 2020/21 Code of the financial transactions of the Funds during the year ended 31 March 2021 and of the amount and disposition at that date of their assets and liabilities
- Have been properly prepared in accordance with IFRSs as adopted by the European Union, as interpreted and adapted by the 2020/21 Code; and
- Have been prepared in accordance with the requirements of the Local Government (Scotland) Act 1973, The Local Authority Accounts (Scotland) Regulations 2014, and the Local Government in Scotland Act 2003.

INDEPENDENT AUDITOR'S REPORT

Basis for opinion

We conducted our audit in accordance with applicable law and International Standards on Auditing (UK) (ISAs (UK)) as required by the Code of Audit Practice approved by the Accounts Commission for Scotland. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We were appointed by the Accounts Commission on 31 May 2016. The period of total uninterrupted appointment is five years. We are independent of the Funds in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK including the Financial Reporting Council's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. Non-audit services prohibited by the Ethical Standard were not provided to the council. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern basis of accounting

We have concluded that the use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Funds' ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from when the financial statements are authorised for issue.

Risks of material misstatement

We report in a separate Annual Audit Report, available from the Audit Scotland website, the most significant assessed risks of material misstatement that we identified and our judgements thereon.

Responsibilities of the Chief Finance Officer and the City of Edinburgh Council for the financial statements

As explained more fully in the Statement of Responsibilities, the Chief Finance Officer is responsible for the preparation of financial statements that give a true and fair view in accordance with the financial reporting framework, and for such internal control as the Chief Finance Officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Chief Finance Officer is responsible for assessing the Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless deemed inappropriate.

The City of Edinburgh Council is responsible for overseeing the financial reporting process.

INDEPENDENT AUDITOR'S REPORT

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities outlined above to detect material misstatements in respect of irregularities, including fraud. Procedures include:

- Obtaining an understanding of the applicable legal and regulatory framework and how the Funds are complying with that framework
- Identifying which laws and regulations are significant in the context of the Funds
- Assessing the susceptibility of the financial statements to material misstatement, including how fraud might occur; and
- Considering whether the audit team collectively has the appropriate competence and capabilities to identify or recognise non-compliance with laws and regulations.

The extent to which our procedures are capable of detecting irregularities, including fraud, is affected by the inherent difficulty in detecting irregularities, the effectiveness of the Funds' controls, and the nature, timing and extent of the audit procedures performed.

Irregularities that result from fraud are inherently more difficult to detect than irregularities that result from error as fraud may involve collusion, intentional omissions, misrepresentations, or the override of internal control. The capability of the audit to detect fraud and other irregularities depends on factors such as the skilfulness of the perpetrator, the frequency and extent of manipulation, the degree of collusion involved, the relative size of individual amounts manipulated, and the seniority of those individuals involved.

A further description of the auditor's responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Reporting on other requirements

Statutory other information

The Chief Finance Officer is responsible for the statutory other information in the annual report. The statutory other information comprises the information other than the financial statements and our auditor's report thereon.

Our responsibility is to read all the statutory other information and, in doing so, consider whether the statutory other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this statutory other information, we are required to report that fact. We have nothing to report in this regard.

Our opinion on the financial statements does not cover the statutory other information and we do not express any form of assurance conclusion thereon except to the extent explicitly stated in the following opinions prescribed by the Accounts Commission.

Opinions prescribed by the Accounts Commission

In our opinion, based on the work undertaken in the course of the audit:

- The information given in the Management Commentary for the financial year for which the financial statements are prepared is consistent with the financial statements and that report has been prepared in accordance with statutory guidance issued under the Local Government in Scotland Act 2003
- The information given in the Annual Governance Statement for the financial year for which the financial statements are prepared is consistent with the financial statements and that report has been prepared in accordance with the Delivering Good Governance in Local Government: Framework (2016); and
- The information given in the Governance Compliance Statement for the financial year for which the financial statements are prepared is consistent with the financial statements and that report has been prepared in accordance with The Local Government Pension Scheme (Scotland) Regulations 2018.

INDEPENDENT AUDITOR'S REPORT

Matters on which we are required to report by exception

We are required by the Accounts Commission to report to you if, in our opinion:

- Adequate accounting records have not been kept; or
- The financial statements are not in agreement with the accounting records; or
- We have not received all the information and explanations we require or our audit.

We have nothing to report in respect of these matters.

Conclusions on wider scope responsibilities

In addition to our responsibilities for the annual report, our conclusions on the wider scope responsibilities specified in the Code of Audit Practice, including those in respect of Best Value, are set out in our Annual Audit Report.

Use of our report

This report is made solely to the parties to whom it is addressed in accordance with Part VII of the Local Government (Scotland) Act 1973 and for no other purpose. In accordance with paragraph 120 of the Code of Audit Practice, we do not undertake to have responsibilities to members or officers, in their individual capacities, or to third parties.

Nick Bennett, (for and on behalf of Azets Audit Services)
Exchange Place 3
Semple Street
Edinburgh
EH3 8BL

September 2021

ANNUAL GOVERNANCE STATEMENT

Roles and responsibilities

The City of Edinburgh Council (the Council) has statutory responsibility for the administration of the Local Government Pension Scheme (LGPS) in the Lothian area of Scotland. This responsibility is for two separate funds: the Lothian Pension Fund and Scottish Homes Pension Fund (the Fund). The Lothian Pension Fund group comprises the investment and pensions team employed by LPFE Limited (LPFE) supporting the Council in its separate statutory capacity as the administering authority of the Fund (Administering Authority) and LPFI Limited (LPFI), the Group's regulated investment vehicle (together the LPF Group).

The main functions of the Administering Authority are administration of scheme benefits and the investment of the assets of the Fund. These functions are conducted in accordance with the Local Government Pension Scheme (Scotland) Regulations which are statutory instruments made under the Superannuation Act 1972. The role of Administering Authority is carried out via:

- the Pensions Committee and the Pensions Audit Sub-Committee
- the Pension Board
- the Joint Investment Strategy Panel; and
- the LPF Group.

Further details on the above arrangements can be found in the Governance section of the Management Commentary towards the front of this document.

Scope of responsibility

As the Administering Authority of the Fund, the Council is responsible for ensuring that its business in administering the Fund, is conducted in accordance with the law and appropriate standards, and that monies are safeguarded, properly accounted for, and used economically, efficiently and effectively. The Council also has a statutory duty under the Local Government in Scotland Act 2003, to make arrangements to secure best value, which for the Fund is exercised in conjunction with its other separate statutory duties.

In discharging these overall responsibilities, elected members, senior officers and external representatives are responsible for implementing effective arrangements for governing the affairs of the LPF Group, and facilitating the effective exercise of its functions, including arrangements for the management of risk. The Pensions Committee oversees the operational administration of the Fund by the LPF Group.

ANNUAL GOVERNANCE STATEMENT

The LPF Group has adopted a Local Code of Corporate Governance that's consistent with the principles of the Chartered Institute of Public Finance and Accountancy (CIPFA) and Society of Local Authority Chief Executives (SOLACE) framework 'Delivering Good Governance in Local Government'.

This statement explains how the LPF Group has complied with the Local Code of Corporate Governance and how it meets the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom.

The governance framework

The LPF Group operates within the wider governance framework of the Council but within specific ringfenced governance structures focused on the Fund themselves. The governance framework comprises the systems, controls, processes, cultures and values by which the LPF Group directs and controls the Fund. It also describes the way the LPF Group engages with and accounts to its stakeholders in relation to the management of the administration of the Fund. It enables the LPF Group to monitor the achievement of its objectives and consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The framework also applies to any subsidiary companies which are members of the LPF Group, namely LPFI and LPFE. The LPF Group is also directly regulated by The Pensions Regulator, the Financial Conduct Authority (regarding its regulated investment activity), the Scottish Information Commissioner and is subject to other corporate and public sector rules and regulations.

The LPF Group's ongoing compliance with its governance framework and regulatory obligations is monitored on an ongoing basis by the Pensions Committee, the Audit Sub-Committee and the Pension Board and the respective boards of LPFI and LPFE.

The Administering Authority has certain oversight functions and procedures which apply to the oversight of the LPF Group. These include the Council's Democracy, Governance and Resilience, Procurement, Information Governance and Internal Audit functions, all of which form part of the LPF Group's overall assurance stack. However, the Fund also seeks specialist external input in order to provide effective assurance around its financial services, investments and pensions specific business.

The LPF Group also places reliance upon certain of the internal financial controls within the Administering Authority's financial systems and the monitoring in place to ensure the effectiveness of these controls.

The relevant key elements of the LPF Group and the Fund governance framework within the

ANNUAL GOVERNANCE STATEMENT

Administering Authority, include:

- Identifying the objectives of the Fund in the Funding Strategy Statement, Statement of Investment Principles, Pension Administration Strategy and Operating Plan
- Since April 2015, The Pensions Regulator has been responsible for setting standards of governance and administration for the Local Government Pension Scheme. The LPF Group has taken steps to fully integrate compliance with these standards within the overall governance framework
- A systematic approach to monitoring service performance by the Pensions Committee, Pensions Audit Sub-Committee, Pension Board (each including external stakeholder representation), Independent Professional Observer and senior officers
- A structured programme to ensure that Pensions Committee and Pension Board members have the required standard of knowledge and understanding of Local Government Pension Scheme matters
- Operating within clearly established investment guidelines defined by the Local Government Pension Scheme Investment Regulations and the Fund's Statement of Investment Principles
- Compliance with the CIPFA Principles for Investment Decision Making and Disclosure in the Local Government Pension Scheme
- With the exception of managed funds, unlisted investments and property, all investments are held under custody by a global custodian. The Fund benefits from the custodian's extensive internal control framework
- Benchmarking of services in terms of standards and cost against other pension funds
- LPFE and LPFI operating within their respective constitutional documentation and the relevant companies' regulations
- LPFI operating within the relevant governance policies and procedures to ensure compliance with the Financial Conduct Authority's rules, regulations and guidance
- For LPF Group and Fund matters, the Pensions Committee, Pensions Audit Sub-Committee and Pension Board are responsible for scrutiny and challenge and a quarterly risk reporting process is in place to ensure full consideration of such matters
- Officers of the LPF Group are managed separately through the processes and procedures of LPFE, overseen by its board of directors, with terms and conditions and a human resources performance review and management strategy tailored to the express needs of the Fund and their stakeholders
- The directors of LPFE and LPFI have obligations to report to the Pensions Committee as the governing body for the Fund and the Administering Authority as the sole shareholder. In addition, the board and colleagues of LPFI are each individually regulated by the Financial Conduct Authority and so bound by the associated Principles and Standards of governance best practice.

ANNUAL GOVERNANCE STATEMENT

Elements of the governance framework of the Council that are relevant to the LPF Group and Fund include:

- The Council is embedding a culture of commercial excellence to ensure that its services always deliver Best Value. That is ongoing and seeks to improve standards in buying practices and processes across the Council including, to the extent applicable, the LPF Group and the Fund which bear the cost of its operation and administration
- The submission of reports, findings and recommendations from the external auditor, other inspectorates and internal audit, to the Pensions Committee, Pensions Audit Sub-Committee for all matters affecting the LPF Group and Fund and, in certain circumstances strictly for Council wide oversight purposes, the Corporate Leadership Team, Governance, Risk and Best Value Committee and wider Council
- The roles and responsibilities of Elected Members and Officers are defined in LPF Procedural Standing Orders, Council Committee Terms of Reference and Delegated Functions, Contract Standing Orders, Scheme of Delegation to Officers, the Member/officer protocol and Financial Regulations. These are subject to annual review
- The Chief Executive Officer has overall accountability to Council, for all aspects of operational management and overall responsibility for ensuring the continued development and improvement of systems and processes concerned with ensuring appropriate direction, accountability and control
- The Section 95 Officer has overall responsibility for ensuring appropriate advice is given to the Council and the LPF Group on all financial matters, keeping proper financial records of accounts and maintaining an effective system of internal financial control. For the Fund, the Section 95 officer responsibility has been sub-delegated to the Chief Finance Officer of the LPF Group
- The Chief Internal Auditor has overall responsibility to review, appraise and report to management and the Governance, Risk and Best Value Committee, but for matters relating to the LPF Group and Fund to the Pensions Committee and Pensions Audit Sub-Committee, on the adequacy of relevant internal control and corporate governance arrangements and on risks relating to approved policies, programmes and projects
- The Council's Democracy, Governance and Resilience Manager, reporting to the Head of Strategy and Communications, has responsibility for advising the Council on corporate governance arrangements and supports the LPF Group on certain aspects of its governance arrangements
- The risk management policy and framework set out the responsibilities of elected members, Governance, Risk and Best Value Committee, and for LPF Group and Fund matters the Pensions Committee and Pensions Audit Sub-Committee, management and colleagues for the identification and management of risks to corporate and service-related priorities:

ANNUAL GOVERNANCE STATEMENT

- Resilience and business continuity plans are in place for all essential Council services. These set out arrangements for continuing to deliver essential services in the event of an emergency or other disruption
- An Elected Members remuneration and expenses scheme is in place and is consistent with the Scottish Government's 'Councillors Remuneration: allowances and expenses – Guidance'. Information on the amounts and composition of elected members salaries, allowances and expenses is published on the Council's website
- The Council's Democracy, Governance and Resilience Senior Manager ensures that induction training on roles and responsibilities, and ongoing development opportunities, are provided for Elected Members. A separate policy on Pensions Committee and Pension Board member training has been adopted and is overseen by the LPF Group's officers
- Mandatory training for Councillors newly appointed to the Pensions Committee is programmed within the Induction and training programme for Elected Members. This focuses on governance, investment management and strategy and how the LPF Group and Fund work. Committee members are reminded of the requirement to undertake a minimum of 21 hours of training per financial year to fulfil their role on the Pensions Committee
- The LPF Code of Conduct and CEC Code of Conduct set out the standards of behaviour expected from Elected Members and officers, are in place
- The Employee Code of Conduct, Anti Bribery Policy and Policy on Fraud Prevention set out the responsibilities of officers and Elected Members in relation to fraud and corruption and are reinforced by the LPF Code of Conduct and Councillors' Code of Conduct, the Code of Ethical Standards and the Financial Regulations. The LPF Group has adapted policies to take into account the specific nature of its business and regulation
- The Whistleblowing policy provides a process for disclosure in the public interest about the Council and its activities by officers, Elected Members and others. The LPF Group has a separate and adapted policy to take into account the specific nature of its business and regulation

ANNUAL GOVERNANCE STATEMENT

A significant element of the governance framework is the system of internal controls, which is based on an ongoing process to identify and prioritise risks to the achievement of the Council's objectives, including those relevant to the LPG Group and Fund. Following the establishment of the wholly-owned subsidiary companies, LPFE and LPFI, the Council continues to have appropriate assurance processes and procedures in relation to the responsible officers involved in the administration of those companies and so the wider LPF Group administering the Fund.

Review of Effectiveness

The Local Code of Governance details the Council's arrangements for monitoring each element of the framework and providing evidence of compliance. The Council's Governance and Democratic Services Manager has reviewed the effectiveness of the Code.

The Chief Internal Auditor has also provided an assurance statement on the effectiveness of the system of internal control. This is based on the outcomes of two audits included in the LPF 2020/201 IA annual plan, and the status of LPF's open and overdue IA findings as at 31 March 2021. The opinion in the assurance statement states: "IA considers that the LPF control environment and governance and risk management frameworks require some improvement, and is therefore reporting a limited `amber' rated opinion (see Appendix 1), with our assessment towards the lower end of this category. This opinion is `limited' as IA doesn't provide assurance across the full population of LPF risks. Consequently, the (Pensions) Committee should consider the assurance outcomes provided by other sources when forming their view on the design and effectiveness of LPF's control environment and governance and risk management frameworks. This assessment has improved in comparison to the 2019/20 IA opinion, when this rating was towards the middle of the amber `some improvement required' category."

Internal Audit, therefore, represents only one aspect of the LPF group's wider assurance stack, which also includes significant external assurance around the group's systems and controls, data security, human resources, risk management frameworks and FCA regulated compliance. These forms of external assurance continue to provide the Pensions Committee, Pensions Board and boards of LPFE and LPFI with good levels of assurance and broad coverage of the group's activities (where specialist professional knowledge and expertise is required) and haven't raised any material issues in this financial year.

The group closely monitors its overall `assurance stack' to ensure that it has appropriate levels of coverage proportionate to its business model and structures, and in line with its risk appetite. Stakeholders are comfortable with the levels of assurance provided, but the group is currently reviewing the structuring and effectiveness of its third line Internal Audit assurance.

The Chief Finance Officer of the LPF Group has provided a statement of the effectiveness of the internal financial control system for the year ended 31st March 2020 for the Fund. It is the Chief Finance Officer's opinion "that reasonable assurance can be placed upon the adequacy and effectiveness of the system of internal financial control for the LPF Group in administering the Lothian Pension Fund and Scottish Homes Pension Fund."

ANNUAL GOVERNANCE STATEMENT

Certification

It's our opinion, in light of the foregoing, that reasonable assurance can be placed upon the adequacy and effectiveness of the systems of governance that operate within the LPF Group in its administration of the Fund. We consider the governance and internal control environment operating during the financial year from 1 April 2020 to 31 March 2021 to provide reasonable and objective assurance that any significant risks impacting on the LPF Group and its ability to achieve its objectives in properly administering the Fund have and will continue to be identified and suitably proportionate actions have and will be taken to avoid or mitigate the impact of any such risks.

The LPF Group has identified certain key areas for improvement, summarised as follows:

- Human resources: To continue to implement the human resources strategy and Governance specific to LPF Group's requirements, prioritising an intranet to reinforce communications on policies, procedures and group `culture'
- Pension Board: To ensure that vacancies in the Pension Board are filled timeously and by suitable candidates and that this body of external stakeholder representatives receives the training and support it requires on an ongoing basis
- Business continuity: To continue to assess and refresh the business continuity plan on an ongoing basis ensuring sufficient engagement with colleagues and in particular in light of the prevailing circumstances of the COVID-19 pandemic and the Fund's Digital Strategy and office arrangements
- Digital strategy: To progress the Fund's Digital Strategy and embed the new managed service ICT provider for the Fund
- Financial services regulatory compliance: To continue to instruct external compliance audits on the operations and governance of LPFI in order to ensure best practice compliance and assurance around its existing operations (and in preparation for its extended collaborative business model) and take action to address the recommendations from those audits on an ongoing basis
- Third line: to review the structure and effectiveness of its internal audit assurance
- Wider governance: To continue to maintain and reinforce separate governance and controls specific to the needs of the LPF Group, the pensions funds it administers and its distinct duties to employer and member stakeholders; consistently throughout the LPF Group's governance structures. To ensure that oversight by the City of Edinburgh Council is supported in a manner consistent with these duties.

The LPF Group will continue to ensure that these are treated as a priority and that progress

ANNUAL GOVERNANCE STATEMENT

towards implementation will be reviewed through the governance structures and processes established for the LPF Group and summarised herein.

GOVERNANCE COMPLIANCE STATEMENT

The Regulations that govern the management of Local Government Pension Scheme in Scotland require that a Governance Compliance Statement is published. This statement sets out the extent to which governance arrangements comply with best practice.

The statement below describes arrangements at 31 March 2021 and over the financial year.

Principle		Full Compliance	Comments
Structure	The management of the administration of benefits and strategic management of fund assets clearly rests with the main committee established by the appointing Council.	✔	The City of Edinburgh Council acts as administering authority and delegates all pension scheme matters to a committee of seven members (Pensions Committee) made up as follows: Five City of Edinburgh Council elected members Two external members, one drawn from the membership of the Fund and one drawn from the employers that participate in the Fund.
	That representatives of participating LGPS employers, admitted bodies and scheme members (including pensioner and deferred members) are members of either the main or secondary committee established to underpin the work of the main committee.	✔	The Pensions Committee includes two external places for pension fund stakeholders i.e. one each from the employer and member representatives. Fund members and employers are also represented within the Fund's Pension Board. Membership includes five employer representatives and five member representatives, although this is currently under review. All members of the Pension Board are invited to attend the meeting of the Pensions Committee and receive the relevant papers prior to those meetings. Two members of the Pension Board are invited to attend the Pensions Audit Sub-Committee.

GOVERNANCE COMPLIANCE STATEMENT

Principle		Full Compliance	Comments
Structure	That where a secondary committee or board has been established, the structure ensures effective communication across both levels.	✔	The Pensions Audit Sub-Committee, consisting of three members of the Pensions Committee, report to the Pensions Committee on their findings and recommendations. Two members of the Pension Board attend the Pensions Audit Sub-Committee in a non-voting capacity. The Pension Board attends the Pensions Committee meetings and takes part in training events. Implementation of investment strategy is delegated to the Executive Director of Resources who then delegates to the Head of Finance, who takes advice from the Joint Investment Strategy Panel. The Panel meets quarterly and reports to the Pensions Committee annually. The advisers on the Joint Investment Strategy Panel consists of the Chief Investment Officer and on other portfolio manager of LPFI plus two experienced independent external industry advisers. The Pensions Committee receives annual updates from LPFE and LPFI.
Representation	That all key stakeholders are afforded the opportunity to be represented within the main or secondary committee structure. These include employing authorities (including non-scheme employers, e.g. admitted bodies) and scheme members (including deferred and pensioner scheme members).	✔	The Pension Board consists of a mix of representatives: • Five employer representatives from non-administering authority employers • Five member representatives appointed by the Trade Unions in accordance with the approach required under Scottish statute. •
	Where appropriate, independent professional observers, and expert advisers (on an ad-hoc basis).	✔	An Independent Professional Observer was appointed in March 2013 to help Committee scrutinize advice. This contract expired in February 2018 and a new Observer was appointed in August 2018.

GOVERNANCE COMPLIANCE STATEMENT

Principle		Full Compliance	Comments
Representation	Where appropriate, independent professional observers, and expert advisers (on an ad-hoc basis).	✔	As mentioned previously, external investment advisers sit on the Joint Investment Strategy Panel. A separate specialist Pensions Audit Sub-Committee consisting of three members (including at least two elected members from the City of Edinburgh Council) undertake the audit scrutiny of the funds. A non-executive director was appointed to the board of LPFI on 7 February 2017 and LPFE on 19 March 2018. A further non-executive director is expected to be appointed to both boards in Q3 2020. An external compliance consultant supports the LPF Group on its ongoing compliance with the Financial Conduct Authority rules, regulations and guidance.
	That where lay members sit on a main or secondary committee, they're treated equally in terms of access to papers and meetings, training and are given full opportunity to contribute to the decision- making process, with or without voting rights.	✔	The Pension Board attends the Pensions Committee meetings to help ensure that the operation of the pension funds is in accordance with the applicable law and regulation. The Pension Board takes part in all Committee training events. The Pensions Committee takes account of the views of the Pension Board when making decisions.
Selection and Role of Lay Members	That committee or board members are made fully aware of the status, role and function that they're required to perform on either a main or secondary committee.	✔	A comprehensive training programme including induction is in place. Members of the Pensions Committee and Pension Board are expected to attend no less than three days of training (21 hours) per year. The elected members are required to read, sign and abide by the Councillors' Code of Conduct. The LPF Code of Conduct, approved in December 2019, (which has been specifically updated and tailored for the Pension Committee and Pension Board) will be required to be read and signed by elected and non-elected members prior to their appointment.

GOVERNANCE COMPLIANCE STATEMENT

Principle		Full Compliance	Comments
Selection and Role of Lay Members	That at the start of any meeting, committee members are invited to declare any financial or pecuniary interest related to specific matters on the agenda.	✔	The declaration of members' interests is a standard item on the agenda for meetings of the Pensions Committee, Pensions Audit Sub-Committee and Pension Board. A Code of Conduct also applies to all members of the Pensions Committee and the Pension Board. The declaration of board members interest is a standard item on the agenda for the meetings for the LPFE and LPFI board meetings.
Voting	The policy of individual administering authorities on voting rights is clear and transparent, including the justification for not extending voting rights to each body or group represented on main LGPS committees.	✔	Five of the seven places of the Pensions Committee are held by elected members of the City of Edinburgh Council, which is required to retain a 2/3 majority in line with the Local Government (Scotland) Act 1973. The LPF Group's Nomination and Appointments Policy clearly documents how employer and member representatives will be elected to the Pensions Committee and Pension Board. LPFI and LPFE board members conduct meetings and other matters in accordance with their respective articles of association and shareholders' agreements.
Training/ Facility Time/ Expenses	a) That in relation to the way in which statutory and related decisions are taken by the administering authority, there is a clear policy on training, facility time and reimbursement of expenses in respect of members involved in the decision-making process.	✔	A Training and Attendance Policy is in place covering training requirements and reimbursement of expenses. The policy is available on the LPF Group's website www.lpf.org.uk. Board members and staff working for LPFI and LPFE also attend separate training for the purposes of their knowledge, understanding and (where appropriate) compliance with Financial Conduct Authority regulations.
	b) That where such a policy exists, it applies equally to all members of committees, sub-committees, advisory panels or any other form of secondary forum.	✔	The Training and Attendance Policy applies to both the Pensions Committee and the Pension Board. Advisers have their own professional development obligations.

GOVERNANCE COMPLIANCE STATEMENT

Principle		Full Compliance	Comments
Training/ Facility Time/ Expenses	c) That the administering authority considers the adoption of annual training plans for committee and board members and maintains a log of all such training.	✔	Each Pensions Committee and Pension Board member is expected to attend no less than three days training per year (21 hours) per year. Attendance at meetings and training is monitored and reported.
Meetings frequency	a) That an administering authority's main committee or committees meet at least quarterly.	✔	The Pensions Committee meets at least four times a year. Due to urgent business, the Pension Committee met two additional times during the year on 26 January 2021 and 24 March 2021.
	b) That an administering authority's secondary committee or panel meet at least twice a year and is synchronised with the dates when the main committees sits.	✔	The Pensions Audit Sub-Committee is held before the Pensions Committee at least three times a year with further meetings held if necessary. The Joint Investment Strategy Panel meets quarterly or more frequently as required. The Pension Board attends all the Pensions Committee meetings and separately meets in advance of such meetings. Further meetings are held if necessary. The LPFE board now meet five times a year (in February, May, June, August, October and December) and the LPFI board at least quarterly.
	c) That an administering authority who doesn't include lay members in their formal governance arrangements must provide a forum outside of those arrangements by which the interests of key stakeholders can be represented.	Not applicable	
Access	That subject to any rules in the council's constitution, all members of main and secondary committees or boards have equal access to committee papers, documents and advice that falls to be considered at meetings of the main committee.	✔	Pensions Committee papers and minutes are publicly available on the Council's website and all Pensions Committee and Pension Board members have equal access. Members of the Pensions Committee and Pension Board have equal access to the Independent Professional Observer who provides quarterly updates and attends all Pension Committee, Audit Sub Committee and Pension Board meetings.

GOVERNANCE COMPLIANCE STATEMENT

Principle		Full Compliance	Comments
Scope	That administering authorities have taken steps to bring wider scheme issues within the scope of their governance arrangements.	✔	The Pensions Committee deals with all matters relating to both the administration and investment of the Fund and the LPF Group. A separate specialist Pensions Audit Sub-Committee consisting of three members (including at least two elected members from the City of Edinburgh Council) undertake the audit scrutiny of the Fund.
Publicity	That administering authorities have published details of their governance arrangements in such a way that stakeholders with an interest in the way in which the scheme is governed, can express an interest in wanting to be part of those arrangements.	✔	Governance documents, policies and details of Pension Board membership are on the LPF Group's website. The LPF Group also communicates regularly with employers and scheme members.

REMUNERATION REPORT

Remuneration policy for employees

Our officers and employees of Lothian Pension Fund are employed by LPFE, an arms-length organisation owned by the City of Edinburgh Council, the administering authority for Lothian Pension Fund. In recent years LPFE has been incorporated as a standalone entity to allow us to compete with private sector investment management firms for recruitment and retention of skilled and experienced investment managers and analysts.

Operating this model allows us to achieve significantly lower costs, and therefore improved net returns or lower investment risk than would be possible by appointing private sector asset managers to invest the Fund's assets. The LPFE Board acts as a Remuneration Committee for officers and employees determining pay arrangements based on comparison to well-researched market benchmarks and performance against pre-agreed performance targets, and always linked to the principle of delivering value-for-money for the members of the Fund and their sponsoring employers.

Each year LPF participates in a range of benchmarking exercises to measure operating costs and net investment returns against peers and indices relevant to us. Pay arrangements in LPFE are underpinned by comprehensive market benchmarking with an external provider and reflect the market for investment expertise where this is a requirement for the role. By using benchmarks on costs and net investment returns, we're able to provide assurance to our oversight bodies that such pay arrangements represent value-for-money for employee members and their sponsoring employers who bear the costs of operating the pension fund and securing retirement benefits.

We have three variable pay schemes at LPF; two of which have vesting periods. The Portfolio Manager and Senior Management schemes entitle colleagues to receive an assessed percentage of their salary as an additional variable pay award if they meet certain objectives during the year. The assessment year runs from 1 January to 31 December each year. The award then vests over three years.

The first part is payable at the end of the first year if the objectives are met and the remaining two parts are payable in the following two years if the requirement that the employee is still employed by the company at such time is met.

The accounting treatment for variable pay as outlined in "International Accounting Standard (IAS) 19, Employee Benefits" states that employee service before the vesting date gives rise to an obligation to make payment, because, at the end of each successive reporting period, the amount of future service that an employee will have to deliver before becoming entitled to the benefit is reduced.

In accordance with IAS 19, therefore, a liability has been raised as at 31 March 2021 for the two months of service which the employees have delivered with regards to the remaining vested payments in the scheme.

REMUNERATION REPORT

This obligation of LPF to make payments as a result of colleague service delivered up to 31 March 2021 is reflected in the figures presented below.

NUMBER OF EMPLOYEES BY PAY BAND

The numbers of employees whose remuneration during the year exceeded £50,000 were as follows:

Remuneration Bands	2019/20	2020/21	Remuneration Bands	2019/20	2020/21
£50,000 - £54,999	1	-	£110,000 - £114,999	1	-
£55,000 - £59,999	1	-	£115,000 - £119,999	4	-
£60,000 - £64,999	1	4	£120,000 - £124,999	-	-
£65,000 - £69,999	1	-	£125,000 - £129,999	-	1
£70,000 - £74,999	1	2	£130,000 - £134,999	-	3
£75,000 - £79,999	-	-	£135,000 - £139,999	1	1
£80,000 - £84,999	-	1	£140,000 - £144,999	-	1
£85,000 - £89,999	1	-	£145,000 - £149,999	-	-
£90,000 - £94,999	-	-	£150,000 - £154,999	-	-
£95,000 - £99,999	-	-	£155,000 - £159,999	5	1
£100,000 - £104,999	-	2	£160,000 - £164,999	-	-
£105,000 - £109,999	2	-	£165,000 - £169,999	-	4
			Total No. of Employees	**19**	**20**

REMUNERATION REPORT

EMPLOYEES REMUNERATION

The remuneration paid to LPF's senior employees is as follows:

	Total Remuneration 2019/20	Salary, Fees and Allowances	Variable Remuneration	Total Remuneration 2020/21
Name and Post Title	**£000**	**£000**	**£000**	**£000**
Doug Heron, Chief Executive Officer (from February 2019)	136	121	36	157
Bruce Miller, Chief Investment Officer	149	116	53	169
Struan Fairbairn, Chief Risk Officer (Head of Legal, Risk and Compliance)	115	91	41	132
John Burns, Chief Finance Officer	115	87	39	126
Helen Honeyman, Head of People and Communications (from January 2020)	14	80	18	98
Total	**529**	**495**	**187**	**682**

The senior colleagues detailed above have responsibility for management of the LPF group to the extent that they have power to direct or control the major activities of the group (including activities involving the expenditure of money), during the year to which the Remuneration Report relates, whether solely or collectively with other persons.

REMUNERATION REPORT

The variable remuneration shown above includes the Company variable remuneration for 2020/21 along with the Senior Management variable remuneration for 2020/21 and vested payment for the previous two assessment years. This is split as follows:

	Company Variable Remuneration 2020/21	Senior Management Variable Remuneration			Total Variable Remuneration 2020/21
		2019 Payment 3	2020 Payment 2	2021 Payment 1	
Name and Post Title	£000	£000	£000	£000	£000
Doug Heron, Chief Executive Officer	11	-	10	15	36
Bruce Miller, Chief Investment Officer	11	13	15	14	53
Struan Fairbairn, Chief Risk Officer (Head of Legal, Risk and Compliance)	9	10	11	11	41
John Burns, Chief Finance Officer	8	10	10	11	39
Helen Honeyman, Head of People and Communications	7	-	-	11	18
Total	**46**	**33**	**46**	**62**	**187**

The remuneration paid to our employees whose remuneration during the year exceeded £150,000 is as follows:

	Total Remuneration 2019/20	Salary, Fees and Allowances	Variable Remuneration	Total Remuneration 2020/21
Name and Post Title	£000	£000	£000	£000
Andrew Imrie, Portfolio Manager	154	110	57	167
Stewart Piotrowicz, Portfolio Manager	152	109	57	166
Ian Wagstaff, Portfolio Manager	152	109	57	166
Total	**458**	**328**	**171**	**499**

REMUNERATION REPORT

The variable remuneration shown on the previous page includes the Company variable remuneration for 2020/21 along with the Portfolio Manager variable remuneration for 2020/21 and vested payment for the previous two assessment years. This is split as follows:

	Company Variable Remuneration 2020/21	Portfolio Manager Variable Remuneration			Total Variable Remuneration 2020/21
		2019 Payment 3	2020 Payment 2	2021 Payment 1	
Name and Post Title	£000	£000	£000	£000	£000
Andrew Imrie, Portfolio Manager	11	20	13	13	57
Stewart Piotrowicz, Portfolio Manager	11	20	13	13	57
Ian Wagstaff, Portfolio Manager	11	20	13	13	57
Total	**33**	**60**	**39**	**39**	**171**

Senior officers of the City of Edinburgh Council are also fully remunerated via the Council and no additional remuneration is paid by LPF. This remuneration is disclosed in the Financial Statements of the City of Edinburgh Council.

The total amount of variable remuneration payable over the next two years if all of the colleagues involved in the arrangements at 31 January 2021 remain in the company's employment is as follows:

	Payable January 2022		Payable January 2023
	2020 Payment 3	2021 Payment 2	2021 Payment 3
	£000	£000	£000
Senior Employee Variable Remuneration	36	45	45
Portfolio Manager Variable Remuneration	99	95	95
Employer National Insurance Contribution	18	19	19
Total	**153**	**159**	**159**

The amounts payable for senior employee variable remuneration over the next two years exclude amounts previously calculated for Doug Heron in respect of performance in 2019/20 and 2020/21 following his resignation from LPFE in March 2021, and subsequent foregoing of vested variable pay.

REMUNERATION REPORT

Colleague Pension Entitlement

Pension benefits for colleagues are provided through the Local Government Pension Scheme.

The Local Government Pension Scheme became a career average pay scheme for colleagues on 1 April 2015. Benefits built up to 31 March 2015 are protected and based on final salary. Accrued benefits from 1 April 2015 will be based on career average salary.

The Scheme's normal retirement age for colleagues is linked to the State Pension Age (with a minimum of age 65).

From 1 April 2009, a five-tier contribution system was introduced with contributions from Scheme members being based on how much pay falls into each tier. This is designed to give more equality between the cost and benefits of scheme membership. Prior to 2009, contributions rates were set at 6% for all non-manual colleagues.

The tiers and members' contribution rates for 2020/21 were as follows:

Pensionable Pay (2020/2021)	Rate (%)
On earnings up to and including £22,200 (2019/2020 £21,800)	5.5%
On earnings above £22,201 and up to 27,100 (2019/2020 £21,800 to £26,700)	7.25%
On earnings above £27,101 and up to £37,200 (2019/2020 £26,700 to £36,600)	8.5%
On earnings above £37,201 and up to £49,600 (2019/2020 £36,600 to £48,800)	9.5%
On earnings of £49,601 and above (2019/2020 £48,800)	12.0%

If a person works part-time, their contribution rate is worked out on the whole-time pay rate for the job, with actual contributions paid on actual pay earned.

There is no automatic entitlement to a lump sum. Members may opt to give up (commute) pension for lump sum up to the limit set by the Finance Act 2004.

The value of the accrued benefits has been calculated on the basis of the age at which the person will first become entitled to receive a pension on retirement without reduction on account of its payment at that age; without exercising any option to commute pension entitlement into a lump sum; and without any adjustment for the effects of future inflation.

The pension figures shown relate to the benefits that the person has accrued as a consequence of their total local government service, and not just their current appointment.

REMUNERATION REPORT

The pension entitlement of the LPF Group's senior employees is as follows:

	In-year Pension Contributions			Accrued Pension Benefits	
	2019/20	2020/21		As at 31 March 2021	Increase from 31 March 2020
